Notes to the Accounts
for the year ended 30 June 2011

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers

Depreciation

The treatment of the investment may be a departure from the requirements of the Companies Act concerning the depreciation of fixed assets. However, this property is not held for consumption but for investment and the directors consider that systematic annual depreciation would be inappropriate. The accounting policy adopted is therefore necessary to give a true and fair view.

The investment property has been shown on the balance sheet at its open market value, valued by a director. No depreciation or amortisation is provided in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002). This revaluation accounting policy has been adopted in order to show a true and fair view within the accounts.
