NOTES TO THE ABBREVIATED ACCOUNTS - continued FOR THE YEAR ENDED 31 JULY 2012

1 ACCOUNTING POLICIES - continued

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease

Pension costs and other post-retirement benefits

For defined benefit schemes the amounts charged to operating profit are the current service costs and gains and losses on settlements and curtailments. They are included as part of staff costs. Past service costs are recognised immediately in the profit and loss account if the benefits have vested. If the benefits have not vested the costs are recognised over the period until vesting occurs. The interest cost and expected return on assets are shown as a net amount of other finance cost or credits adjacent to interest. Actuarial gains and losses are recognised immediately in the statement of total recognised gains and losses.

Defined benefit schemes are funded, with the assets of the scheme held separately from those of the company, in separate trustee administered funds. Pension scheme assets are measured at fair value and liabilities are measured on an actuarial basis using the projected unit method and discounted at a rate to the equivalent currentrate of return on a high quality corporate bond of equivalent currency and term to the scheme liabilities. The actuarial valuations are obtained at least triennially and are updated at each balance sheet date. The resulting asset or liability, net of the related deferred tax, is presented separately after other net assets on the face of the the balance sheet.

The directors did not consider it necessary for the subsidiary, Boneham Metal Products Inc, to have a co-terminous year end as the company has opted to not prepare consolidated accounts and is likely to continue doing so until it becomes a requirement. As the subsidiary's country of incorporation is outside the UK, the non-co-terminous year end also allows for the timely preparation of financial information which is required to be disclosed within the company's accounts.
