NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2005

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with applicable accounting standards.

Changes in accounting policies

In preparing the financial statements for the current year, the company has adopted the following Financial Reporting Standards:

FRS 21 'Events after the Balance Sheet date (IAS 10)'

The adoption of FRS 21 has resulted in a change in accounting policy in respect of proposed equity dividends. If the company declares dividends to the holders of equity instruments after the balance sheet date, the company does not recognise those dividends as a liability at the balance sheet date. The aggregate amount of equity dividends proposed before approval of the financial statements, which have not been shown as liabilities at the balance sheet date, are disclosed in the notes to the financial statements. Previously, proposed equity dividends were recorded as liabilities at the balance sheet date.

Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a cash flow statement in the financial statements on the grounds that the company is wholly owned and its parent publishes a consolidated cash flow statement.

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant & Machinery

5-33.33% per annum on cost

Motor Vehicles

- 20% per annum on cost

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2005

1. ACCOUNTING POLICIES (continued)

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

Pension costs

The company participates in a defined benefit multi-employer pension scheme. The assets and liabilities of which are held independently from the group. The company is unable to identify its share of the underlying assets and liabilities of the scheme and accordingly accounts for the scheme, in accordance with the exemptions provided in FRS 17 as if it were a defined contribution scheme. The annual amounts payable are charged to the profit and loss account. The defined benefit scheme is accounted for under FRS 17 in the parent company accounts, CN Group Limited and any available information about the surplus or deficit in the scheme is shown in these accounts.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

2. TURNOVER

The turnover and profit before tax are attributable to the one principal activity of the company. An analysis of turnover is given below:

The company is unable to identify its share of the underlying assets and liabilities of the scheme and accordingly accounts for the scheme, in accordance with the exemptions provided in FRS 17 as if it were a defined contribution scheme. The annual amounts payable are charged to the profit and loss account. The contributions are determined by a qualified actuary on the basis of triennial valuations using the projected unit method and are based on pension costs across the group as a whole.
