Annual Report and Financial Statements

31 December 2009

WEDNESDAY

30/06/2010 COMPANIES HOUSE

Directors' Report

The Directors present their Annual Report and the audited financial statements for the year ended 31 December 2009

Review of business and future developments

The principal activity of the Company during the year was and will continue to be the transport of freight by rail. This activity is based in Chile

The Company uses a number of financial and non-financial key performance indicators in order to measure performance, which are set out below. Other key performance indicators relating to the Antofagasta plc group as a whole, including information relating to employees, health and safety and the environment, are contained within the Group's 2009 Annual Report, available from the Group's website, www antofagasta coluk

		2009	2008
_			
Turnover	US\$'000	123,517	128,695
Operating profit	US\$'000	35,992	43,450
Capital expenditure	US\$'000	14,468	29,644
Rail tonnage transported	000 tons	5,264	4,620

Turnover decreased by US\$5,178,000 or 4% to US\$123,517,000 This decrease mainly reflected tariff adjustments, partly due to rates indexed to inflation and fuel costs. Operating profit decreased by US\$7,458,000 or 17% to US\$35,992,000 Capital expenditure in the year was US\$14,468,000 (2008 – US\$29,644,000)

Rail tonnages in Chile rose to 5 3 million tons in 2009, compared with 4 6 million tons in 2008. This was due to the full-year effect of increased volumes from the San Cristóbal mine in Bolivia, which achieved full tonnage volumes in the second half of 2008, as well as increases from other mining customers.

Results and Dividends

The profit before taxation was US\$39,297,000 in 2009 compared with US\$57,631,000 in 2008. The decrease reflected the lower operating profit, along with reduced interest receivable. In 2009 the external interest receivable was US\$1,550,000 compared with US\$8,179,000 in 2008, partly reflecting a general reduction in market interest rates.

The Directors do not recommend the payment of an ordinary dividend (2008 - nil)

Preference shares carry the right to a fixed cumulative dividend of 5 per cent per annum. The preference shares are classified within borrowings, and preference dividends are included within finance costs. The total cost of preference dividends paid and recognised as an expense in the income statement was US\$156,000 (2008 – US\$184,000).

The retained profit of US\$30,504,000 (2008 - US\$47,410,000) has been transferred to reserves

Directors' Report (Continued)

Fixed assets

Details of movements in tangible fixed assets during the year are given in Note 7 to the accounts

Going Concern

The company's business activities, together with those factors likely to affect its future performance, are set out in the Review of business. Details of the key risks facing the company and financial risk management, including details on the management of liquidity and credit risk, are set out below.

In assessing the company's going concern status the Directors have taken into account the above factors, including the financial position of the company, in particular its net cash position, market expectations in the medium-term, and the company's capital expenditure and financing plans

After making appropriate enquiries, the Directors consider that the Company has adequate resources to continue in operational existence for the foreseeable future and that it is appropriate to adopt the going concern basis in preparing the financial statements

Principal risks and uncertainties

Introduction

The Company is exposed to a range of risks and uncertainties which may affect it. These risks include strategic, commercial, operational, regulatory and financial risks. A summary of the key risks facing the Company is set out below. There may be additional risks unknown to the Company and other risks, currently believed to be insignificant, could turn out to be significant. These risks, whether they materialise individually or simultaneously, could significantly affect the Company's business and financial results. In addition to the Company-specific risks discussed below, the risks and uncertainties relating to the Antofagasta plc group as a whole are described in the Group's Annual Report, available from the Group's website.

Economic environment and customer demand

The Company's main business is the transportation of copper cathodes from, and sulphuric acid to, copper mines located in the Antofagasta region of Chile. As such, demand for the Company's services is affected by the performance of the copper mining industry, and the development of new mining projects in that region.

The financial performance of mining companies is directly related to commodity price levels, which are influenced strongly by world economic growth, and can fluctuate widely. Demand for supplies, equipment, skilled personnel and contractors could affect capital and operating costs, which may impact the development of new mining projects and the expansion of existing mining operations.

Mining operations and project developments are also subject to a number of circumstances not wholly within their control, including damage to or breakdown of equipment or infrastructure, natural disasters, unexpected geological variations and industrial actions. Increasing regulatory and environmental approvals and litigation could result in significant delays in construction and/or increases in construction costs. These events could materially and adversely affect a mining project's economics or its successful completion.

Operational risks

The costs of capital projects or on-going operating expenses could increase beyond current levels, due to changes in the general economic environment or project specific factors, resulting in a reduction in profitability

Directors' Report (Continued)

Political environment

The Company could be affected by any political or regulatory developments in any of the areas in which it operates, including controls on imports, exports and prices, expropriation of assets, or new forms or rates of taxation and royalties

Health, safety and environment

The Company operates in an industry that is subject to numerous health and safety laws and regulations. Developments in regulatory standards could result in increased costs and/or litigation, which could impact on earnings and cash flows.

Financial risk and risk management

The Company periodically uses derivative financial instruments to reduce exposure to foreign exchange movements. The Company does not use such derivative instruments for speculative trading purposes. The Company did not apply the hedge accounting provisions of FRS 26 "Financial Instruments. Recognition and Measurement" in either 2008 or 2009. Accordingly, any derivatives are measured at each balance sheet date at fair value. Gains and losses arising from changes in fair value of exchange derivatives are included in the profit and loss account for the year.

Foreign exchange risk

The Company is exposed to a variety of currencies. The US dollar, however, is the currency in which the majority of the Group's sales and operating costs are determined. In addition to the US dollar, the Chilean peso is the most important currency influencing costs and, to a lesser extent, sales.

Given the significance of the US dollar to the Company's operations, this is the functional and presentational currency of the Company for internal and external reporting. The US dollar is also the principal currency for borrowing and holding surplus cash, although a portion of this may be held in other currencies, notably Chilean pesos, to meet short-term operational and capital commitments.

When considered appropriate the Company uses forward exchange contracts and currency swaps to limit the effects of movements in exchange rates in foreign currency denominated assets and liabilities. The Company also uses these instruments to reduce currency exposure on future transactions and cash flows.

Interest rate risk

The Company's policy is generally to borrow and invest cash at floating rates. Fluctuations in interest rates may impact on the Company's net finance income or cost, and to a lesser extent on the value of financial assets and liabilities.

Price risk

The majority of the Company's sales are based on medium to long-term contracts with customers for which transport tariffs are adjusted for Chilean inflation, US inflation and fuel prices. Tariffs are also based on transport volumes and transport distances. Prices achieved by the Company may therefore vary with these factors.

Credit risk

Credit risk arises from trade and other receivables, cash and cash equivalents and derivative financial instruments. The Company's credit risk is primarily to trade receivables. The credit risk on cash and cash equivalents and on derivative financial instruments is limited because the counterparties are banks with high credit ratings assigned by international credit agencies. The carrying value of financial assets recorded in the financial statements represents the maximum exposure to credit risk. The amounts presented in the balance sheet are net of allowances for any doubtful receivables.

Directors' Report (Continued)

Cash flow risk

The Company's future cash flows depend on a number of factors, including transport tariffs, transport volumes, operating costs, capital expenditure levels and financial income and costs. Its cash flows are therefore subject to the exchange rate, interest rate and price risks described above as well as operational factors and input costs.

Liquidity risk

The Company typically holds surplus cash balances either on demand deposits or short-term deposits. The majority of borrowings comprise customer advances for capital expenditure. The loans are repayable out of future customer receipts based on tonnages transported and are expected to be repaid within five years. At the end of both 2008 and 2009, the Company was in a net cash position.

Critical accounting judgements and key sources of estimation uncertainty

Determining many of the amounts included in the financial statements involves the use of judgement and/or estimation based on management's best knowledge of the relevant facts and circumstances, having regard to prior experience, but actual results may differ from the amounts included in the financial statements. Changes in judgements or the assumptions underlying estimates could result in a significant impact on the financial statements. Details of principal accounting policies are set out in Note 1(b) to the financial statements and details of critical accounting judgements and key sources of estimation uncertainty are set out in Note 1(c) to the financial statements.

Environment

The environmental policies and activities for the Antofagasta plc group as a whole are discussed on pages 39 - 41 in the Group's 2009 Annual Report, available from the Group's website

Directors

The following were Directors throughout the year and subsequently unless otherwise stated

J-P Luksic

CH Bailey

GS Menendez

RF Jara

DR O'Conor

J Lavın

CR Mladinic

Creditor days

The Company does not trade in the United Kingdom Creditor days for the Company have been calculated at 77 days (2008 – 61 days) Credit terms are agreed with individual suppliers and payment is made in accordance with terms agreed

Insurance

During the year the parent company, Antofagasta plc, purchased Directors' and Officers' liability insurance on behalf of the Group as permitted by s232 to s238 of the Companies Act 2006

Directors' Report (Continued)

Auditors

In the case of each of the persons who is a Director at the date of approval of this Annual Report

- so far as he is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- he has taken all steps that he ought to have taken as a Director in order to make himself aware
 of any relevant audit information and to establish that the Company's auditors are aware of that
 information

For these purposes, "relevant audit information" means information needed by the Company's auditors in connection with preparing their report

This statement is made and should be interpreted in accordance with the provisions of Section 418 of the Companies Act 2006

A resolution to re-appoint Deloitte LLP as the Company's auditors will be proposed at the forthcoming Annual General Meeting

By Order of the Board

D R O'Conor Director 5 Princes Gate London SW7 1QJ

Statement of Directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The financial statements are required by law to give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to.

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any
 material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Auditors' Report to the Members of Antofagasta Railway Company plc

We have audited the financial statements of Antofagasta Railway Company plc for the year ended 31 December 2009 which comprise the Profit and Loss Account, the note of historical cost profits and losses, the Balance Sheet and the related notes 1 to 21. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice)

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed

Respective responsibilities of directors and auditors

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements

Opinion on financial statements

In our opinion the financial statements

- give a true and fair view of the state of the company's affairs as at 31 December 2009 and of its profit for the year then ended,
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
 - we have not received all the information and explanations we require for our audit

Carl Hughes (Senior)Statutory Auditor) for and on behalf of Deloitte LLP

Notes to the Financial Statements - 31 December 2009

1 Basis of Preparation, Principal Accounting Policies and Key Sources of Estimation Uncertainty

(a) Basis of Preparation

These financial statements have been prepared in accordance with United Kingdom generally accepted accounting practice ("UK GAAP") and in accordance with UK company law. The financial information has been prepared on an historical cost basis, as modified by the revaluation of certain tangible fixed assets, available for sale investments and the use of fair values to measure certain financial instruments. The financial information has also been prepared on a going concern basis as explain in the Directors' Report.

The functional currency of the Company and the presentational currency adopted is the US dollar

A summary of the principal accounting policies is set out below

(b) Principal Accounting Policies

(i) Exemption from preparing group accounts

The Company has taken advantage of the exemption from preparing consolidated accounts afforded by Section 400 of the Companies Act 2006 because it is a wholly-owned subsidiary of Antofagasta plc which prepares consolidated accounts which are publicly available, and as such these financial statements contain financial information about the Company as an individual undertaking and not about its Group

(ii) Currency translation

The Company's functional currency and presentation currency is the US dollar. Transactions denominated in other currencies, including the issue of shares, are translated at the rate of exchange ruling on the date of the transaction Monetary assets and liabilities, including amounts due from or to subsidiaries, are translated at the rate of exchange ruling at the end of the financial year. Exchange differences are charged or credited to the profit and loss account in the year in which they arise

(iii) Turnover and revenue recognition

Turnover represents the value of goods and services supplied to third parties during the year. Turnover is measured at the fair value of consideration received or receivable, and excludes any applicable sales tax. A sale is recognised when the significant risks and rewards of ownership have passed. This is generally when title and any insurance risk has passed to the customer, and the goods have been delivered to a contractually agreed location or when any services have been provided. The Company has only one business and geographical segment, relating to the transport of freight by rail in Chile

Interest is accounted for on an accruals basis. Dividends proposed by subsidiaries are recognised as income by the Company when they represent a present obligation of the subsidiaries, i.e. in the period in which they are formally approved for payment

(iv) Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation or any provisions for impairment or, where previously revalued prior to the implementation of FRS 15, "Tangible Fixed Assets", at the revalued book amount as permitted under the transitional provisions of FRS 15. Cost comprises the purchase price and any costs directly attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended

Notes to the Financial Statements - 31 December 2009 (Continued)

Depreciation is provided to write down the carrying value of fixed assets to their estimated residual value in equal instalments at the following rates based on their estimated useful lives

- a Freehold land freehold land is not depreciated
- b Buildings and infrastructure straight-line basis over 10 to 25 years
- c Railway track straight-line basis over 20 to 25 years
- d Wagons and rolling stock straight-line basis over 10 to 20 years
- e Machinery, equipment and other assets straight-line basis over 5 to 10 years
- f Assets under construction no depreciation until asset is available for use

(v) Investments in subsidiaries

Investments in subsidiaries represent equity holdings in subsidiaries and long-term amounts owed by subsidiaries. Such investments are stated at cost less any provision for impairment. Investments are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable. When a review for impairment is conducted, the recoverable amount is assessed by reference to the net present value of expected future cash flows of the relevant income generating unit or disposal value if higher.

As explained in Note 1(b)(ii), amounts owed by subsidiaries due in foreign currencies are translated at year end rates of exchange with any exchange differences taken to the profit and loss account

(vi) Investments in associates

Investments in associates are stated at cost less any provision for impairment

(vii) Taxation

Tax expense comprises the charges or credits for the period relating to both current and deferred tax

Current tax is based on taxable profit for the year. Taxable profit may differ from net profit as reported in the income statement because it excludes items of income or expense that are taxable and deductible in different years and also excludes items that are not taxable or deductible. The liability for current tax is calculated using tax rates which have been enacted or substantively enacted at the balance sheet date.

Deferred tax is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on tax rates that have been enacted or substantively enacted by the balance sheet date, and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements.

Deferred tax is not provided on timing differences ansing from the revaluation of fixed assets where there is no commitment to sell the asset, or on unremitted earnings of subsidiaries and associates where there is no commitment to remit these earnings. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Notes to the Financial Statements - 31 December 2009 (Continued)

(VIII) Retirement benefits and severance indemnities

The Company operates defined contribution schemes for a limited number of employees. For such schemes, the amount charged to the income statement is the contributions paid or payable in the year.

Employment terms may also provide for payment of a severance indemnity when an employment contract comes to an end This is typically at the rate of one month for each year of service (and may be subject to a cap as to the number of qualifying years of service) and based on final salary level. The calculation of the severance indemnity obligation is based on valuations performed by an independent actuary using the projected unit credit method which are regularly updated. The obligation recognised in the balance sheet represents the present value of the severance indemnity obligation. Actuanal gains and losses are immediately recognised in the income statement within operating cost.

(ix) Dividends payable

Any dividends proposed are recognised when they represent a present obligation, i.e. in the period in which they are formally approved for payment. Accordingly, any interim dividend is recognised when paid and any final dividend is recognised when approved by shareholders.

(x) Current asset investments and cash at bank and in hand

Current asset investments comprise highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value, typically maturing within twelve months

Cash at bank and in hand comprise cash in hand and deposits repayable on demand

(xi) Other financial instruments

Financial assets and financial liabilities are recognised on the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument

- a Investments Investments which are not subsidiaries, associates or joint ventures are initially measured at cost, including transaction costs
 - Investments are classified as either held-for-trading or available-for-sale, and are normally measured at subsequent reporting dates at fair value. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost.
 - Where securities are held for trading purposes, gains and losses arising from changes in fair value are included in net profit or loss for the period. For available-for-sale investments, gains and losses arising from changes in fair value are recognised in profit or loss.
 - Dividends on available for sale equity investments are recognised in the income statement when the right to receive payment is established
- b Trade and other receivables Trade and other receivables do not generally carry any interest and are normally stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts
- Trade and other payables Trade and other payables are generally not interest bearing and are normally stated at their nominal value
- d Borrowings (loans and preference shares) Interest-bearing loans and bank overdrafts are recorded at the proceeds received, net of direct issue costs

Finance charges, including premiums payable on settlement or redemption and direct issue costs, are accounted for on an accruals basis using the effective interest rate method. Amounts are recorded as financing costs in the income statement. Finance charges are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

The sterling-denominated preference shares issued by the Company carry a fixed rate of return without the right to participate in any surplus. They are accordingly classified within borrowings and translated into US dollars at period end rates of exchange. Preference share dividends are included within finance costs.

Notes to the Financial Statements - 31 December 2009 (Continued)

- e Equity instruments Equity instruments issued are recorded at the proceeds received, net of direct issue costs Equity instruments of the Company comprise its sterling-denominated issued ordinary share capital and related share premium
 - As explained in Note 1(b)(ii), the presentational currency of the Company and the functional currency of the Company is US dollars, and ordinary share capital and share premium are translated into US dollars at historical rates of exchange based on dates of issue
- f Denvative financial instruments the Company occasionally uses derivative financial instruments to reduce exposure to foreign exchange movements. The Company does not use such derivative instruments for trading purposes. The Company has not presently applied the hedge accounting provisions of FRS 26 "Financial Instruments. Recognition and Measurement".

Accordingly, derivatives are initially measured at cost (which may be nil) including transaction costs, and are measured at subsequent reporting dates at fair value. Gains and losses ansing from changes in fair value are included in the profit and loss account within net finance costs.

Any derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of host contracts and the host contracts are not carried at fair value. Changes in fair value are reported in the profit and loss for the period

The Company is a wholly-owned subsidiary of Antofagasta plc and has taken advantage of the exemption in Financial Reporting Standard 29 "Financial Instruments Disclosures" from the detailed disclosure requirements of that standard

(xii) Related party transactions

The Company is a wholly-owned subsidiary of Antofagasta plc and as permitted by Financial Reporting Standard 8 "Related Party disclosures" transactions with other wholly-owned subsidiaries in the Group are not disclosed

(c) Key sources of estimation uncertainty and critical accounting judgements

The preparation of financial statements in conformity with UK GAAP requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results may differ from those estimates.

Information about such judgements and estimates is included in the principal accounting policies in Note 1(b) or the other notes to the financial statements, and the key areas are set out below

(i) Useful economic lives of tangible fixed assets

As explained in Note 1(b)(iv), tangible fixed assets are depreciated on a straight-line basis over their useful economic lives. Management reviews the appropriateness of useful economic lives at least annually and any changes could affect prospective depreciation rates and asset carrying values.

(II) Severance indemnities

As explained in Note 1(b)(viii), the expected costs of severance indemnities relating to employee service during the period are charged to the income statement. Any actuarial gains or losses, which can arise from differences between expected and actual outcomes or changes in actuarial assumptions, are recognised immediately in the income statement within operating cost.

Assumptions in respect of the expected costs are set in consultation with an independent actuary. These include the selection of the discount rate used, service lives and expected rates of salary increases. While management believes the assumptions used are appropriate, a change in the assumptions used would impact the earnings of the Company.

Notes to the Financial Statements - 31 December 2009 (Continued)

2 Net finance (expense)/ income

	2009 US\$'000	2008 US\$'000
External interest receivable	1,550	8,179
Foreign exchange derivatives	(6,828)	(1,398)
Preference dividends	(156)	(184)
Foreign exchange gains	4,780	6,435
	(654)	13,032

3 Profit on ordinary activities before taxation

Profit on ordinary activities before tax is stated after charging

	2009 US\$'000	2008 US\$'000
Depreciation	7,496	6,962
Loss on disposal of tangible fixed assets	65	340
Auditors' remuneration - audit fees and expenses	158	153
Wages and salanes	17,707	17,761
Social security costs	500	416
Post employment benefits – severance charge in year	4,466	446

The amounts disclosed above in relation to auditors' remuneration include fees payable by the Company to Deloitte LLP and its associates. Fees paid for audit services to Deloitte LLP were US\$86,000 (2008 – US\$94,000). In addition, fees of US\$6,000 were paid by the Company for tax compliance services (2008 – nil).

The average number of employees including directors by location and class of business during the year was

	2009 Number	2008 Number
Chile	Haitibei	Montger
- Railway operations in Northern Chile	592	584
- Management and administration	177	175
	769	759
Directors' remuneration		
	2009 US\$*000	2008 US\$'000
Total directors' remuneration	000	004000
Base salary and fees	1,308	1,321
Highest paid director		
Base salary and fees	1,157	1,193
The highest paid director is Mr. J-P Luksic. Mr. Luksic has a conf	tract for services with the Company wh	uch has a one

The highest paid director is Mr. J-P Luksic. Mr. Luksic has a contract for services with the Company which has a one month notice period.

Notes to the Financial Statements – 31 December 2009 (Continued)

4 Tax on profit on ordinary activities

(a) Analysis of tax charge for the year

(b)

The Company is resident outside the United Kingdom and accordingly is not liable to United Kingdom corporation tax. The Company is liable to Chilean corporation tax at the rate of 17% (2008 – 17%) on profits arising in Chile, with further tax payable of 35% less underlying tax already paid on such profits distributed overseas. The Company's tax charge for the year comprises current and deferred tax as set out below

	2009 US\$'000	2008 US\$'000
Current tax charge for the year - Chilean corporation tax	6,764	9,733
Deferred tax charge for the year - ongination and reversal of timing differences	2,029	488
Tax charge for the year	8,793	10,221
Analysis of deferred tax liability		
The net deferred tax liability at the end of the year is analysed below between its m	ain components	
	2009 US\$'000	2008 US\$'000
Accelerated capital allowances	(6,674)	(6,051)
Timing differences on severance provision and other balance sheet items	4,532	5,690
Short-term timing differences	(138)	110

The movement in the deferred tax balance during the year is analysed below

Net deferred tax liability at end of year

	Deferred tax liability US\$'000
Balance at 1 January 2009	(251)
Charge to tax on profit for the year	(2,029)
Balance at 31 December 2009	(2,280)

(2,280)

(251)

No deferred tax is recognised on the unremitted earnings from Chile. As such earnings are retained for current or future reinvestment, it is not expected that any withholding tax will become payable in the foreseeable future.

Notes to the Financial Statements - 31 December 2009 (Continued)

(c) Factors affecting the current tax charge for the year

The principal factors affecting the current tax charge for the year are set out below

	2009 US\$'000	2008 US\$'000
Profit on ordinary activities before tax	39,297	57,631
Profit on ordinary activities multiplied by the standard rate of		
corporation tax in Chile of 17%	6,680	9,797
Capital allowances in the year in excess of depreciation	(623)	(502)
Other timing differences reflected in deferred tax charge	(1,406)	14
Factors reflected in deferred tax charge for the year	(2,029)	(488)
Dividend income from other fixed asset investment not subject to further tax on receipt	(671)	(195)
Effect of foreign exchange differences not subject to tax	(813)	(360)
Exchange differences on current tax	(49)	1,296
Non taxable accounting adjustments	2,403	-
Other non-taxable items	1,243	(317)
Current tax charge for the year	6,764	9,733

Dividend income from investments in Chile is received out of the post-tax profits of the investments and is not subject to further tax on receipt

5 Dividends

No final ordinary dividend has been either paid or proposed (2008 - nil) No interim dividend per ordinary share was paid in either 2008 or 2009

Preference dividends have been included within interest expense (see Note 2) and amounted to US\$156,000 (2008 – US\$184,000)

Notes to the Financial Statements – 31 December 2009 (Continued)

6 Reserves

	Revaluation reserve US\$'000	Profit and loss account US\$'000	Total US\$'000
Balance at 1 January 2009	13,380	449,610	462,990
Retained profit for the year	-	30,504	30,504
Revaluation surplus realised as a result of the difference between historical cost depreciation and the actual depreciation charge in the year	(469)	469	
Balance at 31 December 2009	12,911	480,583	493,494

31 December 2008	12,547	11,329	31,663	34,213	15,457	28,414	133,623

Notes to the Financial Statements - 31 December 2009 (Continued)

The railway track (excluding lineside equipment) and the freehold land were both previously revalued. On the implementation of FRS 15 "Tangible Fixed Assets" the Company elected to retain the book amounts of this previous revaluation without adopting a policy of regular revaluation going forward.

The historical cost and related depreciation of total land and railway track are as follows

		2009 US\$'000	2008 US\$'000
Land	- cost	8,159	8,159
	 accumulated depreciation 		<u>.</u>
	net book value	8,159	8,159
Railway track	- cost	29,579	29,579
	 accumulated depreciation 	(8,098)	(6,908)
	 net book value 	21,481	22,671

At 31 December 2009, the Company had entered into contractual commitments for the acquisition of tangible fixed assets amounting to US\$20,000 (2008 – US\$2 1 million)

8 Investments in subsidiary undertakings

	Shares US\$'000	Loans US\$'000	Total US\$'000
Investment at 1 January 2009	78,754	2,382	81,136
New loans made	-	7,359	7,359
Loans repaid	-	(721)	(721)
Foreign exchange	-	675	675
Investment at 31 December 2009	78,754	9,695	88,449

The Directors are of the opinion that the value of investments in subsidiary undertakings, not dealt with in the Group accounts by virtue of Chapter 46 of the Companies Act 2006, is not less than the aggregate amount at which they are shown above

Notes to the Financial Statements - 31 December 2009 (Continued)

	Country of incorporation and operation	Nature of business	Effective equity Shareholding
Direct subsidiary undertakings of parent company			
parent company			
Northern Mines SCM	Chile	Mining	100%

Train Ltda	Chile	Transport	100%
Inmobiliaria Punta de Rieles Ltda	Chile	Real estate	100%
Bolivian Rail Investors Company Inc (*)	United States	Holding company	100%
Blue Ocean Overseas Inc (*)	British Virgin Is	Holding company	100%
Indirect subsidiary undertakings			
Forestal SA	Chile	Forestry	100%
Aguas de Antofagasta SA	Chile	Water distribution	100%
Empresa Ferroviana Andina SA	Bolivia	Rail transport	50%

^{*} The effective shareholding in Bolivian Rail Investors Company Inc. and Blue Oceans Overseas Inc. comprise a direct holding by the Company of 88 48% and an indirect holding of 11 52%

9 Investments in Associates

	Inversiones Hornitos US\$'000	Total US\$'000
Investment at 1 January 2009	-	-
Acquisitions	80,935	80,935
Capital contributions	28,600	28,600
Investment at 31 December 2009	109,535	109,535

On 3 July 2009 the Company exercised an option to acquire a 40% interest in Inversiones Homitos S A ("Inversiones Homitos") from GDF Suez, which will continue to hold the remaining 60% interest. Inversiones Homitos is the owner of the 150MW Homitos thermoelectric power plant which is being constructed in Mejillones, in Chile's Antofagasta Region.

Investments in associates are stated at cost

Notes to the Financial Statements - 31 December 2009 (Continued)

10 Available for sale investments

	US\$'000
Investment at 1 January	12
Movement in fair value	1
Investment at 31 December 2009	13_

11 Debtors

	2009 US\$'000	2008 US\$'000
Trade debtors	11,845	21,710
Amounts due from other group companies	17,157	344,531
Other debtors and prepayments	26,995	10,243
	55,997	376,484

There were no debtors due after more than one year in 2009 (2008 - nil)

12 Derivative financial instruments

	2009 US\$'000	2008 US\$'000
Derivative financial instruments	1,572	(1,400)

The Group periodically uses foreign exchange derivatives to reduce its exposure to fluctuations in the fair value of non US dollar denominated assets or liabilities. During the year ended 31 December 2009 a loss of US\$6.8 million was recognised within other finance items in respect of such instruments (2008 – loss of US\$1.4 million).

13 Trade and other creditors (amounts falling due within one year)

	2009 US\$'000	2008 US\$'000
Trade creditors	(4,316)	(1,615)
Other creditors and accruals	(8,788)	(8,404)
Corporation tax	1,714	(8,437)
Other taxation and social security		(286)
	(11,390)	(18,742)

Notes to the Financial Statements - 31 December 2009 (Continued)

14 Loans

		2009 US\$'000	2008 US\$'000
Interest free loan to finance Railway expansion (unsecured)	(a)	(168)	(198)
5% Cumulative preference shares	(b)	(3,212)	(2,886)
	:	(3,380)	(3,084)

- (a) These loans, which are US dollar denominated, represent customer advances for capital expenditure. The loans are repayable out of future customer sales receipts based on tonnages transported and are expected to be repaid within two years.
- (b) The preference shares are sterling-denominated and issued by the Company. There were 2,000,000 £1 shares authorised, issued and fully paid at both 31 December 2008 and 31 December 2009.

The preference shares are non-redeemable and are entitled to a fixed cumulative dividend of 5% per annum. On a winding up they are entitled to repayment and any arrears of dividend in priority to ordinary shareholders, but are not entitled to participate further in any surplus. Each preference share carries one vote in any general meeting of the Company.

The table below sets out an analysis of the loan maturities

		2009 US\$'000	2008 US\$'000
	In less than one year	(168)	(198)
	Over five years	(3,212)	(2,886)
		(3,380)	(3,084)
15	Provisions for liabilities		
		2009 US\$'000	2008 US\$'000
	Balance at 1 January	(6,554)	(7,450)
	Charge to operating profit in year (other operating expense)	(4,466)	(446)
	Utilised in year	235	297
	Foreign exchange	(439)	1,045
	Balance at 31 December	(11,224)	(6,554)

Provision is made for severance indemnities which are payable on termination of employment and are assessed on a discounted basis taking into account the expected service lives of employees

Notes to the Financial Statements - 31 December 2009 (Continued)

16 Called up share capital

31 December 2009 & 200	
Authorised US\$'000	Alloted issued and fully paid US\$'000
11,372	11,372

6,415,344 Ordinary shares of £1 each
The £1 ordinary shares carry 1 vote each

17 Reconciliation of movements in shareholders' funds

	2009 US\$'000	2008 US\$'000
Profit for the financial year	30,504	47,410
Opening shareholders' funds	474,362	426,952
Closing shareholders' funds	504,866	474,362

18 Exchange rates in US dollars

The principal exchange rates expressed in US dollars used in the preparation of the 2009 financial statements are as follows

	2009	2008
Year end rates	US\$1 6062 = £1	US\$1 4428 = £1
	US\$1 = Ch\$507	US\$1 = Ch\$636
Average rates	US\$1 5591 = £1	US\$1 8386 = £1
	US\$1 = Ch\$559	US\$1 = Ch\$522

19 Cash flow statement

The directors have taken advantage of the exemption in paragraph 5(a) of FRS 1 (Revised 1996) from producing a cash flow statement

20 Post balance sheet events

There have been no events subsequent to 31 December 2009 which require adjustment to be made to the results recorded within these financial statements, or additional disclosure to be made in respect of any such events

Notes to the Financial Statements - 31 December 2009 (Continued)

21 Ultimate parent company

The ultimate parent company is Metalinvest Establishment, a company incorporated in Liechtenstein and controlled by the E Abaroa Foundation, in which members of the Luksic family are interested. This company does not produce group accounts. The immediate parent company is Antofagasta plc, a company incorporated in Great Britain, registered in England and Wales and listed on the London Stock Exchange.

Antofagasta pic is the only parent undertaking to prepare group accounts. Copies of these group accounts are available from Antofagasta pic, 5 Princes Gate, London SW7 1QJ
