Strategic report for the year ended 31 December 2019

The directors present their Strategic report for Jardine Motors Group UK Limited (the 'company') and its subsidiaries (together the 'group') for the year ended 31 December 2019.

Principal activities

The group's principal activity is the retail distribution of motor vehicles and related activities in the motor trade. The company is a holding company for subsidiaries operating in the motor trade.

Review of the business

The group's mission is to be the best motor retail group in the UK by delivering an unparalleled level of customer service. It aims to achieve this by retaining existing and adding new customers, improving its operational effectiveness and growing sales volumes profitably whilst investing in the development and retention of its employees.

The UK new car market experienced a further year of decline during 2019, down 2.4% over 2018. The total new passenger car registrations amounted to 2.31 million units (2018: 2.37 million). The brands represented by the group experienced a smaller fall in registrations, on a like for like basis, of 0.9%.

Group operating profit of £8.3m is a reduction on prior year (2018: £12.5m) further reflecting the downturn in the UK new car market.

The group's developments

During 2019, the group continued to concentrate its efforts on consolidating and enhancing its position with its existing portfolio of brands and dealerships. As part of this on-going assessment and review of existing franchise representation the decision was taken to exit from Volkswagen and Honda. The group had been under-performing for a number of years in both brands with minimal returns from substantial investments.

On 2 September 2019, the group sold the trade and assets of two Honda dealerships to Marshall Motor Group Limited for a net consideration of £0.9m. The group also closed its remaining two Honda dealerships in Birmingham and Bracknell and re-purposed the Bracknell facility.

On 17 December 2019, the group sold the trade and assets of its Volkswagen dealerships and its Skoda dealership to Marshall Motor Group Limited for a net consideration of £16.0m (excluding associated freehold properties). The group continued to represent Volkswagen in Aylesbury during part of 2020 as that part of the sale did not complete on 17 December 2019. The Aylesbury dealership was sold to Marshall Motor Group Limited on 10 July 2020 for further net consideration of £2.9m.

Following completion in 2018 of the group's investment in its Jaguar and Land Rover portfolio of dealerships and their transition to the brand's Dual Arch concept the group closed its stand-alone Jaguar dealership in Tamworth during 2019. This dealership was not part of the overall investment plan and was closed with full support of Jaguar Land Rover.

The group has taken the decision to exit from its Lamborghini representation in Sevenoaks and has re-purposed the premises into a used Ferrari dealership to complement its Colchester Ferrari dealership.

Strategic report for the year ended 31 December 2019 (continued)

Key Performance Indicators (KPIs) and principal risks and uncertainties

The group measures performance of each dealership throughout the year against certain pre-determined KPIs including return on sales and investment, as well as operating metrics based on sales volumes and profit margins.

The group's principal financial and non-financial KPIs during the year were:

	2019	2018
Financial		
Retail return on sales %	0.4	0.6
Gross profit %	7.9	7.9
Operating profit £'000	8,277	12,518
New car sales units	36,311	35,234
Used retail car sales units	32,665	31,913
Non-Financial		
Staff attrition %	22.5	24.7

The group maintains a robust risk management framework as outlined in the Directors' report to ensure that we identify the most significant risks the group faces and that appropriate management focus is given to actions to respond to identified or emerging risks. A compliance programme is in place as is a fraud detection and whistleblowing programme.

The key operating risks facing the business are: failure to deliver our strategic goals of growth in market share, improvement in margins and control of working capital. There is a day to day focus on these goals through our operating and risk management frameworks.

Other risks include failure to maintain our brand and reputation for customer service and our relationships with our brand partners, disruption to the global supply chain which may impact our brand partners and the impact of global pandemics. We are focussed on maintaining and improving our relationships and reputation with both our customers and our brand partners.

The group's position

We believe our strengths lie in our balanced portfolio of existing franchise partners in the premium sectors supported by our investment in freehold property, strong balance sheet, committed funding lines and shareholder support. At the year end the group had net current assets of £84.2m (2018: £94.5m).

Future developments

The group's operational focus is to continue to grow with its selected franchise partners whether organically or through acquisition where real value opportunities arise. A key part of this growth plan is through customer and employee retention and continued investment in delivering a modern customer retail experience.

The group monitors external factors that could have an impact on the business both in the immediate and long-term future and takes decisions bearing in mind all potential impacts of, but not limited to, Brexit and COVID-19.

Strategic report for the year ended 31 December 2019 (continued)

Section 172 statement

The directors are fully aware of their responsibilities to promote the success of the company in accordance with section 172 of the Companies Act 2006.

During the financial year the directors have acted in a manner that they believe has the best interests of the company, and all its stakeholders, as the main driving force behind all decisions taken. This includes the interests of the company's employees, shareholders, customers, suppliers and business partners and also the wider community and the environment. The company's reputation is core when making decisions. Acting in good faith and fairly between stakeholders, the directors, at all times, consider what is most likely to promote the success of the company for its stakeholders in the long term.

Employees

The group aims to be a responsible and fair employer treating all colleagues equally and with respect and to provide fair remuneration and benefits. Health and safety of all our colleagues is of the highest priority and the directors continually invest to ensure the highest of standards are maintained throughout the businesses.

Shareholders

The directors work very closely with the group's shareholders, informing them of key business initiatives and investments throughout the year and through regular monthly financial updates. All actions of the directors are taken with the long-term benefit of the shareholders in mind.

Customers

The satisfaction and welfare of our customers is paramount to the company culture that the directors instil throughout the business. Continuous training and communication of, and to, our colleagues aims to ensure the highest possible level of customer satisfaction and engagement is made with every single customer interaction.

Suppliers and business partners

Regular meetings are held with our manufacturer partners to ensure the company adheres to brand requirements. The company monitors its suppliers to ensure that all relevant regulations are met within their own manufacturing and employment frameworks.

Wider community and environment

The directors are aware of the impact of the company's operations within the local community and on the environment and consider these factors when taking decisions and making investments.

By order of the Board

Company Director

26 August 2020

Directors' report for the year ended 31 December 2019

The directors present their annual report and the audited financial statements of the group and company for the year ended 31 December 2019.

Principal activities

The principal activities of the business are discussed in the Strategic report on page 2.

Review of the business and future developments

The review of the business and future developments are discussed in the Strategic report on page 2.

Principal risks and uncertainties

The principal risks and uncertainties facing the group are discussed in the Strategic report on page 3.

Post balance sheet events

Since the year-end the world has been impacted by the outbreak of the Coronavirus pandemic. The group has reacted by following the UK Government guidelines and in all instances put the safety and wellbeing of its colleagues and customers first.

The group closed all its car sales outlets in the latter part of March and most of its aftersales operations, keeping a select number of service and parts facilities open with skeleton staff to provide services for keyworkers.

In line with Government regulations the group began re-opening all its car sales operations on 1 June 2020. During the 'lockdown' period the group carried out detailed planning and risk assessments for each location to ensure customers and colleagues were able to return to a safe environment. As part of this process, the group has invested in the necessary equipment and Personal Protective Equipment (PPE) for both colleagues and customers. All risk assessments, policies and procedures were reviewed and approved by the group's CEO and Director responsible for Health and Safety prior to the businesses being permitted to re-open. These documents are under constant review both centrally and locally. Full and regular communications to all colleagues have been set up and every colleague has been required to complete, and pass, a detailed on-line training course covering the new ways of working before being allowed to come back to the working environment, whether at a dealership, office or at home.

The CEO also convenes a weekly Coronavirus safety committee, attended by the senior leadership team to monitor adherence to the new ways of working, review incidents and put in place action plans to further strengthen oversight and control as required.

The group has participated in the UK Government's furlough scheme with around 85% of its colleagues placed on furlough during the lockdown. The group has adapted quickly to the new ways of working, including working at home which has been enabled through its existing IT infrastructure and applications such as Microsoft Teams.

The directors do not consider the impact of Coronavirus to be a post balance sheet adjusting event. The group has completed full detailed cashflow forecasts based on a number of scenarios and considers, with its banking and manufacturer funding facilities together with full support from its parent undertaking, that it will be able to continue trading. The directors continuously monitor the group's cost base to ensure it is appropriate in relation to demand and will take necessary actions to protect its financial position, whilst ensuring standards are maintained and the wellbeing and safety of colleagues and customers is not compromised.

Directors' report for the year ended 31 December 2019 (continued)

Post balance sheet events (continued)

Current results and forecasts indicate a significant and material impact on the results for 2020 due to loss of sales during lockdown and an expected reduction in new car sales demand for the remainder of the year. Trade since re-opening of dealerships has been resilient and the directors consider that the carrying value of the group's stocks are being realised. It is too early to assess the longer-term implications of the 2020 trading with respect to the potential impact on the carrying values of the group's tangible and intangible assets. Sensitivity disclosure is provided in note 13. The group will continue to implement strategies to minimise overall losses both during and post the pandemic.

On 6 July 2020, the group announced a re-structuring programme affecting all divisions and head office roles including redundancies for 522 roles. It is anticipated that the cost of re-structuring will be between £3m to £4m.

On 10 July 2020, the remaining Volkswagen dealership in Aylesbury was sold to Marshall Motor Group Limited for net consideration of £2.9m.

During July 2020, the group repaid its bank loan with Lloyds Bank plc by the due date. During July 2020 the group agreed new committed banking facilities with new lenders, with strong investment grade ratings, giving the group adequate facilities to meet its on-going funding requirements.

Financial risk management

a) Funding and liquidity risk

The group's policy is to ensure that funding requirements forecast by the group can be met within available bank and manufacturer funding facilities. The group has committed facilities in place expiring after a period of at least twelve months from the date when the financial statements were approved.

The group holds motor manufacturer funding facilities with each of its franchise partners. These incur stocking charges tied to Finance House Base Rate (FHBR) and are secured against vehicles held mostly on consignment, which can be returned to the manufacturer. The sizes of the facilities are reviewed by the group and manufacturers annually in line with operating needs.

The group continues to operate within its available bank and manufacturer funding facilities limits and its forecasts for the forthcoming twelve months show this position continuing.

b) Interest rate risk

The group's interest rate practice is to manage the risk of interest rate fluctuations on the cash flows payable on the group's debt and manufacturer funding facilities. Interest rates remain low and the group continues to monitor this on a daily basis. With the maintained low interest rates the group does not currently consider a hedging exercise to be appropriate in the current market conditions.

c) Credit risk

An external credit risk company is used to check the credit ratings of corporate customers and limit the group's exposure to credit risk. Credit ratings are updated both throughout the year and also upon credit alerts received from the credit risk company.

Directors' report for the year ended 31 December 2019 (continued)

Corporate governance (continued)

The company does not apply a corporate governance code. The company applies corporate governance as required by the ultimate parent undertaking. Jardine Matheson Holdings Limited. The corporate governance policies applied by the ultimate parent undertaking are set out on pages 140 to 145 of the 2019 Annual Report (see note 32).

As a member of the Jardine Matheson group of companies, corporate governance of the Jardine Motors Group UK Limited group of companies relies on a combination of shareholder, board and management supervision together with strict financial, internal audit and risk management procedures.

The company has a Board currently consisting of four directors; two executive and two non-executive. The Board meets regularly throughout the year to review the overall performance of the group, to agree strategy and discuss all issues that have either arisen or are facing the group.

The company has a Risk Management and Compliance Committee ("RMCC"). The group's internal audit function performs both operational and financial audits, together with follow up visits normally within three months of the issued report. All internal audit reports are issued to the RMCC, the board of executive directors and the respective management teams. Dealerships are also subject to annual health and safety audits and regular operational audits from manufacturers.

The group also has a dedicated Financial Conduct Authority (FCA) compliance team. This team specifically audits each dealership and the group's marketing activities for FCA compliance with regular follow up audits.

Below the Board, the group has a management committee that regularly meets. This committee consists of the group's executive directors and its operational leadership team covering each discipline of the business and is chaired by the group's CEO. The committee reviews all aspects of the group's activities and provides clear guidance and direction for the effective management of all parts of the business. The executive directors also produce a corporate risk register that is updated and presented to the RMCC and the Board on a regular basis.

Further committees are established as required to oversee individual areas within the group's control structure. A key established committee is the risk management forum that is tasked with monitoring day to day operating risks and making recommendations to the management committee.

The group operates a delegation of authority matrix for its management teams below directorship level and this is monitored through monthly performance reviews at every dealership, where the local management teams meet with operational directors to review performance.

Results and dividends

The results of the group for the year are set out in the consolidated profit and loss account on page 14.

The directors have not declared nor paid a dividend during the year (2018: none).

Directors' report for the year ended 31 December 2019 (continued)

Directors

The directors of the company who were in office during the year and up to the date of signing the financial statements were:

D N Williamson
D J Muir (appointed 1st January 2019)
M D Bishop (resigned 1st January 2019)
Lord Sassoon, Kt * (retired 9th April 2020)
P Hawkins
A Keswick *

The directors of any parent companies are marked with an asterisk, these include Jardine Motors Group Holdings Limited and Jardine Matheson Holdings Limited.

Qualifying third party indemnity provisions

No qualifying third-party indemnity provision was in force during the financial year ended 31 December 2019 or at the date of this report.

Going concern

The group meets its day-to-day working capital requirements through a mixture of its banking facilities and manufacturer stock funding lines. The directors have assessed the group's ability to continue trading for the twelve months following the approval of these financial statements by preparing detailed cash flow and profit forecasts, including considering a "severe but plausible" downside scenario.

The key assumptions made in those projections are as follows:

- Following re-opening of showrooms on 1 June 2020 the UK new and used car market to be subdued and
 aftersales activity to fall below 2019 levels with a gradual recovery into 2021.
- The continued availability of all manufacturer stocking lines.
- Implementation of cost reduction plans and capex deferral during the second half of 2020 to ensure the cost base is appropriate for the level of demand.

As at the date of signing the financial statements, the group had available undrawn committed facilities of £57.0m and undrawn uncommitted facilities of £55.0m. There are no covenants.

Taking into account the modelling and the availability of funding the directors confirm that the group has adequate resources and sufficient facilities to meet funding requirements over the next twelve months and the group therefore continues to adopt the going concern basis in preparing its financial statements.

Employees and equal opportunities

The group is committed to an active equal opportunities policy from recruitment and selection, through training and development, appraisal and promotion to retirement.

Directors' report for the year ended 31 December 2019 (continued)

Employees and equal opportunities (continued)

It is the group's policy to promote an environment free from discrimination, harassment and victimisation, where everyone will receive equal treatment regardless of age, disability, gender reassignment, marriage and civil partnerships, pregnancy and maternity, race, religion or belief, sex and sexual orientation. All decisions relating to employment practices are objective, free from bias and based solely upon work criteria and individual merit.

Applications for employment by disabled persons are always fully considered, bearing in mind the respective aptitudes and abilities of the applicant concerned. In the event of members of staff becoming disabled, every effort is made to ensure that their employment with the group continues and that appropriate training is arranged. It is the policy of the group that the training, career development and promotion opportunities of a disabled person should, as far as possible, be identical to that of a person who does not suffer from a disability.

Consultation with employees or their representatives has continued at all levels, with the aim of ensuring that their views are taken into account when decisions are made that are likely to affect their interests and that all employees are aware of the financial and economic performance of their business units and of the group as a whole. Communication with all employees continues through internal newsletters, briefing groups, electronic communications and the group's internal printed periodical 'Torque'.

Political donations

During the year, the group made no political contributions (2018: £nil).

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the group and company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and company and of the profit or loss of the group and company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102, have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group and company will continue in business.

The directors are also responsible for safeguarding the assets of the group and company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group and company's transactions and disclose with reasonable accuracy at any time the financial position of the group and company and enable them to ensure that the financial statements comply with the Companies Act 2006.

Directors' report for the year ended 31 December 2019 (continued)

Directors' confirmations

In the case of each director in office at the date the Directors' report is approved:

- so far as the director is aware, there is no relevant audit information of which the group and company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the group and company's auditors are aware of that information.

Independent auditors

The group has passed an elective resolution under section 487 of the Companies Act 2006 to dispense with the formal requirement to reappoint auditors annually.

By order of the Board

D Muir

Company Director

26 August 2020

Independent auditors' report to the members of Jardine Motors Group UK Limited

Report on the audit of the financial statements

Opinion

In our opinion, Jardine Motors Group UK Limited's group financial statements and company financial statements (the "financial statements"):

- give a true and fair view of the state of the group's and of the company's affairs as at 31 December 2019 and of the group's loss and cash flows for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual report and consolidated financial statements (the "Annual Report"), which comprise: the Consolidated and Company balance sheets as at 31 December 2019; the Consolidated profit and loss account and statement of comprehensive income, the Consolidated statement of cash flows, and the Consolidated and Company statements of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the group's and company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the group's and company's ability to continue as a going concern.

Independent auditors' report to the members of Jardine Motors Group UK Limited (continued)

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Strategic report and Directors' report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' report for the year ended 31 December 2019 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the group and company and their environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities in respect of the financial statements set out on page 9, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the company or to cease operations, or have no realistic alternative but to do so.

Independent auditors' report to the members of Jardine Motors Group UK Limited (continued)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the company financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Cash and cash equivalents		(4,804)	622

The company is a qualifying entity for the purposes of FRS 102 and has elected to take the exemption under FRS 102, para 1.12 (b) not to present the company statement of cash flows.

Notes to the financial statements for the year ended 31 December 2019

1 General information

The principal activity of Jardine Motors Group UK Limited (the 'company') and its subsidiaries (together 'the group') is the retail distribution of motor vehicles and related activities in the motor trade.

The company is a private company limited by shares and is incorporated in the United Kingdom and registered in England. The address of its registered office is 770 The Crescent. Colchester Business Park, Colchester, Essex, CO4 9YQ.

2 Statement of compliance

The group and company financial statements of Jardine Motors Group UK Limited have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and the Companies Act 2006.

3 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these consolidated and separate financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

These consolidated and separate financial statements have been prepared on a going concern basis, under the historical cost convention.

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in applying the group and company accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 4.

The company has taken advantage of the exemption in section 408 of the Companies Act from presenting its company profit and loss account.

The financial statements for the year ended 31 December 2018 have been restated following a reassessment by the directors of the accounting policy for the group's car purchase and loan scheme. The directors believe that the substance of the scheme and the recognition of the vehicles is better reflected as stocks than debtors as this reflects the fact that the vehicles are available for sale by the group and therefore a more appropriate accounting policy. As such, the 31 December 2018 comparative figures have been adjusted by £16,104,000; stocks (motor vehicles) increased by £16,104,000 and trade debtors decreased by the same amount. There is no impact on the profit and loss account, tax, equity or cash flows.

The cash flow statement for the year ended 31 December 2018 has been restated. The group's bank borrowings were included in cash and cash equivalents instead of within financing activities. There is no overall change to the statement of cashflows.

Notes to the financial statements for the year ended 31 December 2019

3 Summary of significant accounting policies (continued)

Going concern

The group meets its day-to-day working capital requirements through a mixture of its banking facilities and manufacturer stock funding lines. The directors have assessed the group's ability to continue trading for the twelve months following the approval of these financial statements by preparing detailed cash flow and profit forecasts, including considering a "severe but plausible" downside scenario.

The key assumptions made in those projections are as follows:

- Following re-opening of showrooms on 1 June 2020 the UK new and used car market to be subdued and aftersales activity to fall below 2019 levels with a gradual recovery into 2021.
- The continued availability of all manufacturer stocking lines.
- Implementation of cost reduction plans and capex deferral during the second half of 2020 to ensure the cost base is appropriate for the level of demand.

As at the date of signing the financial statements, the group had available undrawn committed facilities of £57.0m and undrawn uncommitted facilities of £55.0m. There are no covenants.

Taking into account the modelling and the availability of funding the directors confirm that the group has adequate resources and sufficient facilities to meet funding requirements over the next twelve months and the group therefore continues to adopt the going concern basis in preparing its financial statements.

Exemptions for qualifying entities under FRS 102

FRS 102 allows a qualifying entity certain disclosure exemptions subject to certain conditions, which have been complied with, including notification of, and no objection to, the use of exemptions by the company's shareholders. The company has taken advantage of the following exemptions:

- from preparing a statement of cash flows, on the basis that it is a qualifying entity and the consolidated statement of cash flows, included in these financial statements, includes the company's cash flows; and
- from disclosing the company key management personnel compensation, as required by FRS 102, paragraph 33.7.

Basis of consolidation

The group financial statements include the company and all its subsidiaries. Each subsidiary has adopted the group's accounting policies. All material intercompany transactions, balances and unrealised profits and losses on transactions between group companies have been eliminated.

The consolidated financial statements incorporate the results of business combinations using the acquisition method. In the balance sheet, the acquired identifiable assets, liabilities and contingent liabilities are initially recognised at their fair values at the acquisition date. The results of acquired operations are included in the Consolidated profit and loss account from the date on which control is obtained. They are deconsolidated from the date control ceases.

Functional and presentation currency

The group financial statements are presented in pound sterling and rounded to thousands. The company's functional and presentation currency is pound sterling.

Notes to the financial statements for the year ended 31 December 2019

3 Summary of significant accounting policies (continued)

Revenue recognition

Turnover comprises the value of sales of motor vehicles and parts, income from financing agreements and income from servicing and repairing of vehicles. Value added tax and discounts are excluded.

Turnover from the sale of goods is recognised upon transfer to a third party of economic benefits arising from the use of an asset or completion of service work. In practice this means that turnover is recognised when vehicles are invoiced and physically dispatched or when the service or repair has been undertaken.

Rehates

Any rebates received from suppliers for achievement of set targets are recognised in the profit and loss account only when the target has been achieved and the amount of rebate payable confirmed by the supplier.

Exceptional items

The group classifies certain one-off charges or credits that are of a non-recurring nature and that have a material impact on the group's financial results as 'exceptional items'. These are disclosed separately to provide further understanding of the financial performance of the group.

Employee benefits

The group provides a range of benefits to employees, including annual bonus arrangements, paid holiday arrangements and defined benefit and contribution pension plans.

Pensions

The group operates one defined benefit scheme and a defined contribution pension scheme.

Defined benefit scheme

Trustees administer the defined benefit scheme and the funds are independent of the group's assets. The scheme is a legacy closed scheme to which the group no longer accepts new entrants.

The liability recognised in the balance sheet in respect of the scheme is the present value of the defined benefit obligation at the reporting date less the fair value of the plan assets at the reporting date.

The defined benefit obligation is calculated using the projected unit credit method. Annually the group engages independent actuaries to calculate the obligation. The present value is determined by discounting the estimated future payments using market yields on high quality corporate bonds that are denominated in sterling and that have terms approximating the estimated period of the future payments.

The fair value of plan assets is measured in accordance with the FRS 102 fair value hierarchy and in accordance with the group's policy for similarly held assets. This includes the use of appropriate valuation techniques.

Actuarial valuations of the scheme are carried out every three years. The last actuarial valuation was as at 5 April 2017 and was signed on 28 September 2018.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income. These amounts together with the return on plan assets, less amounts included in net interest, are disclosed as 'Re-measurement of net defined benefit obligation'.

Notes to the financial statements for the year ended 31 December 2019

3 Summary of significant accounting policies (continued)

Pensions (continued)

The cost of the defined benefit plan recognised in comprehensive income as employee costs, except where included in the cost of an asset, comprises:

- the increase in pension benefit liability arising from employee service during the period; and
- the cost of plan introductions, benefit changes, curtailments and settlements.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of the plan assets. The cost is recognised in the profit and loss account as a finance charge within 'Interest and other net finance expenses'.

Defined contribution plan

The defined contribution plan is a pension plan under which the group pays fixed contributions into a separate entity. Once the contributions have been paid the group has no further payment obligations. The contributions are recognised as an expense when they are due. Amounts not paid are shown in accruals in the balance sheet. The assets of the plan are held separately from the group in independently administered funds.

Taxation

Current tax is the amount of corporation tax payable provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted at the balance sheet date.

Goodwil

Goodwill arising on acquisition, being the difference between the fair value of net assets acquired and the consideration paid, is recognised in the balance sheet as an intangible fixed asset and amortised over the directors' estimate of its useful life. As the directors expect the useful life of the goodwill to be greater than ten years, the group amortises goodwill over ten years as required by FRS102.

On acquisition, goodwill is allocated to cash generating units (CGU) on a franchise basis. This is the level at which goodwill is monitored for internal purposes.

On a subsequent disposal or termination of a previously acquired business, the profit or loss on disposal or termination is calculated after charging the amount of any related goodwill not written off through the profit and loss account.

Goodwill is tested annually for impairment. This is based on value-in-use calculations for each CGU to derive a recoverable amount. These calculations require the use of estimates regarding the expected future cashflows.

Notes to the financial statements for the year ended 31 December 2019

3 Summary of significant accounting policies (continued)

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Depreciation is provided on tangible fixed assets in equal annual instalments over their expected useful economic lives as follows:

Freehold and long leasehold buildings - 2% per annum

Short leasehold land and buildings - over term of lease

Plant and machinery - 10% - 33% per annum

Computer equipment - 20% - 33% per annum

Furniture, equipment and motor vehicles - 10% - 33% per annum

No depreciation is provided on freehold and long leasehold land as it is deemed to have an indefinite life. The profit or loss on disposal of tangible fixed assets is recognised by reference to their carrying amount.

Investments in subsidiary undertakings

Investments in subsidiary undertakings are stated at cost less provision for impairment in the financial statements of the company. Provision against the underlying value of the group investments in subsidiaries is made where, in the opinion of the directors, there is impairment to the value of the underlying business.

Leased assets

Operating lease rentals are charged to the profit and loss account on a straight-line basis over the term of the lease.

Where assets are financed by leasing arrangements that give rights approximating to ownership (finance leases), the assets are treated as if they had been purchased outright. The amount capitalised is the present value of the minimum lease payments payable over the term of the lease. The corresponding leasing commitments are shown as amounts payable to the lessor. Depreciation on the relevant assets is charged over the shorter of estimated useful economic life and the term of the lease.

Lease payments are analysed between capital and interest components so that the interest element of the payment is charged over the term of the lease and is calculated so that it represents a constant proportion of the balance of capital repayments outstanding. The capital part reduces the amounts payable to the lessor.

Stock

Stock is valued at the lower of cost and net realisable value. Cost is actual purchase price, excluding value added tax. Stock includes interest-bearing consignment stock, the corresponding liabilities of which are included in creditors. The interest cost related to consignment stock is disclosed as stocking loan interest within interest payable and similar expenses. Consignment stock that is non-interest bearing is not considered an asset of the group and is excluded. Net realisable value is based on estimated selling price less further costs to be incurred to completion and disposal. Provision is made where necessary for obsolete, slow moving and defective stocks.

Trade and other debtors

Trade and other debtors are recognised and measured at their original invoiced amount less provision for any uncollectable amounts. An estimate for doubtful debts is made when the collection of the full amount is no longer probable. Bad debts are written off when they are identified.

Notes to the financial statements for the year ended 31 December 2019

3 Summary of significant accounting policies (continued)

Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. Bank overdrafts, when applicable, are shown within borrowings in current liabilities.

Provisions

The group provides in full for liabilities when it has a legal or constructive obligation arising from a past event, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated.

Financial instruments

The group has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

Financial assets

Basic financial assets, including trade and other receivables and cash and bank balances, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Such assets are subsequently carried at amortised cost using the effective interest rate method.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in the profit and loss account.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in the profit and loss account.

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party, or (c) despite having retained some significant risks and rewards of ownership, control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

Financial liabilities

Basic financial liabilities, including trade and other payables, bank loans and loans from fellow group companies, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest rate method.

Notes to the financial statements for the year ended 31 December 2019

3 Summary of significant accounting policies (continued)

Financial instruments (continued)

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares are shown in equity as a deduction, net of tax, from the proceeds.

Related party transactions

The group discloses transactions with related parties which are not wholly owned within the same group (being the group headed by the ultimate parent undertaking Jardine Matheson Holdings Limited). Where appropriate, transactions of a similar nature are aggregated unless, in the opinion of the directors, separate disclosure is necessary to understand the effect of the transactions on the group financial statements.

4 Critical accounting judgements and estimation uncertainty

The group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Critical accounting judgements

Exceptional items

The group classifies certain one-off charges or credits that are of a non-recurring nature as exceptional. This can involve management judgement in determining whether an item is one-off and/or non-recurring in nature as well as the materiality of the relevant items.

Estimation uncertainty

Estimated useful lives of goodwill and other fixed assets

The group estimates the useful life of goodwill and tangible fixed assets and reviews these estimates at each financial year end.

Impairment of goodwill and other fixed assets

The group tests for impairment annually by applying procedures to ensure that its assets are carried at no more than their recoverable amount. The procedures require estimates and assumptions to be made.

The group is required to test whether goodwill has suffered any impairment if a trigger event occurs. As part of this testing, the recoverable amounts of cash generating units (CGUs) have been estimated based on value-in-use calculations. The use of this method requires the estimation of future cash flows expected to arise from the continuing operation of the CGU and the choice of suitable discount rates in order to calculate the present value of the forecast cash flows. Allocation of goodwill into individual CGUs is determined on a franchise basis.

The group's property portfolio is reviewed for impairment at each year-end by reference to third party desk top valuations or formal valuations every three years.

Notes to the financial statements for the year ended 31 December 2019

4 Critical accounting judgements and estimation uncertainty (continued)

Stock

As stocks are carried at the lower of cost and net realisable value this requires the estimation of the eventual sales price of goods to customers in the future. A high degree of judgement is applied when estimating the impact on the carrying value of stock of factors such as obsolete, slow moving and defective stocks. The quantity, age and condition of stocks are regularly measured and assessed as part of a range of reviews and stock counts undertaken throughout the year and across the group.

Provisions

The group provides for estimated future leasehold dilapidation costs in relation to properties where the lease expires within 12 months of the balance sheet date.

The group provides for estimated future lease costs in excess of expected sub-let rentals in respect of vacant leasehold properties where the on-going lease rentals are deemed to be oncrous.

The group provides for estimated all un-recognised liabilities in relation to closed and disposed dealerships.

All provisions are based on estimates and judgements given the best available data at the balance sheet date.

Tax estimates

The calculation of the group's total tax charge for the year necessarily involves a degree of estimation in respect of certain items whose tax treatment cannot be finally determined at the reporting date. The recognition of deferred tax assets is based upon whether it is more likely than not that sufficient and suitable taxable profits, based on the latest available profit forecasts, will be available in the future against which the reversal of timing differences can be deducted.

Post-employment benefits

The present value of the defined benefit pension liabilities recognised on the balance sheet is dependent on a number of assumptions including interest rates of high-quality corporate bonds, inflation and mortality rates. The net interest expense or income is dependent on the interest rates of high-quality corporate bonds. The assumptions are based on the conditions at the time and changes in these assumptions can lead to significant movements in the estimated obligations.

Notes to the financial statements for the year ended 31 December 2019

5 Turnover

All turnover of the group's subsidiary undertakings is derived from retail and commercial motor trade activities transacted from dealerships within the United Kingdom.

An analysis of turnover by category is as follows:

	2019 £'000	2018 £'000
New car sales	895,952	941,888
Used car sales	971,346	969,989
Aftersales	218,195	206,008
	2,085,493	2,117,885

6 Operating profit/(loss)

Operating profit/(loss) is stated after charging/(crediting):

	2019 £'000	2018 £`000
Depreciation of tangible fixed assets (note 14)	10,198	9,604
Profit on disposal of tangible fixed assets	-	(115)
Profit on disposal of businesses	-	(208)
Net provisions provided (note 21)	498	741
Amortisation of goodwill (note 13)	4,252	4,262
Stocks recognised as an expense	1,795,490	1,828,901
Impairment of stocks (note 16)	638	544
Impairment of trade debtors (note 17)	516	282
Operating lease charges - land and buildings	13,216	13,446
Operating lease charges - plant and machinery	1,448	842
Services provided by the company's auditors		
- the audit of parent company and consolidated financial statements	27	25
- the audit of company's subsidiaries pursuant to legislation	299	276
- taxation advisory	17	13
- other non-audit services	25	-

In addition to the fees set out above paid to PricewaterhouseCoopers LLP there were non-audit services of £43,000 (2018: £26,000) for services related to the group's defined contribution pension schemes.

Notes to the financial statements for the year ended 31 December 2019

7 Exceptional items

	2019 £'000	2018 £'000
Profit on sale of freehold property	454	3,116
Loss on disposals of dealerships (note 28)	(6,067)	<u>-</u>
_	(5,613)	3,116

The loss on disposal of dealerships is in regards the sale of Volkswagen and Honda dealerships as disclosed in note 28.

8 Company profit and loss account

The company has taken advantage of the exemption contained within section 408 of the Companies Act 2006 and consequently a profit and loss account for Jardine Motors Group UK Limited is not presented. The company's result for the financial year amounted to a loss of £219,000 (2018: profit of £189,000).

9 Employees

The group average monthly number of employees, including the executive directors employed by the group, within each category of persons was:

	2019 Number	2018 Number
Sales	1,022	1,042
Aftersales	1,692	1,714
Administration	715	692
	3,429	3,448
The costs incurred in respect of these employees were:	2019 £'000	2018 £`000
Wages and salaries	123,467	121,709
Social security costs	14,221	14,193
Other pensions costs (note 23)	2,653	1,899
	140,341	137,801

The company has no (2018: nil) employees other than the executive directors whose emoluments are disclosed in note 10.

Notes to the financial statements for the year ended 31 December 2019

10 Directors

	Total directors		Highest paid director	
	2019 £'000	2018 £`000	2019 £'000	2018 £'000
Aggregate emoluments	1,050	1,201	585	601
Post-employment benefits	47	56	10	46
	1,097	1,257	595	647

There are no retirement benefits accruing to the executive directors under defined benefit schemes (2018: none).

Key management compensation

The directors consider the only key management are the directors disclosed above (executive and non-executive).

11 Interest and other net finance expenses

Interest receivable and similar income	2019 £'000	2018 £`000
Interest associated with historic VAT refund	1,916	-

During the year, the group released an accrual for interest held back from the recovery of historic VAT reclaims that were paid in 2017. Following final clearance of outstanding potential claims as agreed between the group and HMRC the full interest accrual has been released.

Interest payable and similar expenses	2019 £'000	2018 £`000
Bank loans and overdrafts	1,350	894
Interest paid to group undertakings	774	692
Stocking loan interest	4,427	3,962
	6,551	5,548
Finance expenses	2019 £'000	2018 £`000
Pension charge (note 23)	653	2,947
Unwinding of discount in provisions (note 21)	173	81
	826	3,028

Unwinding of discount in provisions is in respect of the lease exit costs provisions disclosed in note 21.

Notes to the financial statements for the year ended 31 December 2019

12 Tax on (loss)/profit

(a) Tax (credit)/expense included in profit and loss	2019 £'000	2018 £'000
Current tax:		
UK corporation tax at 19.00% (2018: 19.00%)	1,964	2,550
Adjustments in respect of prior years	(2,688)	(346)
Total current tax	(724)	2,204
Deferred tax:		
Pension deficit	88	(200)
Accelerated capital allowances	142	115
Intangible fixed assets	(262)	(141)
Other short-term temporary differences	259	131
Adjustments in respect of prior years	(444)	(397)
Total deferred tax (note 22)	(217)	(492)
Tax on (loss)/profit	(941)	1,712
(b) Tax (credit)/expense included in other comprehensive income	2019 £'000	2018 £`000
Deferred tax:		
(Loss)/gain relating to pension liability (note 22)	(158)	457
Total tax included in other comprehensive income	(158)	457

Notes to the financial statements for the year ended 31 December 2019

12 Tax on (loss)/profit (continued)

(c) Reconciliation of tax (credit)/charge

The tax assessed for the year is lower (2018: higher) than the standard rate of corporation taxation in the UK of 19.00% (2018: 19.00%). The differences are explained below:

	2019 £'000	2018 £`000
(Loss)/profit before taxation	(2,797)	7,058
(Loss)/profit before taxation multiplied by standard corporation tax rate in the UK at 19.00% (2018: 19.00%)	(531)	1,341
Effects of:		
Non-taxable disposal gains	-	(592)
Net chargeable gains on disposals in year	559	-
Expenses not deductible for tax purposes	2,201	1,958
Net temporary differences: effect of change in tax rates	(38)	(252)
Adjustments in respect of prior years	(3,132)	(743)
Total tax (credit)/charge for the year	(941)	1,712

At 31 December 2019	26,567
Net book amount	
At 31 December 2019	17,478
At 31 December 2018	22,555

Notes to the financial statements for the year ended 31 December 2019

13 Intangible assets (continued)

As the directors expect the useful life of the goodwill to be greater than ten years, the group amortises goodwill over ten years.

The group has tested each of the group's four cash generating units (CGU) carrying value of goodwill for impairment by reference to projected discounted cash flows on a value-in-use basis. The value-in-use calculations are based on five-year projections with a terminal value at the end of year five into perpetuity with growth rates of either 0% or 2%. The key assumptions used for these forecasts are volumes, gross margins and costs. The five-year forecast growth rates are based on historic trading together with future expectations for each CGU franchise growth. The pre-tax discount rates applied to the cash flow forecasts are derived from the group's post-tax weighted average cost of capital. The assumptions used in the calculation of the group's weighted average cost of capital are benchmarked to externally available data. The pre-tax discount rate used in performing the value in use calculations in 2019 was 8.5% (2018: 8.6%). The same discount rate has been used for all CGUs.

For three of the four CGUs, the results of the impairment review indicate that value-in-use exceeds carrying value by c£212m in total. These CGUs are not considered to be sensitive to changes in assumptions. Return on sales would need to reduce by 80% to cause an impairment.

For the remaining CGU the value-in-use exceeds the carrying value by c£50m. This CGU is particularly sensitive to changes in assumptions. A reduction in return on sales of 50% would cause an impairment (with after sales margin being the key driver of the sensitivity for this CGU).

Company

The company has no intangible assets (2018: £nil).

Ian Skelly Group Limited	100% Ordinary Shares	Dormant
JMG (Scotland) Limited		Solely owns shares in JMG LP and
		acts as the General Partner of the
	100% Ordinary Shares	entity
Skelly's Limited	100% Ordinary Shares	Dormant

The group also owns 100% of the share capital of JMG LP. JMG LP owns freehold properties and sub-lets to Lancaster Motor Company Limited, Lancaster Sports Cars Limited and Lancaster Luxury Vehicles Limited, group subsidiary undertakings, at open market rentals. JMG LP is a Scottish Limited Partnership of which the Partners are all part of Jardine Motors Group UK Limited. The results and balance sheet of JMG LP are consolidated into these financial statements. All other group subsidiary undertakings are wholly owned and are registered and operate in England and Wales.

Appleyard Group Limited, Lancaster Public Limited Company, JMG (Scotland) Limited and Jardine Motors Pension Trustees Limited are held directly. The remainder of the subsidiary undertakings are held indirectly.

All subsidiary undertakings of the group, with the exception of Lancaster Public Limited Company, have taken advantage of the exemption from an audit for the year ended 31 December 2019 available under s479A of the Companies Act 2006 as the company has given a statutory guarantee of all of the outstanding liabilities of the subsidiaries as at 31 December 2019.

All dormant subsidiary undertakings of the group have taken advantage of the exemption from preparing and filing financial statements for the year ended 31 December 2019 available under s394A and s448A of the Companies Act 2006.

In the opinion of the directors, the value of the investments is not less than their carrying value.

Notes to the financial statements for the year ended 31 December 2019

16 Stocks

	Group 2019 £'000	Restated Group 2018 £'000
Consignment vehicles	53,244	51,762
Motor vehicles	274,451	247,394
Parts and other stocks	7,821	9,141
	335,516	308,297

Certain subsidiary undertakings have consignment stock arrangements with suppliers in the ordinary course of business. Vehicles adopted out of consignment stock are generally invoiced at the price ruling at the date of adoption. Stock held on consignment includes interest-bearing stock, some of which has a corresponding liability included in trade creditors.

Motor vehicles includes stock that is financed through finance companies associated with brand partners.

There is no significant difference between the replacement cost of the stock and its carrying amount.

Motor vehicles are stated after provisions for impairment of £638,000 (2018: £544,000).

Company

The company has no stock (2018: £nil).

17 Debtors

	Group 2019 £'000	Restated Group 2018 £`000	Company 2019 £'000	Company 2018 £`000

Trade creditors	243,338	205,975	-	-
Corporation tax	-	2,448	-	•
Other taxation and social security	6,176	6,231	-	~
Other creditors	47,452	58,558	-	-
Accruals and deferred income	16,467	16,414	41	15
	338,287	297,126	29,912	_ 7,515

The group utilises funding provided by finance companies associated with brand partners to finance some of its used and demonstrator stocks. All funding is secured against the respective vehicles. The amounts are repaid upon sale of the related vehicles or generally within 90 days. The facilities are uncommitted and subject to FHBR based interest rates. The cash flows are reported within operating cash flows. The interest charged is disclosed within interest payable as stocking loan interest (note 11) and the cash flows are reported within financing cash flows.

At 31 December 2019, the amount of stock funded through the finance companies was £161,934,000 (2018: £136,821,000) and is disclosed within trade creditors.

19 Creditors - amounts falling due after more than one year

	Group 2019 £'000	Group 2018 £'000	Company 2019 £'000	Company 2018 £'000
Bank loans (note 20)	58,000	79,000	58,000	79,000
Amounts owed to group undertaking	40,000	40,000	-	-
	98,000	119,000	58,000	79,000

The amounts owed to group undertaking are unsecured and are due for repayment in 2021.

Interest is charged on the amounts owed to group undertaking at 6 months LIBOR plus 1.00%.

Notes to the financial statements for the year ended 31 December 2019

20 Bank loans and overdrafts

Unsecured bank loans and overdrafts consist of:	Group 2019 £'000	Group 2018 £`000	Company 2019 £'000	Company 2018 £`000

	2,129	498	(25)	173	2,775

Leasehold dilapidations

The leasehold dilapidations provision was established to provide for future dilapidation liabilities on leasehold properties where the lease expires within 12 months of the balance sheet date.

Notes to the financial statements for the year ended 31 December 2019

21 Provisions for other liabilities (continued)

Onerous lease costs

The onerous lease costs provision was established to provide for all future estimated costs which will be payable up to, and including, the date of termination of the leases and was discounted at the average cost of capital of the group.

Closure provisions

Closure provisions have been provided in respect of businesses sold or closed in respect of any residual costs that may arise. These are expected to be utilised over the next twenty-four months.

Self-insurance fund

The self-insurance fund provision was set up to provide for insurance claims in excess of the group's insurance policy cover. As residual claims may still arise it is uncertain how long this will remain unutilised.

Company

The company has no provisions (2018: £nil).

22 Deferred tax assets

At 1 January	1,873	924	2,383	1,726
Amount credited/(charged) to profit and loss (note 12a)	217	492	(88)	200
Amount taken (from)/to other comprehensive income relating to pension liability (note 12b)	(158)	457	(158)	457
Net deferred tax assets at 31 December	1,932	1,873	2,137	2,383

Notes to the financial statements for the year ended 31 December 2019

22 Deferred tax assets (continued)

The Finance Act 2016 included legislation to reduce the main rate of UK corporation tax to 19% from 1 April 2017 and to 17% from 1 April 2020. These rate reductions were substantively enacted by the balance sheet date and therefore included in these financial statements. Temporary differences have been measured using 17%. Legislation has been substantively enacted after the current financial year balance sheet date to repeal the reduction of the main corporation tax rate thereby maintaining the current rate of corporation tax at 19%. The company expects to recognise a credit of £227,000 in the group accounts for the rate change impact from remeasuring opening temporary differences to be reported in the financial year ending 31 December 2020.

In addition to the deferred tax above, the group has unutilised ACT tax credits of £2,453,000 (2018: £2,453,000) and unutilised historic tax losses of £4,468,000 (2018: £4,468,000) giving rise to unrecognised deferred tax assets of £3,213,000 (2018: £3,213,000). The company has unutilised historic tax losses of £4,468,000 (2018: £4,468,000) giving rise to unrecognised deferred tax assets of £760,000 (2018: £760,000). The unutilised tax losses and ACT have no expiry date and are available indefinitely against qualifying income or tax charges. The directors consider there to be insufficient certainty over the ability of the group/company to offset the available losses or tax credits for the foreseeable future in order to recognise a deferred tax asset at the balance sheet date.

No deferred tax is recognised in relation to the undistributed reserves of subsidiary entities on the basis that such distributions would be exempt from corporation tax and withholding taxes in accordance with UK tax law. In accordance with UK tax law Jardine Motors Group UK Limited is not required to deduct UK income tax on the payment of distributions to its shareholders. Distributions paid by the company may be subject to tax on the recipient.

23 Post-employment benefits

Group

The group operates a closed pension scheme and one principal defined contribution pension scheme.

The assets of the schemes are held separately from those of the group in independent trustee administered funds.

Details in respect of the principal pension schemes are set out below:

Jardine Motors Group UK Pension Scheme

The group participates in the Jardine Motors Group UK Pension Scheme ('the scheme') which was closed to future accrual on 1 December 2009. Jardine Motors Group UK Limited is legally responsible for the group pension plan and accordingly recognises the entire net defined benefit cost in its individual financial statements.

Asset-backed funding arrangement

In 2014 Jardine Motors Group UK Limited (the "Group") established a Scottish Limited Partnership ("JMG LP" or the "Partnership") with the scheme. Under this arrangement, properties with a fair value of £21.45 million were transferred to the Partnership from group companies Lancaster plc and Lancaster Motor Company Limited. Both transfers were affected via a 20-year sale and leaseback arrangement to the respective company.

Notes to the financial statements for the year ended 31 December 2019

23 Post-employment benefits (continued)

The scheme's interest in the partnership entitles it to an annual distribution in the form of rental payments for 20 years. The annual contributions are set at £1.35 million per annum and increase by 13.14% every 5 years. In addition to these contributions, the group may have to pay additional cash sums to the scheme as part of the triennial valuation deficit recovery plan.

The partnership is controlled by the group and its results are consolidated by Jardine Motors Group UK Limited. The group's balance sheet and comprehensive income are unchanged by the establishment of the partnership. The investment held by the scheme in the partnership does not qualify as a plan asset for the purposes of the group's consolidated financial statements and is therefore not included within the fair value of plan assets. The value of the properties transferred to the partnership remains included within the group's fixed assets on the balance sheet. In addition, the group retains full operational flexibility to extend, develop and substitute the properties within the partnership.

Present values of scheme liabilities, fair values of scheme assets and deficit in scheme

	2019 £'000	2018 £'000
Fair value of scheme assets	173,482	154,002
Present value of scheme liabilities	(195,607)	(178,246)
Deficit in scheme	(22,125)	(24,244)

Reconciliation of group scheme assets and liabilities

	Assets £'000	Liabilities £'000	Total £'000
At 1 January 2019	154,002	(178,246)	(24,244)
Interest income/(expense)	4,228	(4,881)	(653)
Actuarial gains/(losses)	21,298	(20,366)	932
Benefits paid, death in service insurance premiums and expenses	(7,886)	7,886	-
Contributions by employer – deficit funding	1,840		1,840
At 31 December 2019	173,482	(195,607)	(22,125)

The actual return on the scheme assets over the year ended 31 December 2019 was a gain of £25,526,000 (2018; deficit of £10,229,000).

Total charge recognised in comprehensive income

	2019 £'000	2018 £'000
Net interest expense	653	486
Gain on settlements	<u>-</u>	2,461
Total charge recognised in comprehensive income (note 11)	653	2,947

Notes to the financial statements for the year ended 31 December 2019

23 Post-employment benefits (continued)

Other comprehensive income/(expense)

	2019 £'000	2018 £`000
Return on scheme assets	21,298	(14,348)
Experience losses arising on the scheme liabilities	(114)	(809)
Effects of changes to the demographic and financial assumptions underlying the present value of the scheme liabilities	(20,252)	12,465
Actuarial gains/(losses) recognised in other comprehensive income	932	(2,692)
The fair value of plan assets was:	2019 £'000	2018 £'000
Equities	72,552	55,843
Bonds and other classes	100,930	98,159
Total assets	173,482	154,002

None of the fair values of the assets shown above include any of the group's own financial instruments or any property occupied by, or other assets used by, the group.

Assumptions	2019	2018	
	% p.a.	% p.a.	
Inflation assumption	2.84	3.25	
Discount rate	2.05	2.80	
Rate of increase in pensions in payment	2.78	3.11	
Revaluation rate for deferred pensioners	2.04	2.25	

The mortality assumptions adopted imply the following life expectancies at age 65:

	2019 Years	2018 Years
Male currently aged 45	22.6	22.8
Female currently aged 45	24.7	24.9
Male currently aged 65	21.6	21.8
Female currently aged 65	23.5	23.7

Estimate of contributions to be paid to the scheme

The best estimate of contributions to be paid by the employer to the scheme for the year beginning 1 January 2020 is £1,840,000.

Notes to the financial statements for the year ended 31 December 2019

23 Post-employment benefits (continued)

Jardine Motors Group UK Defined Contribution Pension Plan

This scheme provides pensions that depend on contributions made by both employer and employee, and future growth of the funds. A fund is allocated to each individual member of the pension plan.

The year-end group balance sheet includes neither a pension liability nor a pension asset in relation to this scheme.

During the year the group has contributed £2,653,000 (2018: £1.889,000) to this scheme.

Total pension schemes

Total pension costs in the year of £2,653,000 (2018: £1,899,000) comprise contributions to all pension schemes (note 9).

Company

The deficit in the scheme includes the investment held by the Scheme in the Partnership as a plan asset and at 31 December 2019 the deficit was £24,275,000 (2018: £24,405,000).

	(85,878)	3,074	(82,804)

27 Related party transactions

The company is exempt from disclosing related party transactions with entities that are part of the group as the company is a wholly owned subsidiary of Jardine Matheson Holdings Limited, who prepare consolidated financial statements.

28 Discontinued operations and disposals

On 11 April 2019, the group closed its Jaguar dealership in Tamworth.

On 2 September 2019, the group sold the trade and assets of Honda dealerships in Newbury and Reading. The group also closed its Honda dealerships in Birmingham and Bracknell.

On 17 December 2019, the group sold the trade and assets of Volkswagen dealerships in Milton Keynes, St Albans, Letchworth, Harlow and Loughton. As part of the transaction, the group also disposed of the trade and assets of a Skoda dealership in Milton Keynes. The group also closed and re-purposed its Volkswagen used car site in Towcester as part of this deal.

Notes to the financial statements for the year ended 31 December 2019

28 Discontinued operations and disposals (continued)

The losses on disposal and the net assets at disposal were as follows:

	Volkswagen/	
	Skoda	Honda
	£000	£000
Tangible fixed assets (excluding related freeholds)	6,423	261
Intangible assets (note 13)	825	_
Stocks	13,793	865
Creditors	(125)	(71)
Net assets disposed	20,916	1,055
Cash consideration	15,982	931
Disposal costs	(713)	(296)
Loss on disposal of dealerships (note 7)	(5,647)	(420)

During the year the disposed Volkswagen and Skoda dealerships contributed £186,644,000 to group turnover and a loss of £2,537,000 to group loss before tax. The closed Volkswagen used car site contributed £20,680,000 to group turnover and a loss of £132,000 to group loss before tax.

During the year the disposed Honda dealerships contributed £13,937,000 to group turnover and a loss of £79,000 to group loss before tax.

During the year the closed Honda dealerships contributed £14,319,000 to group turnover and a loss of £566,000 to group loss before tax.

During the year the closed Jaguar dealership contributed £7,311,000 to group turnover and a loss of £176,000 to group loss before tax.

All of the above disposed dealerships have been separately disclosed in discontinued operations.

Notes to the financial statements for the year ended 31 December 2019

29 Financial commitments

(a) Future capital expenditure

As at 31 December the group had committed future capital expenditure as follows.

	Group	Group
	2019	2018
	£,000	£,000
Contracted for but not provided	6,500	7,152

The company does not have any committed future capital expenditure (2018: £nil).

(b) Operating leases

At 31 December the group had total future minimum lease payments under non-cancellable operating leases which expire as follows:

	Land and buildings 2019 £`000	Other 2019 £'000	Land and buildings 2018 £`000	Other 2018 £`000
Within one year	10,928	349	14,162	282
Within two to five years	37,656	182	51,334	86
After five years	65,008	383	95,107	380
	113,592	914	160,603	748

The majority of leases of land and buildings are subject to rent reviews at intervals of five years.

Company

The company does not hold any operating leases (2018: £nil).

30 Contingent liabilities

The group operates combined banking facilities for the company and its subsidiaries. The cash held by the company has been offset against the overdrafts of the subsidiaries under these arrangements. The company has contingent liabilities at 31 December 2019 in respect of cross guarantees covering the overdrafts in the subsidiary undertakings amounting to £nil (2018: £nil).

Notes to the financial statements for the year ended 31 December 2019

31 Post balance sheet events

Since the year-end the world has been impacted by the outbreak of the Coronavirus pandemic. The group has reacted by following the UK Government guidelines and in all instances put the safety and wellbeing of its colleagues and customers first.

The group closed all its car sales outlets in the latter part of March and most of its aftersales operations keeping a select number of service and parts facilities open with skeleton staff to provide services for keyworkers.

In line with Government regulations the group began re-opening all its car sales operations on 1 June 2020. During the 'lockdown' period the group carried out detailed planning and risk assessments for each location to ensure customers and colleagues were able to return to a safe environment. As part of this process, the group has invested in the necessary equipment and Personal Protective Equipment (PPE) for both colleagues and customers. All risk assessments, policies and procedures were reviewed and approved by the group's CEO and Director responsible for Health and Safety prior to the businesses being permitted to re-open. These documents are under constant review both centrally and locally. Full and regular communications to all colleagues have been set up and every colleague has been required to complete, and pass, a detailed on-line training course covering the new ways of working before being allowed to come back to the working environment, whether at a dealership, office or at home.

The CEO also convenes a weekly Coronavirus safety committee, attended by the senior leadership team to monitor adherence to the new ways of working, review incidents and put in place action plans to further strengthen oversight and control as required.

The group has participated in the UK Government's furlough scheme with up to 85% of its colleagues placed on furlough during the lockdown. The group has adapted quickly to the new ways of working, including working at home which has been enabled through its existing IT infrastructure and applications such as Microsoft Teams.

The directors do not consider the impact of Coronavirus to be a post balance sheet adjusting event. The group has completed full detailed cashflow forecasts based on a number of scenarios and considers, with its banking and manufacturer funding facilities together with full support from its parent undertaking, that it will be able to continuing trading from all of its existing facilities. The directors continuously monitor the group's cost base to ensure it is appropriate in relation to demand and will take necessary actions to protect its financial position, whilst ensuring standards are maintained and the wellbeing and safety of colleagues and customers is not compromised.

Current results and forecasts indicate a significant and material impact on the results for 2020 due to loss of sales during lockdown and an expected reduction in new car sales demand for the remainder of the year. Trade since re-opening of dealerships has been resilient and the directors consider that the carrying value of the group's stocks are being realised. It is too early to assess the longer-term implications of the 2020 trading with respect to the potential impact on the carrying values of the group's tangible and intangible assets. Sensitivity disclosure is provided in note 13. The group will continue to implement strategies to minimise overall losses both during and post the pandemic.

On 6 July 2020, the group announced a re-structuring programme affecting all divisions and head office roles including redundancies for 522 roles. It is anticipated that the cost of re-structuring will be between £3m to £4m.

Notes to the financial statements for the year ended 31 December 2019

31 Post balance sheet events (continued)

On 10 July 2020, the remaining Volkswagen dealership in Aylesbury was sold to Marshall Motor Group Limited for net consideration of £2.9m.

During July 2020, the group repaid its bank loan with Lloyds Bank plc by the due date. During July 2020 the group agreed new committed banking facilities with new lenders, with strong investment grade ratings, giving the group adequate facilities to meet its on-going funding requirements.

32 Ultimate parent undertaking and controlling party

The immediate parent undertaking is Jardine Motors Holdings Limited.

The ultimate parent undertaking and controlling party is Jardine Matheson Holdings Limited, a company incorporated in Bermuda.

Jardine Matheson Holdings Limited is the parent undertaking of the smallest and largest group of undertakings to consolidate these financial statements.
