1 Accounting policies

The financial statements have been prepared under the historical cost convention and are in accordance with applicable accounting standards. The following principal accounting policies have been applied:

(a) Fixed assets and depreciation

Land is stated at valuation on the basis of its existing use. No depreciation is charged on land.

Fixed asset investments are stated at the lower of cost and market value.

(b) Deferred taxation

The charge for taxation is based on the result for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax assets and liabilities arise from timing differences between the recognition of gains and losses in the financial statements and their recognition in a tax computation.

In accordance with Financial Reporting Standard 19, deferred tax is recognised, without discounting, in respect of all timing differences between the movement of certain items for taxation and accounting purposes which have arisen but not reversed at the balance sheet date.

(c) Dividends

Equity dividends are recognised when they become legally payable. In the case of interim dividends to equity shareholders, this is when paid by the Company. In the case of final dividends, this is when approved by the shareholders at the Annual General Meeting.

(d) Cash flow statement

Under Financial Reporting Standard 1 (revised), the Company is exempt from the requirement to prepare a cash flow statement on the grounds that its ultimate parent undertaking includes the Company in its own published consolidated financial statements.
