## **Notes to the accounts year ended 31 December 2020**

### **1. Accounting policies**

The accounting policies have all been applied consistently throughout the year and the preceding year. The financial statements are prepared in accordance with applicable law and United Kingdom Accounting Standards. The particular accounting policies adopted are described below.

#### **Basis of accounting**

The financial statements have been prepared under the historical cost convention and in accordance with Financial Reporting Standard 102 (FRS 102) issued by the Financial Reporting Council. The company has taken advantage of the transitional exemption relating to dormant companies.

#### **Going Concern**

Due to the current economic conditions there are inherent future uncertainties that may impact the business. As a result of this the directors have made enquiries and have taken into account the company's forecasts and financial position and have a reasonable expectation that the company has adequate resources to continue in existence for the foreseeable future. For this reason, the directors continue to adopt the going concern basis in preparing the accounts.

#### **Consolidated financial statements and cash flows**

The company is exempt under Section 408 of the Companies Act 2006 from preparing group financial statements for the company and its subsidiaries, as the company is a wholly owned subsidiary of Fence Topco Limited, a company incorporated in Great Britain. Therefore, these financial statements represent those of the company and not the group. The company is a wholly owned subsidiary, and the cash flows of the company are included in the consolidated cash flow statement of its parent undertaking which is publicly available. Consequently, the company is exempt under the provisions of FRS 102 from publishing a separate cash flow statement.

#### **Taxation**

Current tax comprising UK corporation tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or subsequently enacted by the balance sheet date.

Deferred taxation is provided in full at the anticipated tax rates on timing differences arising from the different treatment of items for accounting and taxation purposes. No provision is made for deferred tax on investment revaluations. A deferred tax asset is regarded as recoverable and therefore recognised only when it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. The company has elected not to discount the deferred tax assets and liabilities.

#### **Fixed asset investments**

Fixed asset investments are stated at cost less provision for impairment.
