Year ended 30 June 2023

STRATEGIC REPORT

The Directors present their strategic report for the year ended 30 June 2023.

Principal activities

Diageo Finance plc (the "company") is engaged in the provision of treasury risk and cash management services for Diageo plc and its subsidiary undertakings (the "group"). Diageo Finance plc's principal activity is to raise external funds using the London financial markets. It operates as the bank of the group, finances operating companies via intra-group loans and deposits and makes third party payments on behalf of other group companies. Foreign exchange transactional hedging deals are carried out in the company to hedge brand owners' future foreign currency cash flows with a margin defined on an arm's length basis. Interest rate risk management is performed by the company by swapping interest cash flows of its bonds and it assists other group undertakings in foreign exchange translation hedging and commodity price risk management.

The company's operations are based in 16 Great Marlborough St, London, W1F 7HS, the United Kingdom. The Directors foresee no changes in the company's activities.

Business review

Development and performance of the business of the company during the financial year and position of the company as at 30 June 2023

The results of the company and the development of its business are influenced to a considerable extent by group financing requirements. Further information on the risk management policies of the group is included in the Annual Report 2023 of Diageo plc (see note 16 of the consolidated financial statements of Diageo plc).

Results from net finance income have increased by £247 million to £346 million in the year ended 30 June 2023, from £99 million in the year ended 30 June 2022.

Amounts owed by fellow group undertakings increased by £1,556 million to £37,132 million and amounts owed to fellow group undertakings decreased by £39 million to £24,991 million, which resulted from changes in the funding requirements of fellow group undertakings.

External borrowings increased by £346 million in the year ended 30 June 2023 to £6,970 million from £6,624 million in the year ended 30 June 2022, which was due to a £441 million bond issuance, which was partially offset by the EUR/GBP rate movement (£53 million decrease) and £8 million increase in collaterals and bank overdrafts. The total amounts of £7,029 million bonds are measured at face value less the £9 million fees and the £21 million discounts. Bonds denominated in euro are converted at daily EUR/GBP rate to sterling.

Financial and other key performance indicators

As the company forms part of the group's treasury operations, the company's performance is measured at the group level.

Diageo Finance plc Registered number: 00213393 Year ended 30 June 2023

STRATEGIC REPORT (continued)

Business review (continued)

Principal risks and uncertainties facing the company as at 30 June 2023

The principal risks identified by the group are disclosed on pages 88-93 of the Diageo plc Annual Report 2023. The most relevant of the group risks to this entity are the ones we have selected and articulated below, together with specific considerations relating to the company's operations and environment. If any of these risks occur, the company's business, financial condition and operational results could suffer. As the company forms part of the group's financial operations, the financial risk management measures used by management to analyse the development, performance and position of the company's business are mainly similar to those facing the group as a whole and are managed by the group's treasury department.

In addition, given that the company performs treasury functions for the group, as set out in the detailed description under note 9 'Financial instruments and risk management', it is exposed to foreign currency risk associated with certain foreign currency denominated bonds and interest rate risk arising principally on changes in US dollar and sterling interest rates. The company uses derivative financial instruments to hedge its exposures to fluctuations in interest rates and exchange rates. Fair value hedges are carried out to manage the interest rate risks and currency risk to which the fair value of certain assets and liabilities are exposed.

Starting in fiscal 24, in line with reporting requirements the functional currency of Diageo plc changed from sterling to US dollar and as a consequence of this Diageo Finance plc has also changed its presentation currency to US dollar. For further details please refer to Note 13 of the financial statements.

The Directors have assessed the potential risk of the increasing interest rates and resulting potential increase in cost of borrowing on the operation and the financial statements of the company. Considering the company forms part of the group's financial operations and as such it will be reimbursed for any potential increase in the charges of its financial instruments therefore the impact of this risk is considered to be very limited.

Geopolitical and macroeconomic volatility

Geopolitical forces, primarily driven by the Russia / Ukraine conflict, coupled with macro-economic stress, increase the likelihood of international and domestic tensions, disputes and conflict that might impact the business. Macroeconomic conditions include inflationary pressures, unemployment and global trade tensions. Financial volatility risk could arise from variability in financial markets, interest rate fluctuations and currency instability. Failure to react quickly enough to changing economic and/or political conditions, e.g. inflationary pressures. currency instability, global trade tensions, heightened political protectionism, changes to customs duties and tariffs, and/or eroded consumer confidence, may impact on the freedom to operate in a market and could adversely impact financial performance.

The group monitors key business drivers and performance, to prepare for rapid changes in the external environment and there are an enhanced group-level strategic analysis and scenario planning to strengthen market strategies and risk management.

The group has continued to improve long-term forecasting and planning capabilities, to better assess and respond to long-term opportunities and risks. The group has introduced a new strategic planning and performance function with a stronger governance model for financial and non-financial decision-making, which will enable closer monitoring of external volatility/risk and multi-country investment strategy with a central hedging and currency monitoring to manage volatility.

Diageo Finance plc Registered number: 00213393 Year ended 30 June 2023

STRATEGIC REPORT (continued)

Business review (continued)

Geopolitical and macroeconomic volatility (continued)

During the year ended 30 June 2023, the group introduced advanced analytics to scenario plan volume ranges over a longer time period, allowing better mitigation against changes in the external landscape. Scenario-planning has been embedded into Executive and Board meetings and integrated into the strategic planning cycle. Inflation has remained high and has reduced more slowly than expected in many countries. High levels of inflation are expected to continue in the short to medium term. Foreign exchange volatility has increased across several markets. There are dedicated cross-functional steering groups to manage acute issues including inflation and foreign exchange volatility.

Cyber and IT resilience

Cyber-attacks are becoming more prevalent, and there is an increased dependency on third-party IT services and solutions. As geopolitical tensions are growing, there is a rise in more sophisticated cyber threats affecting all organisations, therefore the risk of a cyber-attack is heightened.

The group has strong enterprise-wide cyber risk management processes and policies and next generation security technologies to tackle advanced attacks. There is an IT and Operations Technology ("OT") disaster recovery and business continuity testing across the key systems. The group continue to enhance and deploy next generation security technologies to tackle advanced attacks and upgrade the enterprise resource planning system and associated processes to ensure they remain resilient.

Climate Risk

Considering that the company forms part of the group's treasury operations, the probability of climate change related risks having a significant and direct impact on the activities and operation of the company is remote. The Directors believe that the risk mitigation actions taken in relation to climate risk by the group are appropriate measures in managing direct or indirect risks posed by climate change. Including the risk to the company of being able to access financing at competitive rates where borrowings could become sustainability linked. Based on the climate risk assessment performed by the group, the risk attached to the recoverability of intercompany balances is considered to be remote.

Statement on Section 172 of the Companies Act 2006

Section 172 of the Companies Act 2006 requires the Directors to promote the success of the company for the benefit of the members as a whole, having regard to the interests of stakeholders in their decision-making. In making decisions, the Directors consider what is most likely to promote the success of the company for its shareholders in the long-term, as well as the interests of the group's stakeholders. The Directors understand the importance of taking into account the views of stakeholders and the impact of the company's activities on local communities, the environment, including climate change, and the group's reputation.

The Company is a member of the group of companies (the "group") whose ultimate holding company is Diageo plc ("Diageo"). In accordance with the requirements of UK company law, Diageo has included in its 2023 Annual Report and Accounts on page 9 a statement as to how the directors of Diageo have had regard to the matters set out in Section 172 of the Companies Act 2006.

In order to ensure consistency in how the group operates with regard to its wider stakeholders, the group has adopted an internal Code of Business Conduct alongside a comprehensive framework of global

Registered number: 00213393 Year ended 30 June 2023

STRATEGIC REPORT (continued)

Business review (continued)

Statement on Section 172 of the Companies Act 2006 (continued)

policies and standards that are designed to ensure, amongst other things, that all companies throughout the group, including the Company, have regard to its wider stakeholders in a consistent manner.

The Company has therefore had regard to the matters set out in Section 172 of the Act in a manner that is consistent with the approach adopted by Diageo, while at the same time ensuring the directors of the Company are fulfilling their duties.

Main activities of the Board

The principal activities of the Board during the year include:

- · Extension of existing credit facilities; and
- Approval of the financial statements for the year ended 30 June 2022.

On behalf of the Board

Director

16 Great Marlborough StreetLondon, W1F 7HSUnited Kingdom

8 December 2023

Registered number: 00213393 Year ended 30 June 2023

DIRECTORS' REPORT

The Directors are pleased to submit their annual report, together with the audited financial statements for the year ended 30 June 2023.

The Directors foresee no changes in the company's activities. The company is incorporated and domiciled as a public company limited by shares in Scotland, United Kingdom. The registered address is 16 Great Marlborough Street, London, W1F 7HS, United Kingdom.

Going concern

The company's business activities, together with the factors likely to affect its future development and position, are set out in the business review section of the strategic report on pages 2-5. The company is expected to continue to generate profit for its own account and to remain in a positive net asset position for the foreseeable future. The company participates in the group's centralised treasury arrangements, profitable in both financial years presented and is in a strong net asset position. The Directors have no reason to believe that a material uncertainty exists that may cast significant doubt about the ability of the group to continue as a going concern. On the basis of their assessment, the company's Directors have a reasonable expectation that the company will be able to continue in operational existence for a period of at least 12 months from the date the financial statements are approved and signed. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

In arriving at this conclusion, the Directors have also considered the potential impact that the principal risks outlined on the Strategic report may have on the company and believe that any impact would be minimal.

Financial performance

The results for the year ended 30 June 2023 are shown on page 14.

The profit for the year transferred to reserves is £345 million (2022 - £147 million).

No dividend was paid during the year (2022 - £nil) and there was no dividend proposed to be distributed to the shareholders in regards to the financial year (2022 - £nil).

Net assets were £5,518 million at 30 June 2023 (2022 - £5,173 million). More details on financial instruments and risk management can be found under note 10.

Directors

The Directors of the company who were in office during the year and up to the date of signing the financial statements were:

M Pais

J M C Edmunds

K E Major

Thrustle

C-L Jordan (appointed 26 September 2022)

Gy Geiszl (appointed 26 September 2022)

Cs Hajos (resigned 26 September 2022)

Directors' remuneration

None of the Directors received any remuneration during the year in respect of their services as Directors of the company (2022 - £nil). The Directors were paid by fellow group undertakings, and no cost was recharged to the company.

Registered number: 00213393 Year ended 30 June 2023

DIRECTORS' REPORT (continued)

Directors' indemnity

The Articles of Association permit qualifying third-party indemnities for the directors as defined by Section 234 of the Companies Act 2006. No such indemnity was in force during the last financial year, nor is any currently in force.

Secretary

The secretary of the company who was in office during the year and up to the date of signing the financial statements was:

J M C Edmunds

Internal control and risk management over financial reporting

The company operates under the financial reporting processes and controls of the group. Diageo plc's internal control and risk management systems over the financial reporting process, which include those of the company, are discussed in the group's Annual Report 2023 on page 115 at www.diageo.com, which does not form part of this report.

Independent auditors

Pursuant to Section 487 of the Companies Act 2006, the auditors, PricewaterhouseCoopers LLP, have been reappointed and will continue in office as auditors of the company.

Disclosure of information to auditors

The directors who held office at the date of approval of this Directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the company's auditors are unaware; and each director has taken all the steps that they ought to have taken as a Director to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the Directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law).

Under company law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 101 have been followed, subject to any material departures disclosed and explained in the financial statements:
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

Directors' confirmations

Each of the directors, whose names and functions are listed in the Directors' Report confirm that, to the best of their knowledge:

- the company financial statements, which have been prepared in accordance with United Kingdom Accounting Standards, comprising FRS 101, give a true and fair view of the assets, liabilities, financial position and profit of the company; and
- the Strategic Report includes a fair review of the development and performance of the business and the position of the company, together with a description of the principal risks and uncertainties that it faces.

Independent auditors' report to the members of Diageo Finance plc

Report on the audit of the financial statements

)pinion

ı our opinion, Diageo Finance plc's financial statements:

give a true and fair view of the state of the company's affairs as at 30 June 2023 and of its profit for the year then ended; have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 101 "Reduced Disclosure Framework", and applicable law); and have been prepared in accordance with the requirements of the Companies Act 2006.

/e have audited the financial statements, included within the Annual Report, which comprise: the Balance Sheet as at 30 June 2023; the icome Statement and the Statement of Changes in Equity for the year then ended; and the notes to the financial statements, which include

description of the significant accounting policies.

ur opinion is consistent with our reporting to the directors.

lasis for opinion

/e conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. udit scope

We conducted a full scope audit of the financial statements of Diageo Finance plc.

We focused on the most significant areas, being hedging activity and the related assessment of hedge effectiveness and the valuation of derivative transactions,

ey audit matters

Hedge effectiveness and valuation of derivatives

lateriality

Overall materiality: £385,700,000 (2022: £377,000,000) based on approximately 1% of total assets.

Performance materiality: £289,200,000 (2022: £282,000,000).

he scope of our audit

s part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements.

ley audit matters

ey audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial attements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) lentified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the udit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures iereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do of provide a separate opinion on these matters.

his is not a complete list of all risks identified by our audit.

he key audit matters below are consistent with last year.

Key audit matter

Hedge effectiveness and valuation of derivatives

Refer to the Accounting policies and Note 10 (Financial instruments and risk management) to the financial statements. The company is exposed to financial risks and is responsible for cash management for Diageo plc (the "Group"). As a part of its risk management activities, the company trades in derivative transactions to hedge interest rate and currency risks. The company applies hedge accounting in its financial statements. The accounting framework applied by the company requires certain pre-conditions to be met upon designation of a hedge relationship and throughout the term of the relationship, some of which can be subject to management judgement, while the valuation of hedging instruments includes estimates associated with data inputs. The nature of the hedging relationships is typically straightforward and non-complex, and the methods applied to valuing derivatives are typically non judgmental and can be independently validated. We include hedge effectiveness and valuation of certain derivatives as a focus area given the underlying audit work requires a high level of audit effort, and forms a large proportion of our overall audit work of the company.

How our audit addressed the key audit matter

Our audit procedures included understanding and evaluating the controls and systems related to hedge accounting and calculation of the fair value of derivatives. We obtained audit evidence through testing the design and operating effectiveness of management's relevant controls, together with substantive audit procedures. Testing of management's controls and other substantive tests with respect to hedge accounting included obtaining evidence to support whether:

- · pre-conditions of hedge accounting had been met:
- appropriate hedge designation documentation was in place;
- a prospective hedge effectiveness assessment had been performed;
- · trade contracts had been properly authorised; and
- hedge accounting was accurately reflected in the ledger and all relevant transactions were included.

On a sample basis, we also performed independent recalculations of hedge effectiveness tests.

Our testing procedures with respect to the valuation of derivative instruments included:

- obtaining independent valuations from our specialists who tested the accuracy and valuation of derivatives using independent data feeds;
- circularising counterparties to confirm the existence and completeness of derivatives; and
- assessing the counterparty and company's own credit risk and how it is incorporated into the fair value of derivatives.

We also evaluated whether the derivative transactions and hedge relationships were appropriately disclosed in the financial statements. Based on all of the above procedures, we consider the company's accounting and disclosure with respect to hedge relationships and valuation of derivatives to be appropriate.

low we tailored the audit scope

/e tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a hole, taking into account the structure of the company, the accounting processes and controls, and the industry in which it operates.

s part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements.

he impact of climate risk on our audit

s part of our audit we made enquiries of management to understand the extent of the potential impact of climate risk on the company's nancial statements, and we remained alert when performing our audit procedures for any indicators of the impact of climate risk. Our rocedures did not identify any material impact as a result of climate risk on the company's financial statements.

lateriality

he scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together ith qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on ie individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate in the financial statements as a whole.

ased on our professional judgement, we determined materiality for the financial statements as a whole as follows:

Overall company materiality	£385,700,000 (2022: £377,000,000).
How we determined it	approximately 1% of total assets
Rationale for benchmark applied	We consider the total assets measure to reflect the nature of the company, which primarily acts as a funding and cash management company for the group's investments and enters into derivatives to hedge the group's financial risks.

/e use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected isstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature nd extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our erformance materiality was 75% (2022: 75%) of overall materiality, amounting to £289,200,000 (2022: £282,000,000) for the company nancial statements.

determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and ggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

/e agreed with the directors that we would report to them misstatements identified during our audit above £19,200,000 (2022: £18,000,000 s well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

conclusions relating to going concern

'ur evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

Understanding and assessing the appropriateness of the key assumptions used in the going concern assessment; Corroborating key assumptions to underlying documentation and ensured this was consistent with our audit work; and Reviewing the disclosures provided relating to the going concern basis of preparation.

ased on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or ollectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from then the financial statements are authorised for issue.

auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation f the financial statements is appropriate.

owever, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to ontinue as a going concern.

rur responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report

leporting on other information

he other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report iereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information nd, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance iereon.

connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether is other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to a materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based in the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that it. We have nothing to report based on these responsibilities.

/ith respect to the Strategic report and the Directors' Report, we also considered whether the disclosures required by the UK Companies of 2006 have been included

ased on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as escribed below.

trategic Report and the Directors' Report

our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and the Directors' eport for the year ended 30 June 2023 is consistent with the financial statements and has been prepared in accordance with applicable again requirements.

I light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any laterial misstatements in the Strategic Report and the Directors' Report.

lesponsibilities for the financial statements and the audit

lesponsibilities of the directors for the financial statements

s explained more fully in the Statement of directors' responsibilities in respect of the financial statements, the directors are responsible for representation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair ew. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern isclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intendiculate the company or to cease operations, or have no realistic alternative but to do so.

auditors' responsibilities for the audit of the financial statements

rur objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, thether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance ut is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists liststatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected influence the economic decisions of users taken on the basis of these financial statements.

regularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our sponsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our rocedures are capable of detecting irregularities, including fraud, is detailed below.

ased on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations slated to Companies Act 2006 and the United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards omprising FRS 101 "Reduced Disclosure Framework" and applicable law, and we considered the extent to which non-compliance might ave a material effect on the financial statements. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate annual journal entries to manipulate results and management bias in accounting estimates. Audit procedures performed by the engagement sam included:

Discussion with management and internal audit, including consideration of known and suspected instances of non compliance with laws and regulation and fraud;

Enquiry of those charged with governance and the Diageo Group's in-house legal team around actual and potential litigations and claims Identifying and testing journal entries, in particular any journal entries posted with unusual account combinations or posted by senior management;

Reading the minutes of Board meetings;

Reviewing financial statements disclosures to supporting documentation to assess compliance with applicable laws and regulations; and

Challenging management's significant judgements and estimates in particular those related to valuation of derivatives.

here are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance ith laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not etecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate oncealment by, for example, forgery or intentional misrepresentations, or through collusion.

rur audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques, owever, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to irget particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a onclusion about the population from which the sample is selected.

further description of our responsibilities for the audit of the financial statements is located on the FRC's website at ww.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

ise of this report

his report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of art 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any ther purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our rior consent in writing.

Other required reporting

companies Act 2006 exception reporting

nder the Companies Act 2006 we are required to report to you if, in our opinion:

we have not obtained all the information and explanations we require for our audit; or

adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or

certain disclosures of directors' remuneration specified by law are not made; or

the financial statements are not in agreement with the accounting records and returns.

le have no exceptions to report arising from this responsibility.

appointment

assureds

/e were appointed by the directors on 1 September 2015 to audit the financial statements for the year ended 30 June 2016 and subsequent nancial periods. The period of total uninterrupted engagement is 8 years, covering the years ended 30 June 2016 to 30 June 2023.

NOTES TO THE FINANCIAL STATEMENTS

1. ACCOUNTING POLICIES

Basis of preparation

These financial statements are prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of derivative financial assets and financial liabilities measured at fair value through profit or loss, and in accordance with the Companies Act 2006.

In preparing these financial statements, the company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the UK (IFRS) but makes amendments where necessary in order to comply with Companies Act 2006 and sets out below where the FRS 101 disclosure exemptions have been taken.

These financial statements are prepared on a going concern basis under the historical cost convention, except that certain financial instruments are stated at their fair value.

The company is a wholly owned subsidiary of Diageo plc and is included in the consolidated financial statements of Diageo plc which are publicly available on the company's website at www.diageo.com.

The company has taken advantage of the following exemptions from the requirements of IFRS in the preparation of these financial statements, in accordance with FRS 101:

- A cash flow statement and related notes as per IAS 1 and IAS 7
- Disclosures in respect of transactions with wholly owned subsidiaries within the Diageo plc group;

New accounting standards and interpretations

The following amendments to the accounting standards, issued by the IASB and endorsed by the UK, were adopted by the company from 1 July 2022 with no impact on the company's results, financial position or disclosures:

- Amendments to IFRS 3 Updating a Reference to the Conceptual Framework
- Amendments to IAS 16 Property, Plant and Equipment: Proceeds before Intended Use
- Amendments to IAS 37 Onerous Contracts Cost of Fulfilling a Contract
- Amendments to Annual improvements 2018-2020 IFRS 9 Fees in the '10 per cent' Test, IFRS 16 Lease incentives, IAS 41 Taxation in Fair Value Measurements
- Amendments to IAS 12 International Tax Reform Pillar Two Model Rules

The following standard and amendments issued by the IASB have been endorsed by the UK and have not been adopted by the company:

- IFRS 17 Insurance contracts (effective from the year ending 30 June 2024) is ultimately intended to replace IFRS 4. Based on a preliminary assessment, the company believes that the adoption of IFRS 17 will not have a significant impact on its results or financial position.
- Amendments to IAS 12 Income taxes (effective from the year ending 30 June 2024) requires an entity to recognise deferred tax on initial recognition of particular transactions to the extent that the transaction gives rise to equal amounts of deferred tax assets and liabilities. The proposed amendments would apply to transactions such as leases and decommissioning obligations for which an entity recognises both an asset and a liability. The company believes that the adoption of these amendments will not have a significant impact on its results and financial position.

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

1. ACCOUNTING POLICIES (continued)

New accounting standards and interpretations (continued)

There are a number of other amendments and clarifications to IFRSs, effective in future years, which are not expected to significantly impact the company's consolidated results or financial position.

Functional and presentational currency

These financial statements are presented in sterling (£), which is the company's functional currency. All financial information presented in sterling has been rounded to the nearest million unless otherwise stated.

Finance income and charges

Finance income and charges are recognised in the income statement in the year in which they are carned/incurred based on the effective interest method.

Foreign currencies

Transactions in foreign currencies are recorded at the rate of exchange at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the financial year end exchange rates and these foreign exchange differences are recognised in the income statement.

Going concern

The financial statements have been prepared on a going concern basis.

Financial assets and liabilities

Financial assets and liabilities are initially recorded at fair value including, where permitted by IFRS 9, any directly attributable transaction costs. For those financial assets that are not subsequently held at fair value, the company calculates allowance losses by reviewing lifetime expected credit losses using historic and forward-looking data on credit risk. The company classifies its financial assets and liabilities into the following categories: financial assets and liabilities at amortised cost, financial assets and liabilities at fair value through profit and loss and financial assets at fair value through other comprehensive income. Under IFRS 9, classification and measurement of financial assets depend on the company's business model for managing the asset and the cash flow characteristics of the assets. The business model and cash flow characteristics assessment is carried out on an instrument by instrument basis. Financial assets measured at amortised cost recognise finance income using effective interest method.

Loans and other receivables Amounts owed by other group companies are initially measured at fair value and are subsequently reported at amortised cost. Non-interest bearing loans receivables are stated at their nominal value as they are due on demand. Allowance for expected credit losses are made based on the risk of non-payment taking into account ageing, previous experience, economic conditions and forward-looking data. Such allowance are measured as either 12-months expected credit losses or lifetime expected credit losses depending on changes in the credit quality of the counterparty.

Cash and cash equivalents comprise cash in hand and deposits which are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value and have an original maturity of three months or less, including money market deposits, commercial paper and investments.

Diageo Finance plc Registered number: 00213393

Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

ACCOUNTING POLICIES (continued)

Borrowings are initially measured at fair value net of transaction costs and are subsequently reported at amortised cost. Certain bonds are designated as being part of fair value hedge relationship. In these cases, the amortised cost is adjusted for the fair value of the risk being hedged, with changes in value recognised in the income statement. The fair value adjustment is calculated using a discounted cash flow technique based on unadjusted market data.

Loans and other payables Amounts owed to other group companies are initially measured at fair value and are subsequently reported at amortised cost. Non-interest bearing loans payables are stated at their nominal value as they are due on demand.

Derivative financial instruments

Derivative financial instruments are carried at fair value using a discounted cash flow model based on market data applied consistently for similar type of instruments. Gains and losses on derivatives that do not qualify for hedge accounting treatment are taken to the income statement as they arise.

Fair value changes on interest derivatives are recognised in finance income and charges, whereas fair value changes in respect of foreign exchange derivatives are recognised in other operating income and charges.

The company designates and documents certain derivatives as hedging instruments against changes in fair value of recognised assets and liabilities (fair value hedges). The effectiveness of such hedges is assessed at inception and at least on a quarterly basis, using prospective testing. Methods used for testing effectiveness include dollar offset, critical terms and regression analysis method.

Fair value hedges are used to manage the currency and/or interest rate risks to which the fair value of certain assets and liabilities are exposed. Changes in fair value of the derivatives are recognised in the income statement, along with any changes in the relevant fair value of the underlying hedged asset or liability.

If such a hedge relationship is de-designated or no longer meets hedge accounting criteria, fair value movements on the derivative continue to be taken to the income statement while any fair value adjustments made to the underlying hedged item to that date are amortised through the income statement over its remaining life using the effective interest rate method.

The company targets a one-to-one hedge ratio. Strengths of the economic relationship between the hedged item and the hedging instrument is analysed on an ongoing basis.

Taxation

Current tax is based on taxable profit for the year. Taxable profit is different from accounting profit due to temporary differences between accounting and tax treatments, and due to items that are never taxable or tax deductible. Tax benefits are not recognised unless it is probable that the tax positions are sustainable. Once considered to be probable, tax benefits are reviewed each year to assess whether a provision should be taken against full recognition of the benefit on the basis of potential settlement through negotiation and/or litigation. Tax provisions are included in current liabilities. Penalties and interest on tax liabilities are included in profit before taxation.

Full provision for deferred tax is made for temporary differences between the carrying value of assets and liabilities for financial reporting purposes and their value for tax purposes. The amount of deferred tax

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

1. ACCOUNTING POLICIES (continued)

Taxation (continued)

reflects the expected recoverable amount and is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using the basis of taxation enacted or substantively enacted by the balance sheet date. Deferred tax assets are not recognised where it is more likely than not that the asset will not be realised in the future.

Judgements in applying accounting policies and key sources of estimation uncertainty

The Directors make estimates and judgements concerning the future of the company. The resulting accounting estimates will, by definition, seldom equate to actual results.

The accounting policy, which the Directors consider is of greater complexity and particularly subject to estimation uncertainty, is that described above relating to derivative financial instruments. Judgment is applied when selecting inputs that derive fair value estimates of derivative assets and liabilities. The derivative instruments are plain vanilla instruments, fair valued using observable inputs and straightforward valuation techniques, therefore extent of the judgements and related estimation uncertainty is limited (see detailed description under note 9. Financial instruments and risk management (g) Fair value measurements). Consequently the extent of judgements and related estimation uncertainty is limited and there is no significant risk of material adjustment to the carrying value of assets and liabilities.

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

2. OTHER OPERATING INCOME

	Year ended 30 June 2023 £ million	Year ended 30 June 2022 £ million
Net foreign exchange gain	9	36
Margin on transaction hedging	13	11
Other income	_	2
	22	49

In the year ended 30 June 2023 Turkish Lira denominated foreign exchange swaps driving the favourable exchange differences for the year ended 30 June 2022 have matured.

The auditors' remuneration of £21,493 (2022 - £19,890) was paid on behalf of the company by a fellow group undertaking. There were no fees payable to the auditors in respect of non-audit services (2022 - £nil).

3. EMPLOYEES

The company did not employ any staff during either the current or prior year.

None of the Directors received any remuneration during the financial year in respect of their services as directors of the company (2022 - £nil) as the directors are paid by fellow group undertakings and no cost was recharged to the company.

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

4. FINANCE INCOME AND CHARGES

	Year ended 30 June 2023 ₤ million	Year ended 30 June 2022 £ million
Interest income from fellow group undertakings	1,786	493
Other interest income	174	128
Fair value gain on foreign exchange contracts	1	
Fair value gain on intra-group derivative interest rate instruments	113	502
Fair value gain on external derivative interest rate instruments	2	6
Fair value gain on external cross currency interest rate swaps	61	11
Fair value adjustment to bonds in hedge relationship	40	98
Total finance income	2,177	1.238
Interest charge on bank loans and overdrafts	(6)	(6)
Interest charge to fellow group undertakings	(1,225)	(331)
Interest charge on all other borrowings	(383)	(179)
Fair value differential on foreign exchange contracts	(2)	(2)
Fair value loss on intra-group derivative interest rate instruments	(57)	(254)
Fair value loss on external derivative interest rate instruments	(97)	(356)
Fair value loss on intra-group cross currency interest rate swaps	(61)	(11)
Total finance charges	(1,831)	(1.139)
Net finance income	346	99

Other interest income includes realised interest income on matured foreign exchange swaps and forwards of £98 million (2022 - £52 million), interest income on interest rate swaps and cross currency swaps of £27 million (2022 - £73 million), and interest income on bank accounts and liquidity funds of £49 million (2022 - £3 million).

Interest charge on all other borrowings include bond interest expenses of £124 million (2022 – £100 million), realised interest expense on matured foreign exchange swaps and forwards of £166 million (2022 – £65 million), interest expense on interest rate swaps of £89 million (2022 – £6 million) and other items of £5 million (2022 – £8 million).

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

5. TAXATION

(i) Analysis of taxation charge for the year	Year ended 30 June 2023 £ million	Year ended 30 June 2022 £ million
Current tax		
Current tax on profits for the year	(15)	
Overseas tax	(8)	(1)
Total current tax	(23)	(1)
Taxation on profit on ordinary activities	(23)	(1)
(ii) Factors affecting total tax charge for the year	Year ended 30 June 2023 £ million	Year ended 30 June 2022 £ million
Profit before taxation	368	148
Taxation on profit at UK corporation tax rate of 20.5% (2022 - 19%)	(75)	(28)
Other tax effects for reconciliation between accounting profit and tax income	(21)	(9)
Expenses not deductible		(1)
Provision for uncertain tax provision	(15)	
Overseas tax	(6)	(1)
Effects of group relief	95	38
Amounts not recognised	(1)	
Total tax charge for the year	(23)	(1)

The UK corporation tax rate increased from 19% to 25% on 1 April 2023 and so an average tax rate of 20.50% is applied for the year ended 30 June 2023. Deferred taxes at 30 June 2023 have been measured using this increased tax rate and reflected in these financial statements.

	267	54	(189)	(391)
Total derivative assets/(liabilities)	660	255	(255)	(765)

The company entered into external cross currency interest rate swaps on behalf of a fellow group undertaking, Diageo Capital plc, the market value of which amounted to £348 million asset at the balance sheet date (2022 - £367 million). The external deals are mirrored through Diageo plc to Diageo Capital plc, the ultimate beneficiary. The market value of intra-group cross currency interest rate swaps amounts to a liability of £348 million (2022 - £367 million).

The company entered into interest rate swaps to hedge the fair value of bonds. The fair value of the interest rate swaps designated in fair value hedge relationships was £111 million (2022 - £71 million).

Fair value movements of cross currency interest rate swaps are taken to the income statement: the foreign exchange component of change in market value is presented as foreign exchange result on operations, the interest related amounts are recognised as interest income or expense.

7. LOANS AND OTHER RECEIVABLES

	30 June 2023		30 June 2022	
	Due within one year £ million	Due after one year £ million	Due within one year £ million	Due after one year £ million
Amounts owed by fellow group undertakings	36,404	728	34,904	672
Interest receivable	10		17	
	36,414	728	34,921	672

Amounts owed by fellow group undertakings include accrued and capitalised interest on the underlying balances at 30 June 2023 and at 30 June 2022. These balances bear interest at fixed and variable rates from (0.78%) to 15.48% for the year ended 30 June 2023 (2022 – from (0.82%) to 23.53%).

Amounts owed by fellow group undertakings represent transactions with companies in the group with which the company has a long-term financing relationship. These financing relationships are expected to continue for the foreseeable future. Certain amounts owed by fellow group undertakings are repayable on demand, but reclassified to non-current assets as they are not expected to be repaid in the foreseeable future. Amounts owed by group undertakings are considered to have a fair value which is not materially different to the book value. Expected credit loss is immaterial for amounts owed by fellow group undertakings.

8. DEFERRED TAX ASSETS

Unrecognised deferred tax assets

Deferred tax assets have been recognised to the extent that it is considered more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Where this is not the case, deferred tax assets have not been recognised, as set out below:

£ 600 million 2.75% bonds due 2038	595	595
Fair value adjustment to borrowings	(106)	(70)
Borrowings due after one year	5,983	6,565
Total external borrowings	6,970	6,624

The interest rates of external borrowings shown in the table above are those contracted on the underlying borrowings before taking into account any interest rate protection. Bonds are stated net of unamortised finance costs of £28 million (2022 - £34 million). These fair value adjustments are determined using discounted cash flow method based on observable market input (Level 2). Bonds in fair value hedge are reported at amortised cost with a fair value adjustment shown separately. All bonds issued by the company are fully and unconditionally guaranteed by Diageo plc.

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The company's funding, liquidity and exposure to foreign currency and interest rate risks are managed at the group level by the group's treasury department. The treasury department uses a range of financial instruments to manage these underlying risks.

Treasury operations are conducted within a framework of Board-approved policies and guidelines, which are recommended and monitored by the finance committee, chaired by the Chief Financial Officer. The policies and guidelines include benchmark exposure and/or hedge cover levels for key areas of treasury risk which are periodically reviewed by the Board following, for example, significant business, strategic or accounting changes. The framework provides for limited defined levels of flexibility in execution to allow for the optimal application of the Board-approved strategies. Transactions arising from the application of this flexibility may give rise to exposures different from the defined benchmark levels that are separately monitored on a daily basis using Value at Risk analysis. These transactions are carried at fair value and gains or losses are taken to the income statement as they arise.

The company does not use derivatives for speculative purposes. All transactions in derivative financial instruments are initially undertaken to manage the risks arising from underlying business activities.

The finance committee receives monthly reports on the key activities of the treasury department, including any exposures different from the defined benchmarks.

(a) Currency risk

The company presents its financial statements in sterling (which is the functional currency of the entity) and conducts business in many currencies. As a result, it is subject to foreign currency risk due to exchange rate movements, which will affect the company's transactions. To manage the currency risk the company uses certain financial instruments. Where hedge accounting is applied, hedges are documented and tested for effectiveness on an ongoing basis. The company expects hedges entered into to continue to be effective and therefore does not expect the impact of ineffectiveness on the income statement to be material. The company is exposed to those foreign currency risks which are not managed on a group level.

Hedge of foreign currency debt

The company entered into external cross currency interest rate swaps on behalf of a fellow group undertaking, Diageo Capital plc to hedge the foreign currency risk associated with certain foreign currency denominated borrowings. The external deals are mirrored through Diageo plc to Diageo Capital plc, the ultimate beneficiary.

Transaction exposure hedging

The group's policy is to hedge forecast transactional foreign currency risk on major currency pair exposures up to 24 months, targeting 75% coverage for the current financial year, and on other currency exposures up to 18 months. Foreign exchange transactional hedging deals are carried out in the company to hedge brand owners' future foreign currency cash flows and mirrored back-to-back to those entities with a margin defined on an arms' length basis.

(b) Interest rate risk

The group has an exposure to interest rate risk, arising principally on changes in USD dollar, euro and sterling interest rates. To manage interest rate risk, the company manages its proportion of fixed to floating rate borrowings within limits approved by the Board, primarily through issuing fixed and floating rate borrowings and commercial paper, and by utilising interest rate swaps. These practices aim to minimise the group's net finance charges with acceptable year on year volatility. To facilitate operational efficiency and effective hedge accounting, for the year ended 30 June 2023, the group's policy was to maintain fixed rate borrowings within a band of 40% to 90%. For these calculations, net borrowings

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

(b) Interest rate risk (continued)

exclude interest rate related fair value adjustments. The majority of the group's existing interest rate derivatives are designated as hedges and are expected to be effective. Fair value of these derivatives is recognised in the income statement, along with any changes in the relevant fair value of the underlying hedged asset or liability. The potential risk of the increasing interest rates and resulting potential increase in cost of borrowing is considered to be limited as the company forms part of the group's financial operations and as such it will be reimbursed for any potential increase in the charges of its financial instruments.

IBOR reform

In accordance with the UK Financial Conduct Authority's announcement on 5 March 2021. LIBOR benchmark rates were discontinued after 31 December 2021, except for the majority of the US dollar settings which are discontinued from 30 June 2023. There have been amendments to the contractual terms of IBOR-referenced interest rates and the corresponding update of the hedge designations. By 30 June 2022, changes required to systems and processes in relation to the fair valuation of financial instruments were implemented and the transition had no material tax or accounting implications. The company also evaluated the implications of the reference rate changes in relation to other valuation models and credit risk, and concluded that they were not material.

In line with the relief provided by the amendment, the group assumes that the interest rate benchmark on which the cash flows of the hedged item, the hedging instrument or the hedged risk are based are not altered by the IBOR reform. The derivative hedging instruments provide a close approximation to the extent and nature of the risk exposure the group manages through hedging relationships.

Included in floating rate net borrowings are interest rate swaps designated in fair value hedges, with a notional amount of £3,906 million (2022 – £2,893 million) whose interest rates are based on USD LIBOR. In preparation for the discontinuation of USD LIBOR, the company have amended these agreements to reference the Secured Overnight Financing Rate (SOFR) resulting in economically equivalent trades upon transition. The floating legs of the transitioned trades will become SOFR based subsequent to the last USD LIBOR based interest payments.

(c) Commodity price risk

The company performs commodity price risk management on behalf of fellow group undertakings exposed to commodity price risk. Commodity price risk is managed in line with the principles approved by the Board either through long term purchase contracts with suppliers or, where appropriate, derivative contracts. Where derivative contracts are used the commodity price risk exposure is hedged up to 24 months of forecast volume through exchange-traded and over-the-counter contracts (futures, forwards, swaps and options).

(d) Market risk sensitivity analysis

The company uses a sensitivity analysis that estimates the impacts on the income statement of either an instantaneous increase or decrease of 0.5% in market interest rates or a 10% strengthening or weakening in sterling against all other currencies, from the rates applicable at 30 June 2023 and 30 June 2022, for

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

(d) Market risk sensitivity analysis (continued)

each class of financial instruments with all other variables remaining constant. This analysis is for illustrative purposes only, as in practice interest and foreign exchange rates rarely change in isolation. The sensitivity analysis estimates the impact of changes in interest and foreign exchange rates. All hedges are expected to be highly effective for this analysis and it considers the impact of all financial instruments including financial derivatives, cash and cash equivalents, borrowings and other financial assets and liabilities. The results of the sensitivity analysis should not be considered as projections of likely future events, gains or losses as actual results in the future may differ materially due to developments in the global financial markets which may cause fluctuations in interest and exchange rates to vary from the hypothetical amounts disclosed in the table below. The impact on the income statement below is equivalent to the impact on equity.

	0.5 % decrease in interest rates	0.5 % increase in interest rates	10 % weakening of sterling	10 % strengthening of sterling
	£ million	£ million	£ million	£ million
30 June 2023				
Impact on income statement - (loss)/gain	(54)	54	75	(52)
30 June 2022				
Impact on income statement - (loss)/gain	(50)	50	(35)	38

(e) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the company. Credit risk arises on cash balances (including bank deposits and cash equivalents), derivative financial instruments, loans and other receivables, financial guarantees and committed transactions. The carrying amount of financial assets represents the company's exposure to credit risk at the balance sheet date as disclosed in section (i), excluding the impact of any collateral held or other credit enhancements. A financial asset is in default when the counterparty fails to pay its contractual obligations. In case of default the company assesses the credit risk implications on an individual basis. Financial assets are written-off when there is no reasonable expectation of recovery. The gross carrying amount of the financial asset has to be reduced (written off) in case there is no reasonable expectation of recovering the contractual cash flows on the asset in its entirety or its portion only. Expected recovery of contractual cash flows is assessed individually, on instrumental basis. Credit risk is managed separately for financial and business-related credit exposures. All intragroup assets judged to be stage 1 and the resulting expected credit loss is not material.

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

(e) Credit risk (continued)

Financial credit risk

The company aims to minimise its financial credit risk through the application of risk management policies approved and monitored by the Board. Counterparties are limited to major banks and financial institutions, primarily with a long-term credit rating within the A band or better, and the policy restricts the exposure to any one counterparty by setting credit limits taking into account the credit quality of the counterparty. The group's policy is designed to ensure that individual counterparty limits are adhered to and that there are no significant concentrations of credit risk. The Board also defines the types of financial instruments which may be transacted. The credit risk arising through the use of financial instruments for currency and interest rate risk management and commodity trades is estimated with reference to the fair value of contracts with a positive value, rather than the notional amount of the instruments themselves. The group annually reviews the credit limits applied and regularly monitors the counterparties' credit quality reflecting market credit conditions.

When derivative transactions are undertaken with bank counterparties, the group may, where appropriate, enter into certain agreements with such bank counterparties whereby the parties agree to post cash collateral for the benefit of the other if the net valuations of the derivatives are above a predetermined threshold. At 30 June 2023, the collateral held under these agreements amounted to \$(19) million (£(15) million) (2022 - \$23 million (£19 million)).

Business related credit risk

Since loans and other receivables principally include balances with fellow group undertakings, the risk of non-performance is considered remote. Under IFRS 9, the significant increase in credit risk of financing relationships with fellow group undertakings is determined based on the group's internal credit rating assessment. The assessment practice takes into account as inputs the historical default of the financial instruments, currently available information about fellow group undertakings' financial performance and forward-looking information. The total balance of loans and other receivables is qualified as performing in accordance with internal credit rating assessment. As a result of low risk credit risk these financial assets have a very low risk of default (probability of default (PD)) and the 12-months expected credit loss is considered to be immaterial.

(f) Liquidity risk

Liquidity risk is the risk that the group may encounter difficulties in meeting its obligations associated with financial liabilities that are settled by delivering cash or other financial assets. The company uses short-term commercial paper to finance its day-to-day operations. The group's policy with regard to the expected maturity profile of borrowings is to limit the amount of such borrowings maturing within 12 months to 50% of gross borrowings less money market demand deposits, and the level of commercial paper to 30% of gross borrowings less money market demand deposits. In addition, the group's policy is to maintain backstop facilities with relationship banks to support commercial paper obligations. The following tables provide an analysis of the anticipated contractual cash flows including interest payable for the company financial liabilities and derivative instruments on an undiscounted basis. Where interest payments are on a floating rate basis, rates of each cash flow until maturity of the instruments are calculated based on the forward yield curve prevailing at 30 June 2023 and 30 June 2022. In order to align with the group reporting the cash flows of cross currency swaps are presented on a gross basis while all other derivative contracts are presented on a net basis.

Registered number: 00213393 Year ended 30 June 2023

[^] Difference between total contractual cash flow amount and carrying amount at balance sheet date is due to the unamortised discount and fee balances and fair value adjustments of bonds in fair value hedge relationships.

On 30 June 2023 the group had available undrawn committed bank facilities of £2,678 million (2022 - £2,789 million), £99 million (2022 - £793 million) expiring within one year, £496 million (2022 - £103 million) between one and two years, and £2,083 million (2022 - £1.893 million) expiring after two years. The facilities can be used for general corporate purposes and, together with cash and cash equivalents, support the group's commercial paper programmes.

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

(f) Liquidity risk (continued)

There are no financial covenants on the group's material short- and long-term borrowings. Certain of these borrowings contain cross default provisions and negative pledges.

The committed bank facilities are subject to a single financial covenant, being minimum interest cover ratio of two times (defined as the ratio of operating profit before exceptional items, aggregated with share of after tax results of associates and joint ventures, to net interest), these covenants are the same on statutory level as well. They are also subject to pari passu ranking and negative pledge covenants. Any non-compliance with covenants underlying the group's financing arrangements could, if not waived, constitute an event of default with respect to any such arrangements, and any non-compliance with covenants may, in particular circumstances, lead to an acceleration of maturity on certain borrowings and the inability to access committed facilities. The group was in full compliance with its financial, pari passu ranking and negative pledge covenants in respect of its material short- and long-term borrowings throughout each of the years presented.

(g) Fair value measurements

Fair value measurements of financial instruments are presented through the use of a three-level fair value hierarchy that prioritises the valuation techniques used in fair value calculations.

The group and company maintains policies and procedures to value instruments using the most relevant data available. If multiple inputs that fall into different levels of the hierarchy are used in the valuation of an instrument, the instrument is categorised on the basis of the most subjective input.

Foreign currency forwards and swaps, cross currency swaps and interest rate swaps are valued using discounted cash flow techniques. These techniques incorporate inputs at levels 1 and 2, such as foreign exchange rates and interest rates. These market inputs are used in the discounted cash flow calculation incorporating the instrument's term, notional amount and discount rate, and taking credit risk into account. As significant inputs to the valuation are observable in active markets, these instruments are categorised as level 2 in the hierarchy.

The company's financial assets and liabilities measured at fair value are categorised as follows:

	30 June 2023 £ million	30 June 2022 £ million
Derivative assets	915	841
Derivative liabilities	(1,020)	(917)
Valuation techniques based on observable market input (Level 2)	(105)	(76)

There were no transfers between levels during the two years ended 30 June 2023 and 30 June 2022.

Registered number: 00213393 Year ended 30 June 2023

NOTES TO THE FINANCIAL STATEMENTS (continued)

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

(h) Results of hedging instruments

The company targets a one-to-one hedge ratio. Strengths of the economic relationship between the hedged item and the hedging instrument is analysed on an ongoing basis. Ineffectiveness can arise from subsequent change in the forecast transactions as a result of timing, cash flows or value except when the critical terms of the hedging instrument and hedged item are closely aligned. The change in the credit risk of the hedging instruments or the hedged items is not expected to be the primary factor in the economic relationship.

The notional amounts, contractual maturities and rates of the hedging instruments designated in hedging relationship as of 30 June 2023 by the main risk categories are as follows:

	Notional amounts £ million	Maturity	Range of hedged rates
2023			
Fair value hedges			
Derivatives in fair value hedge (interest rate risk)	1,538	October 2023 – March 2027	(0.63) - 1.88%
2022			
Fair value hedges			
Derivatives in fair value hedge (interest rate risk)	1,552	October 2023 – March 2027	(0.63) - 1.88%

With respect to hedges of the fair value risk from a change in interest rates using interest rate swaps, the retranslation of the related bond principal to closing foreign exchange rates and recognition of interest on the related bonds will affect the income statement in each year until the related bonds mature in 2023. 2025 and 2027. Foreign exchange retranslation and the interest on the hedged bonds in the income statement are expected to offset those on the interest rate swaps in each of the years. The gain on fair value hedging instruments for the year was £40 million (2022 - £100 million gain).

Total net financial (liabilities)/assets	(76)	5,249	5,173	11,136	(5,963)

At 30 June 2023 and 30 June 2022, the carrying values of cash and cash equivalents, other financial assets and liabilities approximate fair values. At 30 June 2023, the fair value of borrowings, based on unadjusted quoted market data (Level I sources as categorised by IFRS 13), was £6,423 million (2022 - £6,434 million).

(j) Capital management

The group's management is committed to enhancing shareholder value in the long-term, both by investing in the businesses and brands so as to deliver continued improvement in the return from those investments and by managing the capital structure. The group manages its capital structure to achieve capital efficiency, provide flexibility to invest through the economic cycle and give efficient access to debt markets at attractive cost levels. Capital management decisions on statutory level are driven by group funding needs.

NOTES TO THE FINANCIAL STATEMENTS (continued)

14. POST BALANCE SHEET EVENTS (continued)

As a result of the functional and presentational currency change of the company from 1st July 2023, Group Treasury and management has taken the following actions to manage the changed foreign currency exposures of the company: Sterling denominated intercompany loans of the entity have been converted from sterling to US dollar on transition date with no material fair value impact and no cash settlement. The amount of denominated intercompany loans is £19,474 million, which have been converted to \$24,538 million. These actions are effective from 1 July 2023. Risk management policies have also been reviewed and amended to manage the risks post transition, but these changes will not have any material impact in fiscal 24 and going forward aside from the changes described above.

The company repaid €600 million 0.125% fixed rate bonds on 12 October 2023.
