1. Accounting policies (continued)

1.2 Financial Reporting Standard 101 - reduced disclosure exemptions (continued)

the requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d)-134(f) and 135(c)-135(e) of IAS 36 Impairment of Assets.

The Company proposes to continue to adopt the reduced disclosure framework of FRS 101 in its next financial statements.

1.3 Going concern

The directors have considered the funding and liquidity position of the Company. Following this review, the directors consider it appropriate to continue to prepare the financial statements on the going concern basis.

1.4 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

1.5 Financial instruments

Financial assets

Classification, initial recognition and measurement

Under IFRS 9, Finiancial Instruments, on initial recognition, the Company classifies and measures its financial assets in the following categories

- 1) Amortised cost;
- 2) Fair value through other comprehensive income ('FVOCI'); or
- 3) Fair value through profit or loss ('FVTPL')

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred and it does not retain control of the financial asset.

Impairment of non-derivative financial assets

The Company assesses, on a forward-looking basis the expected credit losses ('ECLs') applicable to its financial assets measured at amortised cost. The Company measures loss allowances at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Notes to the financial statements For the year ended 31 December 2021

1. Accounting policies (continued)

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

1.6 Debtors

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

1.7 Dividends

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders at annual general meeting.

1.8 Taxation

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the Company operates and generates income.

2. Employees

The Company has no employees other than the directors, who did not receive any remuneration (2020 - £NIL).

3. Directors' remuneration

None of the directors received any remuneration from the Company during the year or prior period. The directors' remuneration was borne by group undertakings. The directors do not believe that it is practicable to apportion the remuneration between their services as directors of the Company and their services as directors/employees of other group undertakings.

	2021 £	2020 £
Profit on ordinary activities before tax	1,333,021	1,216,945
Profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 19% (2020 - 19%) Effects of:	253,274	231,220

The UK corporation tax rate was retained at 19% from 1 April 2020. The measure was announced in the Budget held on 11 March 2020 and was substantively enacted on 17 March 2020. In the 2021 Budget held on 3 March 2021, it was announced that the main UK corporation tax rate will increase to 25% from 1 April 2023. The rate change will impact the amount of future tax recognised by the company. However it does not have any effect on the current year's results.

Unrecognised deferred tax

No deductible or taxable differences arose during the year, thus no deferred tax assets or deferred tax liabilities have been recognised.
