# **Directors' Report**

The directors present their annual report on the affairs of the group and the audited financial statements for the year ended 31 December 2010. The registered number of the company is 00027883.

### **Review of Business**

### **Principal Activities**

Hemscott is a leading international supplier of high quality business and financial information and online corporate investor relations solutions to clients in the UK. Europe and North America References to "the Group" below relate to Hemscott Limited and to its subsidianes and not to the wider lipreo group of companies.

#### Results

Revenue growth was 7% year on year (2009 13%) reflecting sustainable organic growth and the continued focus on core products. Operating costs increased by 24% largely due to the cash settled share based charge of £2 072k (2009 £194k) and a continued investment in the sales resources reflected in the £806k increase in wages and salanes

The Group incurred a charge in relation to cash settled share based payment charge of £2 072 000 (2009 £194 000) during the year as noted above. The scheme awards units to employees which entitle them to receive a cash distribution linked to the appreciation in value of the lipreo Holdings group when the ultimate controlling party. VS&A Equities III LLC no longer controls more than 50% of the lipreo Holdings group (referred to as the Realization Event). The increase in the charge compared with the prior year is due to the proximity of the Realization Event in 2011 and an increase in the estimated value of the lipreo Holdings group based on bids received from potential purchasers at the year end.

#### Revenue

### Bigdough Capital Markets

Bigdough our CRM and communications platform for the capital markets community which now forms the principal part of our revenue has enjoyed continued and consistent growth of 7% (2009 8%) due to the increased sales focus on core products and continuing roll out of updated versions of the product

#### Investor Relations Services

Our UK corporate investor relations website business has also performed well increasing by 7% (2009 26%) reflecting to a certain extent the trend for information requirements by the market during difficult trading times

Profit for the continuing activities of the Group before interest tax depreciation and amortisation (EBITDA) decreased year on year from £4.5m to £1.6m despite solid revenue growth due principally to the cost of the cash settled share based payments as noted above

The group has no liability to UK taxation (2009 £nil) As at 31 December 2010 the group has UK tax trading losses available to carry forward against profits of the same trade of approximately £3 6m (2009 £4 4m)

Cash at the end of the year was £5m (at 31 December 2009 £1 9m)

Net cash outflow from operating activities for the year totalled £8 3m (2009 inflow of £5 8m), due to the increase in intercompany debtors from Ideal LLC as joint principal of the new loan facility with BMO

The Group's cash is invested in short term deposits and current accounts with the major banks and building societies. The treasury strategy is controlled through a Treasury Committee comprising the Chief Executive Officer and the Chief Financial Officer and operates in accordance with the documented policies and procedures approved by the Board.

The Group's financial instruments and financial risk management are disclosed in Note 14 to the financial statements

### **Future developments**

Despite difficult trading conditions the business continues to grow reflecting the strength of our core product and continued innovation and evolution of it. Investment in sales resources and the product is reflected in this growth and we expect the growth to continue at this modest pace for the foreseeable future.

### Post Balance Sheet Events

On 21 May 2011, VS&A Equities III LLC the ultimate controlling party of Hemscott Limited announced it had received a binding offer from KKR for the acquisition of lipreo Holdings LLC and its subsidianes including Hemscott Limited. On 21 May 2011 VS&A Equities III LLC accepted the binding offer which was subject to the satisfaction of the conditions as laid out in the merger agreement. These conditions have now been met and the deal was concluded on 5th August 2011.

As a result of the acquisition certain restructuring of the Hemscott Limited group has taken place after the year end. Hemscott Limited sold certain business assets and its investment in Hemscott Holdings Limited and other dormant subsidianes to its wholly owned subsidiary. Hemscott Americas Inc. In consideration for this. Hemscott Americas Inc issued vendor loan notes repayable in 2018. Hemscott Limited subsequently distributed the vendor loan notes to its immediate parent Centerpoint Data LLC.

### Bank financing

The group refinanced during 2010 repaying the loan with Wells Fargo in its entirety and entening into a new financing agreement with Bank of Montreal ("BMO"). The details of this loan are disclosed in note 16 to the financial statements.

On August 5th 2011, Kohlberg Kravis Roberts & Co L P (\*KKR\*) completed its acquisition of Ipreo Holdings LLC (\*Ipreo\*) As part of the financing of the acquisition Ipreo entered into a new \$135 million senior secured credit facility (consisting of a \$115 million term loan and a \$20 million revolver) and issued \$70 million of senior subordinated notes. The revolver was undrawn at close. Ipreo's previous BMO \$70m credit facility was repeat as part of the KKR transaction.

### Financial and non-financial KPI's

The Group has always measured itself primarily on financial KPI's derived from the profit and loss cashflow and balance sheet which are commented on in this business review. Another important KPI for the group is the level of deferred income which at 31 December 2010 was £7 5m (2009 £6 5m).

### **Employees**

The Group places considerable value on the involvement of its employees and keeps them informed on matters affecting them as employees and on the various factors affecting the performance of the group. This is achieved through formal and informal meetings. The Group operates an equal opportunities policy and is opposed to any form of less favourable treatment afforded on the grounds of for example, disability, gender, race, sexual orientation or religion.

## Research and development

The company continues to invest significantly in product development. The combination of Hemscott, I-Deal and Marketpipe as part of the Ipreo group in 2006 has brought together a complimentary set of products designed to serve the investment community. Research and development continues to be focused on integrating and further enhancing the products of the three companies as well as enhancing a number of back office systems.

# **Directors' Report continued**

### Risks and uncertainties

There are risks and uncertainties relevant to the Group's business. The factors listed below are among those that the Group thinks could cause the Group's business. The factors listed below are among those that the Group thinks could cause the Group's business. The factors listed below are among those that the Group thinks could cause the Group's business.

### Risk that R&D will not deliver commercially successful new products

Continued development of commercially viable new products is critical to the Group's ability to grow and stay ahead of the competition. Developing new products is a costly, lengthy and uncertain process. New products may appear promising in development but, after significant investment, may have limited commercial success.

#### Third party competition

The Group operates in highly competitive businesses. Significant product innovations, technical advances or the intensification of price competition by competitors could adversely affect the Group operation results.

### Reliance on information technology

The Group is dependent on information technology systems including Internet-based systems for internal communication and delivering products and services to customers. Any significant disruption of these systems, whether due to computer viruses or other outside incursions, could materially and adversely affect the Group's operations.

### Exposure to foreign exchange fluctuations

The Group conducts a substantial portion of its operations outside the UK primarily in the US and Europe. Fluctuations in exchange rates between Sterling and the US dollar / Euro could materially affect the Group's financial results.

#### Accounting standards

New or revised accounting standards rules and interpretations promulgated from time to time by international standard setting boards could result in changes to the recognition of income and expense that may adversely impact the Group's reported financial results

#### Human resources

The Group has approximately 116 employees (2009-109 employees) in the UK- and US. Failure to continue to recruit and retain the right people and maintain a culture of compliance could have a significant adverse effect on the Group.

#### Bank financino

The Ipreo group including Hemscott's US subsidianes, are financed in part via a loan from BMO bank. All US group companies are jointly and severably liable for the total amount of the debt. Any breach of the associated banking covenants would result in the group being in default allowing the bank to seize control of the group's assets in order to try to recover the debt.

In addition to the banking covenants the debt cames a variable rate of interest. Any adverse movements in the rate could impact the results of the business

#### Directors

Gary Brian Dockray Paul Lucas Scott Ganeles

### Directors' Indemnity

The company's Articles of Association provide subject to the provisions of UK legislation, an indemnity for directors and officers of the company in respect of liabilities they may incur in the discharge of their duties or in the exercise of their powers, including any liabilities relating to the defence of any proceedings brought against them which relate to anything done or omitted, or alleged to have been done or omitted, by them as officers or employees of the company

Appropriate directors, and officers, liability insurance cover is in place in respect of all of the company's directors

### Charitable and Political Donations

Chantable donations of £nii were made during the year (2009 £nii) No political donations were made during the year (2009 £nii)

## Statement of Directors' responsibilities

The directors are responsible for preparing the Directors. Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

select suitable accounting policies and then apply them consistently

make judgements and accounting estimates that are reasonable and prudent

state whether applicable UK Accounting Standards have been followed: subject to any material departures disclosed and explained in the financial statements

prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements compty with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregulanties.

# **Directors' Report continued**

# **Auditors**

Each of the persons who is a director at the date of approval of this report confirm that

- so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- the director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the Company's auditors are aware of that information

Paul Lucas

Director

Date 17 OCTOBER 2011

# Independent auditors' report to the member of Hemscott Limited

We have audited the financial statements of Hemscott Limited for the year ended 31 December 2010 which comprise the Consolidated Profit and Loss Account the Consolidated Statement of Total Recognised Gains and Losses, the Consolidated Balance Sheet the Company's Balance Sheet the Consolidated Cash Flow Statement and related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice)

# Respective responsibilities of directors and auditors

As explained more fully in the Directors Responsibilities Statement set out on page 4—the directors are responsible for the preparation of financial statements and for being satisfied that they give a true and fair view

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors. This report including our opinion has been prepared for and only for the company's member in accordance with chapter 3 of part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's member those matters we are required to state to it in an auditors report and for no other purpose. To the fullest extent permitted by law we do not accept or assume responsibility to anyone other than the company's member for our audit work for this report or for the opinions we have formed.

#### Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the APB's website at www frc org uk/apb/private cfm

### Opinion on the financial statements

In our opinion the financial statements

give a true and fair view of the state of the group's and the parent company's affairs as at 31 December 2010 and of the group's loss for the year then ended

have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and

have been properly prepared in accordance with the requirements of the Companies Act 2006

#### Opinion on the other matter prescribed by the Companies Act 2006

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements

### Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if in our opinion adequate accounting records have not been kept by the parent company or returns adequate for our audit have not been received from branches not visited by us or the parent company financial statements are not in agreement with the accounting records and returns or certain disclosures of directors remuneration specified by law are not made or we have not received all the information and explanations we require for our audit

Claire Larquetoux (Senior statutory auditor)

# Notes to the Financial Statements For the year ended 31 December 2010

#### 1 Principal accounting policies

The financial statements have been prepared in accordance with applicable law and Accounting Standards in the UK. A summary of the principal accounting policies which have been applied consistently through the year and preceding year is set out below.

#### Rasis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards. The directors consider that the group is able to meet its liabilities as they fall due and the preparation of the accounts on a going concern basis is appropriate.

#### Basis of consolidation

The group financial statements consolidate the financial statements of the company and its subsidiary undertakings drawn up to 31 December each year. The results of subsidiaries acquired or sold are consolidated for the periods from or to the date on which control passed. Acquisitions are accounted for under the acquisition method.

With effect from 15 August 2000, the company then named Bindgend Group pic became the legal parent company of Hemscott Holdings Limited and its subsidiary undertakings in a share for share transaction. Due to the relative values of the companies reverse acquisition accounting was adopted as the basis of consolidation. Bindgend Group pic was brought into the consolidation from 15 August 2000, the date of the reverse acquisition at fair values at that date and the reserves of the Group are based on the pre-combination reserves of the Hemscott Holdings Limited group.

#### Tumover

Turnover the portion of invoicing that relates to the financial reporting period represents amounts receivable from customers for goods and services provided in the normal course of business, net of VAT and other sales-related taxes. Sales under contracts covering future periods, which are invoiced quarterly or annually in advance, are deferred and credited to the profit and loss account over the period to which they relate

### Goodwill

Goodwill ansing on the acquisition of subsidiary undertakings and businesses representing any excess of the fair value of the consideration given over the fair value of the identifiable assets and liabilities acquired is capitalised and written off on a straight line basis over its useful economic life of ten years. Provision is made for any impairment. Goodwill ansing on the reverse acquisition of Bridgend Group pic was written off to the profit and loss account in the year ended 31 December 2000.

#### Tangible fixed assets

Tangible fixed assets are stated at cost inet of depreciation and any provision for impairment. Depreciation is provided on all tangible fixed assets, at rates calculated to write off the cost less estimated residual value of each asset evenly over its expected useful life. as follows

- Short leasehold properties over the term of the lease
- Computer equipment and software (including capitalised cost assets) three years
   Fixtures and fittings three years

### Investments

Fixed asset investments are shown at cost less provision for any impairment

### Tavation

UK corporation tax is provided at amounts expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the group's taxable profits and its results as stated in the financial statements that anse from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only when on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date

### Foreign currency

Transactions in foreign currency are recorded at the rate of exchange at the date of the transaction or if hedged at the forward contract rate. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange at that date. These translation differences are dealt with in the profit and loss account.

For consolidation purposes the profit and loss accounts of the foreign subsidianes are translated into sterling at the average rate of exchange for the year and the balance sheets are translated into sterling at the closing rate of exchange and where applicable the difference arising from the translation of the opening net investment in subsidianes at the closing rate is taken directly to reserves

### Share based payments

Certain employees of the Company have access to cash settled share based payment transactions entered into by the Company's ultimate parent. Under FRS20 "Share Based Payments", the cost of cash settled transactions should be measured at fair value using an appropriate pricing model. The fair value is established initially at the grant date and at each balance sheet date thereafter until the awards are settled. During the vesting period expired as at the balance sheet date. Changes in the carrying amount of the liability are recognised in the profit or loss for the period.

In the opinion of the directors, the fair value cannot be reliably estimated using an appropriate pricing model due to the following factors—the group is unlisted and the units are not freely traded so a market price cannot be reliably attained—as the units are not traded, the directors consider that volatility cannot be reliably measured.

With these factors in mind, the company uses intrinsic value to value the units.

### Notes to the Financial Statements continued For the year ended 31 December 2010

Assets obtained under finance leases and hire purchase contracts are capitalised at their fair value on acquisition and depreciated over their estimated useful lives. The finance charges are allocated over the period of the lease in proportion to the capital element outstanding

Rentals under operating leases are charged on a straight line basis over the lease term, even if the payments are not made on such a basis. Benefits received or receivable as an incentive to sign an operating lease are similarly spread on a straight line basis over the lease term, except where the period to the review date on which the rent is first expected to be adjusted to the prevailing market rate is shorter than the full lease term in which case the shorter period is used

### Development costs

Design and content development costs are capitalised to the extent that they lead to the creation of an enduring asset, which delivers benefits at least as great as the amount capitalised. If there is insufficient evidence upon which to base reasonable estimates of the economic benefits that will be generated in the period until the design and content are next updated, the costs of developing the design and content are charged to the profit and loss account as incurred

Amortisation is provided on capitalised costs at rates calculated to write off the capitalised cost of the assets evenly over the useful life of 3 years

Presentation of company profit and loss
As permitted under Section 408 of the Companies Act 2006, the company has not presented its own profit and loss account which is presented to the board and approved at the date of signing

Total recognised deferred tax asset/ (liability)	182	(430)
The amount of unprovided deferred tax is disclosed below		
Accelerated depreciation	80	28
Other temporary differences	27	27
Losses carned forward	979	1 223
Capital losses carried forward	988	1,025
Total unrecognised deferred tax asset	2,074	2 303

UK. As a result of UK losses in the current and prior year, the group has no liability to UK taxation (2009, nil). As at 31 December 2010, the group has UK tax trading losses available to carry forward against profits of the same trade of approximately £3.6m (2009, £4.4m.). A deferred tax asset of £2.1m (2009, £2.3m.) has not been recognised in these accounts due to uncertainty concerning future profitability.

A resolution was passed by Parliament on 29 March 2011 to reduce the corporation tax rate to 25% from 1 April 2011. However as this charge was not substantively enacted by the Balance Sheet date: the 26% rate has not been reflected in these accounts. Instead deferred tax has been provided at the rate of 27% which had been previously enacted to apply from 1 April 2011.

Further reductions to the corporation tax rates have been proposed in the March 2011 UK Finance Budget, to reduce the corporation tax rate by 1% per annum to 23% by 1 April 2014. However as none of these further reduced rates were substantively enacted by the Balance Sheet, they are not included in these accounts either

Overseas. The deferred tax has been recognised at the prevailing overseas tax rate of approximately 40% and therefore a net deferred tax asset of £182k (2009. DTL of £430k) has been included in the balance sheet

Bank loan
In May 2010 the company's US subsidianes Hemscott Amencas Inc. Hemscott, Inc. Bigdough cominic. Corporate Fundamentals Inc. together with other lipred group companies. E-Deal Merger Sub LLC, and I-Deal LLC (collectively known as "The Borrowers") jointly refinanced the original bank debt and entered into a new \$70 million credit facility (the Credit Agreement (with Bank of Montreal as the Administrative Agent and Suitcust Bank as the Syndication Agent. The Credit Agreement is comprised of a \$50m term loan (the "Term Loan" and a \$20 million revolving credit facility (the "Revolver"). The proceeds from the new credit facility were used to repay the existing indebtedness of the Borrowers. The Revolver includes a \$3 million subtime for the assuance of Standby Letters of Credit and a \$2 million subtime for a Swingame facility. There was no outstanding borrowing under the Revolver as of December 31, 2010. The Credit Agreement also provides the Borrowers the right to request incremental term loans of up to \$50,000,000 (minimum increment of \$10,000,000 and \$5,000,000 a

The Term Loan and any outstanding borrowings under the Revolver bear interest at the option of the Borrowers at either the base rate plus the applicable margin or at the adjusted Eurodalar (LIBOR) rate plus the applicable margin or at the adjusted Eurodalar (LIBOR) rate plus the applicable margin or at the adjusted Eurodalar (LIBOR) rate plus the applicable margin or at the adjusted Eurodalar (LIBOR) rate plus the applicable margin all as defined in the Credit Agreement. The unused portion of the Revolver and issued letter of credit are subject to a 5% commitment (se and 375% fronting fee respectively. In the event of a default of the terms of the Credit Agreement, all outstanding borrowings and fees are subject to a 2% incremental rate of interest. At December 31 2010 the Term Loan bore interest at 4.25%. Interest expense including fees related to the available Revolver and letters of credit. For the year ended December 31 2010 amounted to approximately 5728 000 for the Hermscott Limited group. The Term Loan is due and payable in quarterly instalments through maturity on May 21 2014. with a balloon payment in the amount of \$25 6215 000 due on that date (\$12 375 000 due for repayment by the Hermscott Limited Group).

#### Details of units in leave

The following table illustrates the number and weighted average exercise price of the outstanding units

	•	verago exercise
	_ No. of units	price
Outstanding at 1 January 2010	3 691 285	9 75p
Granted in the year	45,000	67 Sp
Units forfeited/ cancelled	(29,266)	
Outstanding at 31 December 2018	3,708,019	

No units were exercisable at 31 December 2010. The weighted everage remaining contractual life of the units is 0.5 years. The interces price is deemed equal to the fair value on issue

Determination of Intrinsic value
The Group has accounted for the strare based payment expense using intrinsic value. At 31 December 2009 none of the performance based vesting criteria was considered to have been achieved due to the uncertainty of the timing of any Realization Event, and the sepanse in the performance based on the vested portion of this service units. At 31 December 2010 a Realization Event was considered probable due to the entocpated sale of the group in 2011. As such, for the year ending 31 December 2010 in the Company has recorded in expense related to the vested portion of both the service and performance units.

The Group has celulated the intrinsic value of the units that have vested at the year and based on the difference between the estimated consideration to be received for the tyros holdings group at the data of the Realization Event was of the Units that have vested at the year and based on the difference between the estimated consideration to be received for the tyros holdings group at the data of the Realization Event was of the Units that have vested at the year and based on the difference between the estimated into internal expected to be achieved when the Realization Event tables place in 2011.

	Unit value	Expense
		£*0000
At 1 January 2010	9 75p	194
At 31 December 2010	67 Bp	2.072

in 2019 a charge of £1 185K (2009 £194k) was recognised in relation to the vesting of service units during the year and a charge of £908k (2009 £nd) was recognised in relation to performance units considered to be vested at year end. The total expense for the period was therefore £2,077k (2009 £194k).
