Directors' report

The directors present their annual report and the audited financial statements for the year ended 31 December 2012

Business review and principal activities

The company is a wholly owned subsidiary of Rolex Holding SA a company incorporated in Switzerland and operates as part of the group's distribution and watch servicing operations

The company's principal activity is the sale of Rolex products to the watch industry in the UK and Ireland There have not been any significant changes in the company's principal activity in the year under review. The directors are not aware, at the date of this report, of any likely major changes in the company's activity in the next year.

As shown in the company's profit and loss account on page 7, the company's turnover increased by 7 2% over the prior year due to a combination of factors including improvements in mix, price and volume. Profit after tax increased from £4 1m to £11 7m, due to the improvement in revenues and the benefit of stable exchange rates on purchases from Group companies.

The balance sheet on page 9 of the financial statements shows that the company's financial position at the year end is still strong. The material balance sheet movement relates to a £16m decrease in amounts due to group companies. Details of amounts owed to group companies are shown in note 10 on page 17.

There have been no significant events since the balance sheet date

The directors do not recommend the payment of a final dividend

The directors have performed a going concern assessment and, having concluded that the company is a going concern, have prepared the financial statements on this basis. Further information in respect of the going concern assessment is included in note 1 to the accompanying financial statements.

Principal risks and uncertainties

Competitive pressure in the UK is a continuing risk for the company, which could result in it losing sales to its key competitors. The company manages this risk by providing added value services to its customers, having fast response times not only in supplying products but in handling all customer queries, and by maintaining strong relationships with customers.

The company's sales in Ireland are made in Euros and it is therefore exposed to the movement in the Euro to Sterling exchange rate. The majority of the company's purchases are in Swiss Francs and it is therefore exposed to the movement in the Swiss Franc to Sterling exchange rate.

The company does not use any financial derivatives

Directors' report (continued)

Financial risk management objectives and policies

The company's activities expose it to a number of financial risks including credit risk, cash flow risk and liquidity risk. These risks are managed by the company's policies approved by the board of directors, which provide written principles on the management of these risks

Foreign exchange risk

The Directors review the company's foreign exchange exposure on a regular basis and take necessary action as appropriate

Credit risk

The company's principal financial assets are bank balances and cash, trade and other receivables

The company's credit risk is primarily attributable to its trade receivables. The amounts presented in the balance sheet are net of allowances for doubtful receivables. An allowance for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies

The company has no significant concentration of credit risk, with exposure spread over a large number of counterparties and customers

Liquidity risk

In order to maintain liquidity to ensure that sufficient funds are available for ongoing operations and future developments, the company maintains sufficient cash balance in its bank account

Environment

Rolex Holding SA recognises the importance of its environmental responsibilities, monitors its impact on the environment, and designs and implements policies to reduce any damage that might be caused by the Group's activities. Initiatives designed to minimise the company's impact on the environment include improving our energy use efficiency, reducing the amount of CO_2 emissions by switching from conventional to renewable energy sources and minimising the consumption of water and the production of waste (both hazardous and non-hazardous) are currently being considered

Employees

Details of the number of employees and related costs can be found in note 5 to the financial statements on page 14

Directors

The directors who served throughout the year were

Mr R de Leyser Mr B Gros Mr G E Richards Mrs C Thomson

Mr G E Richards retires by rotation and being eligible offers himself for re-election

Directors' report (continued)

Auditor

Each of the persons who is a director at the date of approval of this report confirms that

- so far as the director is aware, there is no relevant audit information of which the company's auditor is unaware,
- and the director has taken all the steps that he ought to have taken as a director in order to make himself aware of
 any relevant audit information and to establish the company's auditor is aware of that information

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006

The directors confirm that there was no third party indemnity provision in place during the year or at the date of signing

Charitable donations

During the year the company made charitable contributions of £1,134 (2011 £11,410)

Auditor

Deloitte LLP have expressed their willingness to continue in office as auditor and a resolution to reappoint them will be proposed at the forthcoming Annual General Meeting

Approved by the Board of Directors and signed on behalf of the Board

G E Richards Secretary

26 February 2013

Statement of directors' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted. Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- · select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent auditor's report to the members of The Rolex Watch Company Limited

We have audited the financial statements of The Rolex Watch Company Limited for the year ended 31 December 2012 which comprise the profit and loss account, the statement of total recognised gains and losses, the balance sheet, the cash flow statement and the related notes 1 to 20 The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice)

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error This includes an assessment of whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report

Opinion on financial statements

In our opinion the financial statements

- give a true and fair view of the state of the company's affairs as at 31 December 2012 and of its profit for the year then ended.
- · have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006

Opinion on matters prescribed by the Companies Act 2006

In our opinion the information in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- · certain disclosures of directors' remuneration specified by law are not made, or
- · we have not received all the information and explanations we require for our audit

Notes to the accounts Year ended 31 December 2012

1. Accounting policies

Basis of preparation

The accounts are prepared in accordance with applicable United Kingdom law and accounting standards under the historical cost convention. The particular accounting policies adopted are described below and have been applied consistently throughout the year and the preceding year.

Going concern basis

The company's business activities, together with the factors likely to affect its future development, and principal risks, performance and position are set out under the director's report. This includes the risks created by the challenging economic environment and other risks referred to in the Directors Report.

The company meets its day to day working capital requirements through its cash reserves and generation of cash flow throughout the year. As at the year end the company had cash reserves of £2 2m

The company's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the company should be able to operate within the level of its current and expected cash resources

After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

Tangible fixed assets

Tangible fixed assets are stated at cost or valuation, net of depreciation and any provision for impairment Depreciation is charged on all tangible fixed assets, apart from freehold land, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset evenly over its estimated useful life, which is reviewed annually. The estimated useful lives are as follows

Freehold buildings 50 years
Leasehold land 999 years
Leasehold improvements 10 years
Plant and equipment 4 to 10 years
Motor vehicles 4 years

Stocks

Stocks are valued at the lower of cost and net realisable value. Cost comprises the purchase price on a first in first out basis

Foreign currencies

Assets and liabilities denominated in foreign currencies are translated at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rates ruling at the date of the transaction. All differences are taken to the profit and loss account.

Notes to the accounts Year ended 31 December 2012

1 Accounting policies (continued)

Taxation

Corporation tax is provided at amounts expected to be paid using the tax rates and laws enacted or substantially enacted by the balance sheet date

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no binding contract to dispose of those assets. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax assets and liabilities are not discounted.

Pension costs

The company operates a defined benefit scheme for those employees wishing to participate and who are eligible

The amounts charged to operating profit are the current service costs and gains and losses on settlements and curtailments. They are included as part of staff costs. Past service costs are recognised immediately in the profit and loss account if the benefits have vested. If the benefits have not vested immediately, the costs are recognised over the period until vesting occurs. The interest cost and the expected return on assets are shown as a net amount of other finance costs or credits adjacent to interest. Actuarial gains and losses are recognised immediately in the statement of total recognised gains and losses.

The defined benefit scheme is funded, with the assets of the scheme held separately from those of the company Pension scheme assets are measured at fair value and liabilities are measured on an actuarial basis using the projected unit method and discounted at a rate equivalent to the current rate of return on a high quality corporate bond of equivalent currency and term to the scheme liabilities. The actuarial valuations are obtained at least triennially and are updated at each balance sheet date. The resulting defined benefit asset or liability, net of the related deferred tax, is presented separately after other net assets on the face of the balance sheet.

Leases

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such as basis

Notes to the accounts Year ended 31 December 2012

2. Turnover

Turnover represents the amount receivable for the goods supplied and services provided for continuing activities, excluding Value Added Tax, during the year. The analysis of geographical segment of the group's turnover is set out below.

		2012 £	2011 £
	Geographical segment		
	United Kingdom		130,324,795
	Rest of Europe	3,286,941	2,701,758
		142,588,045	133,026,553
3.	Operating profit		
		2012 £	2011 £
	Operating profit is stated after charging		
	Operating lease rentals – other	1,608,412	1,608,412
	Depreciation	1,387,777	1,490,714
	(Loss) on disposal of fixed assets	-	(850)
	Auditors' remuneration		
	Fees payable to company's auditors for audit of the company's		
	financial statement	49,750	47,775
	Other services –accounts assistance	8,393	11,000
	Other services –audit related services	5,500	5,512
	Other services –general taxation advice	9,490	2,200
4.	Directors' emoluments		
		2012	2011
		£	£
	Emoluments	1,018,330	871,390
	Directors' remuneration excluding pension scheme contributions		
		2012	2011
		£	£
	Highest paid director	762,726	541,963
			

Two directors are members of the company's defined benefit pension scheme and the accrued pension of the highest paid director at 31 December 2012 was £4,416 (2011 £2,750)

Notes to the accounts Year ended 31 December 2012

5. Employees

J.	Employees		
	The average number of employees including directors during the year was 160	(2011 162) made	up as follows
		2012 No.	2011 No.
	Production	89	90
	Administration and management	46	44
	Distribution and sales	20	22
	Establishment	5	5
		160	161
	Staff costs, including directors, during the year amounted to		
		2012 £	2011 £
	Wages and salaries	7,484,093	7,181,569
	Social security costs	814,900	719,080
	Other pension cost (see note 18)	2,893,000	2,331,000
		11,191,993	10,231,649
6.	Tax		
	Analysis of tax charge on profit on ordinary activities		
		2012 £	2011 £
	United Kingdom corporation tax at 24 5% (2011 26 5%) based on the profit for the year	3,385,762	478,636
	Adjustment in respect of prior years	(2,737)	(348,255)
	Deferred tax	3,383,025	130,381
	FRS17 timing difference	406,700	372,325
	Timing differences, origination and reversal	70,542	529,809
	Effective change in tax rate	(62,125)	(41,467)
	Effective change in lax rate	(02,123)	(12,101)
	Effective change in lax rate	415,117	860,667

Notes to the accounts Year ended 31 December 2012

6. Tax (continued)

Factors affecting tax charge for the current year

The tax assessed for the period is higher than that resulting from applying the standard rate of corporation tax in the UK

The differences are explained below

	2012 £	2011 £
Profit on ordinary activities before tax	15,481,255	5,135,258
Tax at 24 5% (2011 26 5%) thereon	3,792,530	1,360,843
Expenses not deductable/(not taxable) Capital allowance in excess of depreciation Timing difference Prior year adjustments	66,000 (66,068) (406,700) (2,737)	(109,047) (221,960) (551,200) (348,255)
Current tax charge for year	3,383,025	130,381

A potential deferred tax asset of £690,000 (2011 £750,000) has not been recognised in respect of capital losses as there is insufficient evidence that the asset will be recovered

The Finance Act 2012, which provides for a reduction in the main rate of corporation tax from 24% to 23% effective from 1 April 2013, was substantially enacted on 3rd July 2012. This rate reduction has been reflected in the calculation of deferred tax at the balance sheet date.

The Government intends to enact future reductions in the main tax rate of 2%, down to 21% by 1 April 2014 We estimate that the future rate change to 21% would further reduce the UK deferred tax liability recognised at the balance sheet date from £1,037,927 to £947,673 The actual inpact will be dependent on the deferred tax position at that time

Notes to the accounts Year ended 31 December 2012

17.	Other service (expense)/income		
		2012 £	2011 £
	Net return on pension schemes	(131,000)	(63,000)

18 Pension costs

The company operates one defined benefit scheme in the UK which offers both pensions in retirement and death benefits to members. Members earn benefits on a career average revalued earnings structure. Contributions to the scheme for the year beginning 1 January 2013 are expected to be £3m

The major assumptions used by the actuary were (in nominal terms)

	At	At
	31 December	31 December
	2012	2011
CARE revaluation rate	3 45%	3 85%
Discount rate	4 5%	4 9%
Inflation assumption	2 7%	3 10%
Rate of increase of pensions in payment	2 7%	3 00%
Assumed life expectancies on retirement at age 65 are		
Males	23	23
Females	25	25

The assumptions used in determining the overall return of the scheme have been set with reference to yields available on government bonds and appropriate risk margins

Notes to the accounts Year ended 31 December 2012

18 Pension costs (continued)

The assets in the scheme and the expected rate of return were

	31 December Long-term rate of return expected %	er 2012 Value at £'000	31 December Long-term rate of return expected %	Value at £'000
