## Directors' responsibilities statement for the year ended 31 July 2020

---

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the company for that year.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

### 2 Accounting policies (continued)

#### *Going concern*

The directors confirm that after making appropriate enquiries, they have a reasonable expectation that the Company has adequate support from its ultimate parent company, Volution Group plc, to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the financial statements. The directors' responsibilities are set out on page 4 and should be read in conjunction with this statement.

#### *Financial assets*

##### *Initial recognition and measurement*

Financial assets are recognised when the Company becomes party to the contractual provisions of the instrument.

All financial assets are recognised initially at fair value plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset. The Company's financial assets include trade and other receivables.

##### *Derecognition of financial assets*

A financial asset is derecognised when (i) the rights to receive cash flows from the asset have expired or (ii) the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

#### *New standards and interpretations*

##### *IFRS 16 Leases*

IFRS 16 Leases was issued in January 2017 to replace IAS 17 Leases. The standard is effective for accounting periods beginning on or after 1 January 2019 and will be adopted by the Company on 1 August 2019.

IFRS 16 will result in almost all leases being recognised on the balance sheet as the distinction between operating leases and finance leases is removed. Under the new standard, a right-of-use asset and a financial liability for the future lease payments are recognised.

The Company will apply the standard from 1 August 2019 and will apply the modified retrospective transition approach.

The Company has no leases and therefore IFRS 16 has no impact.
