#### NOTES TO THE ABBREVIATED ACCOUNTS

#### FOR THE YEAR ENDED 31 DECEMBER 2000

#### 1. DIRECTORS' RESPONSIBILITIES

Company law requires the directors to prepare accounts for each financial year which give a true and fair view of the state of affairs of the company and of the results of the company for that period. In preparing those accounts the directors are required to select suitable accounting policies and then apply them consistently; make judgements and estimates that are reasonable and prudent; prepare the accounts on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the accounts comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### 2. PRINCIPAL ACCOUNTING POLICIES

These accounts have been prepared in accordance with the historical cost convention, modified by the revaluation of land and buildings. The principal accounting policies, which the directors have adopted within that convention, are set out below:-

#### (a) Turnover

Turnover is the amount receivable in respect of services provided and goods supplied excluding Value Added Tax.

# (b) Depreciation

Depreciation is calculated to write off the cost of fixed assets, excluding freehold property, over the expected useful lives of the assets as follows:-

Plant and Equipment 20% on cost
Fixtures and Fittings 12.5% on cost
Motor Vehicles 20% on cost
Irrigation 10% on cost

No depreciation is provided on freehold land and buildings. It is the company's practice to maintain buildings in a continual state of sound repair and to extend and make improvements thereto from time to time. Accordingly the directors consider that the lives of these assets and market values are such that depreciation is insignificant.

## (c) Stock

Stock has been valued on a "first in first out" basis and at cost.

# (e) FRS 1

These accounts have been prepared in compliance with FRS 1 - Cash Flow Statements and the company has used the exemption from preparing a Cash Flow Statement, on the grounds that it is a small company.

#### (f) FRS 3
