## Notes to the accounts - 31 December 2006

# 1 Accounting policies

A summary of the principal accounting policies is set out below

#### (1) Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with UK Generally Accepted Accounting Principles

#### (2) Cash flow statement

The Company is a wholly-owned subsidiary of British American Tobacco p I c. The cash flows of the Company are included in the consolidated cash flow statement of British American Tobacco p I c. which is publicly available. Consequently the Company is exempt under the terms of Financial Reporting Standard 1 (Revised) from publishing a cash flow statement.

#### (3) Foreign currencies

Turnover and profits expressed in currencies other than sterling are translated into sterling at average rates of exchange. Assets and liabilities are translated at closing rates of exchange. The difference between the overseas' retained loss translated at the average and closing rates of exchange is taken to reserves as are differences on exchange arising on the retranslation to sterling of foreign currency net liabilities at the beginning of the year. Exchange differences arising on the retranslation of long term monetary assets and liabilities between the Company and its branch, which are translated at the exchange rate ruling at the end of the year, are also taken to reserves. Other exchange differences, including those on remittances, are reflected in the profit and loss account.

#### (4) Accounting for income

Income is included in the profit and loss account when all contractual or other applicable conditions for recognition have been met. Provisions are made for bad and doubtful debts, including where delays are anticipated in the receipt of monies from overseas.

#### (5) Taxation

Taxation provided is that chargeable on the profits of the period, together with deferred taxation

Deferred taxation is provided in full on timing differences between the recognition of gains and losses in the financial statements and their recognition in tax computations. However, as allowed by FRS 19, the Group has chosen not to discount deferred tax assets and liabilities.

#### (6) Retirement benefits

Pension costs are accounted for in accordance with FRS 17 'Retirement Benefits' in these financial statements. Under FRS 17, where more than one employer participates in a defined benefit scheme the individual participating employers should account for the scheme as if it were a defined contribution scheme if they are unable to identify their individual shares of the underlying assets and liabilities in the scheme. The Company only participates in multi-employer schemes and the Company is unable to identify its share of the underlying assets and liabilities of the schemes. Therefore, under FRS 17 the Company does not recognise any share of any surplus or deficit in respect of the joint pension schemes.
