Strategic report Year ended 31 December 2019

The directors present their strategic report for the year ended 31 December 2019.

Business review and principal activities

The Company's principal activity is that of book publishing.

As shown in the Company's profit and loss account on page 5, the Company made a loss after taxation for the year of £932,460 (2018: profit of £2,667,292).

The balance sheet on page 6 shows that the Company's net assets at 31 December 2019 are £7,448,643 (2018: £8,381,103). The Company's cash levels at 31 December 2019 are £13,167,067 (2018: £15,178,756).

Key performance indicators

The Wise Music Group manages its operations on the basis of business units which span legal entities. For this reason, the Company's directors do not consider that presentation of non-financial indicators for the Company are necessary or appropriate for an understanding of the development, performance or position of the business.

The Company takes care to minimise the impact of its operation on the environment.

Principal risks and uncertainties

The Company operates in a highly competitive market which is a continuing risk to the Company and could result in losing sales to its key competitors. The Company manages this risk by providing high quality services to its customers, having fast response times to customer queries and maintaining strong relationships with its customers.

The Company's sales to its customers are worldwide and therefore the Company is exposed to movements in exchange rates. The Company sources some of its products in local territories and therefore minimises the risk of exchange rate fluctuations by operating local currency bank accounts.

Future developments

The result for 2019 was impacted by challenging market conditions for print publishing. The level of underlying business is satisfactory and the directors look to the future with confidence. The Company is in a net assets and net current assets position.

Post Balance Sheet Events

There have been no material post balance sheet events.

This report was approved by the board on 25 March 2021 and signed on its behalf.

J A B Smith

JABSmith

Chief Financial Officer

Directors' report Year ended 31 December 2019

The directors present their annual report and the audited financial statements for the year ended 31 December 2019.

Directors

The directors who served throughout the year and to the date of this report, except as noted, were as follows:

R Wise M B Wise T Wise
D B Rockberger C M Butler N J M Kemp
I N Gilroy J A B Smith (appointed 1 March 2019)

Dividends

An interim dividend of £nil (2018: £10,000,000) was paid in the year. The directors recommend a final dividend of £nil for 2019 (2018: £nil).

Strategic report

The information that fulfils the Companies Act requirements of the business review is included in the Strategic Report. This includes a review of the development of the business of the Company during the year, of its position at the end of the year, of its principal risks and uncertainties, and of the likely future developments in its business including any post balance sheet events.

Directors' indemnities

The Company has made qualifying third party indemnity provisions for the benefit of its directors which were made during the year and remain in force at the date of this report.

Going concern

After making enquiries, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements. More information is provided in note 1 to the financial statements.

Donations

Donations to charitable organisations amounted to £nil (2018: £nil).

Employees

The Company has continued its practice of keeping employees informed of matters affecting them as employees and the financial and economic factors affecting the performance of the Company. The Company supports the employment of disabled people wherever possible.

Approved by the Board of Directors and signed on behalf of the Board

14/15 Berners Street London W1T 3LJ United Kingdom

Directors' responsibilities statement

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- · make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

For the year ending 31 December 2019 the company was entitled to exemption from audit under section 479A of the Companies Act 2006 relating to subsidiary companies.

Directors' responsibilities:

- the members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476;
- the directors acknowledge their responsibilities for complying with the requirements of this Act with respect to accounting records and the preparation of accounts.

The financial statements of Music Sales Limited, registered number 00315155 were approved by the board of directors and authorised for issue on 25 March 2021.

Signed on behalf of the Board of Directors

Notes to the financial statements Year ended 31 December 2019

1. Accounting policies

The principal accounting policies are summarised below. They have all been applied consistently throughout the current year and the preceding year.

These audited financial statements cover a period of 12 months, 1 January 2019 to 31 December 2019.

General information and basis of accounting

Music Sales Limited ('the Company') is a company incorporated in the United Kingdom under the Companies Act. The address of the registered office is given on page 1. The nature of the Company's operations and its principal activities are set out in the strategic report on page 2.

The financial statements have been prepared under the historical cost convention, modified to include certain items at fair value, and in accordance with Financial Reporting Standard 102 (FRS 102) issued by the Financial Reporting Council.

The functional currency of the Company is considered to be pounds sterling because that is the currency of the primary economic environment in which the Company operates.

The Company meets the definition of a qualifying entity under FRS 102 and has therefore taken advantage of the disclosure exemptions available to it in respect of its separate financial statements. The Company is consolidated in the financial statements of its parent, Wise Music Group Limited, which may be obtained at the Company's registered office. Exemptions have been taken in these separate Company financial statements in relation to presentation of a cash flow statement.

Going concern

The Company made a loss in the year of £932,460. Music Sales Limited holds net current assets of £7,508,210, net assets of £7,448,643 and a positive cash balance of £13,167,067 as at 31 December 2019. The directors have a reasonable expectation that the Company has adequate resources to return to profitability and to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

Consolidation

The Company has taken advantage of the exemption provided by Section 400 of the Companies Act 2006 not to prepare group financial statements. The Company is a wholly-owned subsidiary of a Company registered in the United Kingdom which prepares group financial statements, into which the results of the Company are consolidated.

Cash flow statement

The Company has taken advantage of the exemption in FRS 102 and has not prepared a cash flow statement. A consolidated cash flow statement is shown in the consolidated financial statements of Wise Music Group Limited.

Turnover

Turnover is the total amount of income receivable by the Company in the ordinary course of business with outside customers for goods supplied as a principal and for services provided, excluding VAT. Turnover from the sale of goods is recognised at a point of sale or when the goods are delivered to the customer and the amount is reliably measured.

Investments

Investments are included at cost less amounts written off. Listed investments are shown at cost or market value, if this is lower. Profits or losses arising from disposals of fixed asset investments are treated as part of the results from ordinary activities. Where investments in group undertakings include copyrights, the copyrights are classified under intangible fixed assets.

Notes to the financial statements Year ended 31 December 2019

1. Accounting Policies (continued)

Intangible fixed assets

Amortisation initially recognised at cost is calculated to write off the cost of an asset, less estimated residual value, over the useful economic life of the asset as follows:

Copyrights & Print rights 10-20 years Software development 2-10 years

Amortisation of rights commences in the month following purchase, amortisation of software development commences when the software is implemented and being used by the business to generate revenues or operate and control business processes. Provision is made for any impairment.

Stocks

Stocks are stated at the lower of cost and net realisable value. Cost represents the purchase or production price of goods.

Work in progress is valued on the basis of direct costs based on normal levels of activity. Provision is made for any foreseeable losses where appropriate. No element of profit is included in the valuation of work in progress.

Leases

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight-line basis over the year of the lease. Rentals under operating leases are charged on a straight-line basis over the term of the lease.

Assets held under finance leases and other similar contracts, which confer rights and obligations similar to those attached to owned assets, are capitalised as tangible fixed assets and are depreciated over the shorter of the lease terms and their useful lives. The capital elements of future lease obligations are recorded as liabilities, while the interest elements are charged to the profit and loss account over the period of the leases to produce a constant rate of charge on the balance of capital repayments outstanding.

Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

(i) Financial assets and liabilities

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the statement of financial position when, and only when there exists a legally enforceable right to set off the recognised amounts and the Company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Notes to the financial statements Year ended 31 December 2019

1. Accounting policies (continued)

Debt instruments which meet the following conditions are subsequently measured at amortised cost using the effective interest method:

- (a) The contractual return to the holder is (i) a fixed amount; (ii) a positive fixed rate or a positive variable rate; or (iii) a combination of a positive or a negative fixed rate and a positive variable rate.
- (b) The contract may provide for repayments of the principal or the return to the holder (but not both) to be linked to a single relevant observable index of general price inflation of the currency in which the debt instrument is denominated, provided such links are not leveraged.
- (c) The contract may provide for a determinable variation of the return to the holder during the life of the instrument, provided that (i) the new rate satisfies condition (a) and the variation is not contingent on future events other than (1) a change of a contractual variable rate; (2) to protect the holder against credit deterioration of the issuer; (3) changes in levies applied by a central bank or arising from changes in relevant taxation or law; or (ii) the new rate is a market rate of interest and satisfies condition (a).
- (d) There is no contractual provision that could, by its terms, result in the holder losing the principal amount or any interest attributable to the current period or prior periods.
- (e) Contractual provisions that permit the issuer to prepay a debt instrument or permit the holder to put it back to the issuer before maturity are not contingent on future events, other than to protect the holder against the credit deterioration of the issuer or a change in control of the issuer, or to protect the holder or issuer against changes in levies applied by a central bank or arising from changes in relevant taxation or law.
- (f) Contractual provisions may permit the extension of the term of the debt instrument, provided that the return to the holder and any other contractual provisions applicable during the extended term satisfy the conditions of paragraphs (a) to (c).

Debt instruments that have no stated interest rate (and do not constitute financing transaction) and are classified as payable or receivable within one year are initially measured at an undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

With the exception of some hedging instruments, other debt instruments not meeting these conditions are measured at fair value through profit or loss.

Commitments to make and receive loans which meet the conditions mentioned above are measured at cost (which may be nil) less impairment.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the Company transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the Company, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

(ii) Equity instruments

Equity instruments issued by the Company are recorded at the fair value of cash or other resources received or receivable, net of direct issue costs.

Taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is provided in full on timing differences, which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in years different from those in which they are included in financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Notes to the financial statements Year ended 31 December 2019

1. Accounting policies (continued)

Bank borrowings

Interest-bearing bank loans and overdrafts are recorded at the proceeds received, net of direct issue costs. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are accounted for on an accrual basis in profit or loss account using the effective interest method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

Pension costs

The Company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the Company. The annual contributions payable is charged to the profit and loss account.

Foreign exchange

Transactions denominated in foreign currencies are translated into sterling at the rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the rates ruling at that date. Translation differences arising are dealt with in the profit and loss account.

2. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 1, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the Company's accounting policies

The following are the critical judgements, apart from those involving estimations (which are dealt with separately below), that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Revenue recognition

Royalty income is recognised on a cash basis.

Key source of estimation uncertainty - impairment of investments

Determining whether investments are impaired requires a review of their value to the Company. The value is appraised with reference to the carrying value of the net assets of the underlying entity.

Determining whether stock is obsolete or not requires an estimation of future sales. The Company takes the approach that any stock over two years old should be regarded as obsolete and fully provided for.

Notes to the financial statements Year ended 31 December 2019

3. Turnover

Turnover is attributable to the Company's continuing activities, being the income from book publishing.

	An analysis of turnover by geographical market is given below:	2019 £	2018 £
	United Kingdom Other European countries	982,129	1,343,352 425,582
	USA and Canada	125,097	59,943

After more than five years	-	2,625,000	-	-
	139,896	5,436,979	-	-

Notes to the financial statements Year ended 31 December 2019

20. Contingent liabilities

The Company is included in a group registration for VAT purposes and is therefore jointly and severally liable for all other Wise Music Group companies' unpaid debts in this connection.

Certain of the Wise Music Group companies have provided cross guarantees to a bank under which such companies guarantee to the bank on a joint and several basis, all present and future group indebtedness in respect to the group overdraft facility.

21. Related party transactions

As a wholly-owned subsidiary the Company has taken advantage of the exemption within Financial Reporting Standard 102 with respect to the disclosure of transactions with related parties which are part of the Wise Music Group.
