Chairman's Report

Lam pleased to report that the year to 3'st May 1987 ended with a profit of £575,739. 1240-060 of this coming from actual trading. In fact, in the past three years, trading profits, before taking into account fixic trading area in from the transfer of players, have shown a steady upward trent a trend we are confident will continue into the future. As a result of this, the Club's net assets have increased from £2.8m to £3.4m and our current liabilities are the lowest since 1979. This is due in no small way to the financial reorganisation that took place three years ago when my close friend Stephen Boler purchased a major stake in the club. He and Ljointly own in except of 60% of the shares in the club and Lam delighted by his enthusiasm in helping the club back into profitability.

The Club's playing performances during the Season, however, were very disappointing, resulting in the Team being relegated to the Second Division, this being the second time in four years. We hope to return to the First Division at the earliest opportunity. We did, however, win the Central League following our earlier success in the FA Youth Cup the previous year. This does show the progress being made by our Youth Policy and the benefits of our training complex at Platt Lance.

On the commercial side, we are continuing to make tremendous strides. A major sponsorship agreement with Brother, worldwide electrical manufacturer, and distributors, was completed for a minimum of three years, this is one of the biggest sponsorship agreements ever signed and we are delighted to welcome Kay Tazaki and his many employees to Maine Road. We have also completed another transaction with Tom Garner Motors which I am dure will be beneficial to both Companies. Another major rock concert has been staged and we would like to thank the Police, the Local Council, the Local Authorities and the Local Residents Committee for their help in ensuring this event was a success. Our Cashmaker scheme is another example of the growth of the commercial side of the Club.

On the general football front, major changes are taking place. The game is now slowly recovering with renewed efforts and new innovations such as the Membership Card Scheme which is helping to make hootball safer to watch and so rid itself of the hooligan element and we consider Maine Road to be one of the safest grounds in the country to watch football. Our association with the Supporters Club continues to grow. This season, they are sponsoring the Central League travel, a unique arrangement for which the Club is most grateful. The Junior Blues continue to thrive and this Organisation is still the foremost junior organisation in Football. Both these organisations help Manchester City to remain one of the best supported Clubs in the country.

Football remains the most popular game in the world.

I would like to thank everyone connected with Manchester City for their help and erithusiasm. In spite of being in Division Two, we look forward, with optimism, to the future.

Report of the Auditors

To the Members of Manchester City Football Club plc

We have audited the accounts on pages 7 to 15 in accordance with approved auditing standards

In our opinion, the financial statements, which have been prepared under the historical cost convention (apart from the revaluation of certain fixed assets) give a true and fair view of the state of the Company's affairs as at 31st May, 1987 and of the profit and source and application of funds for the year ended on that date and comply with the Companies Act 1985.
