2 Summary of significant accounting policies

Basis of preparation

These financial statements have been prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework' (FRS 101) and the Companies Act. FRS 101 sets out a reduced disclosure framework for a 'qualifying entity' as defined in the standard which addresses the financial reporting requirements and disclosure exemptions in the individual financial statements of qualifying entities that otherwise apply the recognition, measurement and disclosure requirements of EU-adopted IFRS.

The company is a qualifying entity for the purposes of FRS 101. Note 9 gives details of the company's parent and from where its consolidated financial statements prepared in accordance with IFRS (as adopted by the European Union) may be obtained.

FRS 101 sets out amendments to EU-adopted IFRS that are necessary to achieve compliance with the Act and related Regulations.

The disclosure exemptions adopted by the company in accordance with FRS 101 are as follows:

- The requirements of IFRS 7 *Financial Instruments: Disclosures* per FRS 101 (paragraph 8(d))
- The requirements of IAS 7 *Statement of Cash Flows* per FRS 101 (paragraph 8(h))
- The requirements in IAS 24 *Related Party Disclosures* per FRS 101 (paragraph 8(k))

The Company is a wholly-owned subsidiary and is included in the consolidated group financial statements of SABMiller plc, which are publicly available. All the new standards and amendments requiring compulsory application and which are effective for the Company's accounting year ended 31 March 2014 have been taken into consideration in preparing the financial statements. New and amended standards have not had a material impact on the financial statements or performance of the Company.

Kangaroo Ridge Wines Europe Limited

Notes to the financial statements for the year ended 31 March 2014 (continued)

Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

- Critical accounting estimates and assumptions

The group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

- Taxation

Management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with an assessment of the effect of future tax planning strategies

Financial assets

The company classifies its financial assets in the following categories: at fair value through profit or loss, loans and receivables, and available for sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this designation at every reporting date. The company has no financial assets classified as at fair value through profit or loss or as available for sale.

- Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the end of the reporting period, which are classified as non-current assets. Loans and receivables are included in trade and other receivables in the balance sheet. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

- Impairment of financial assets

The company assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Trade debtors

Trade debtors are recognised initially at fair value and subsequently measured at amortised cost, less provision for doubtful debts.

All receivables are regularly reviewed and a provision for impairment of trade debtors is established when there is objective evidence that all amounts may not be collectible according to the original terms of the sales transaction. Bad debts are written off when incurred.

The rights and obligations relating to those trade debtors that have been sold through the receivable purchasing agreement are de-recognised from the balance sheet where substantially all the risks and rewards of ownership are considered to have transferred to a third party. Cash received from third parties in exchange for the transfer of ownership is

recorded within cash and cash equivalents with the cost of financing prior to settlement by the customer immediately recorded as interest in the profit and loss account.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

3 Revenue

The company has not derived any revenue in the year under review (2013: £nil).

4 Key management and employees

Key management personnel are considered to be the directors and the secretary of the Company. The Company had no employees in the year (2013: none). During the year, two (2013: two) key management personnel exercised options over US 10 cent shares of SABMiller plc.

Pension contributions, on behalf of the key management personnel, were made by their employing companies within the group.

5 Debtors: amounts falling due within one year

	2014 £	2013 £
Amounts receivable from group undertakings	<u>2</u>	<u>2</u>

Trade debtors are non-interest bearing and generally have a 30 day term. Due to their short maturities, the fair value of trade and other debtors approximates to their book value. Other debtors are all recorded at amortised cost.

The maximum exposure to credit risk at each reporting date is the fair value of each receivable shown above.

The carrying amounts of trade and other debtors are denominated in Sterling.
