**Notes to the Abbreviated Accounts**

**for the year ended 31 March 2015**

## 1 Accounting policies

***Basis of preparation***

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

***Turnover***

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers.

***Depreciation***

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

| | |
|---|---|
| Short leasehold | in accordance with the property |
| Fixtures and fittings | 25% on reducing balance |
| Motor vehicles | 25% on reducing balance |
| Computer equipment | 33% on cost |

***Stocks***

Stock is valued at the lower of cost and net realisable value.

***Deferred taxation***

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

***Leasing and hire purchase commitments***

Assets held under finance leases and hire purchase contracts, which are those where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet and depreciated over their useful lives. The corresponding lease or hire purchase obligation is treated in the balance sheet as a liability.

The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.

## 2 Going concern

The company meets its day to day requirements through the continued support of the creditors and the bank. The director considers that the company will operate within its current facilities. However, the margin of facilities over the requirements is not large and, inherently, there can

be no certainty to these matters. On this basis, the director considers it appropriate to prepare the financial statements on a going concern basis. The financial statements do not include any adjustment that would result in a withdrawal of the support of the creditors or the bank.
