**NOTES TO THE ABBREVIATED ACCOUNTS

1 Accounting Policies

Basis of Accounting

These accounts have been prepared under the historical cost convention as modified for the revaluation of freehold property and on the assumption that all the activities of the company are continuing.

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

Revenue Account

Income and expenditure are included in the accounts on an accruals basis (as opposed to the date of receipt or payment) and are shown net of any related Value Added Tax (VAT). Interest receivable on deposits on the money market is credited to the Income and Expenditure Account on the date of maturity.

Fixed Assets

Fixed assets are stated at cost or valuation less depreciation.

Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases :

House & Green	2%	straight line basis
Fixtures & Fittings	15%	reducing balance basis
Equipment	15%	reducing balance basis

Stock

Stock is valued at the lower of cost and net realisable value on an individual item or batch basis.

Corporation Tax

Corporation Tax is provided for on gross interest received.

Operating leases

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to the profit and loss account.

Deferred Taxation

Provision is made for taxation deferred as a result of material timing differences between the incidence of income and expenditure for taxation and accounts purposes, using the liability method, only to the extent that, in the opinion of the directors, there is a reasonable probability that a liability or asset will crystallise in the near future.

No deferred taxation is provided for on revalued assets unless a binding agreement has been entered into to sell the revalued asset or the expected loss or gain on disposal has been recognised in the financial statements.
