NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2012

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention modified to include the revaluation of freehold land and buildings and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts

1.3 Tangible fixed assets and depreciation

Tangible fixed assets other than freehold land are stated at cost or valuation less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation less estimated residual value of each asset over its expected useful life, as follows

Freehold buildings	2% straight line per annum
Plant and machinery	10% straight line per annum
Motor vehicles	25% straight line per annum

The part of the annual depreciation charge on revalued assets which relates to the revaluation surplus is transferred from the revaluation reserve to the profit and loss account

1.4 Stock

Stock is valued at the lower of cost and net realisable value

1.5 Pensions

For defined benefit schemes, current service costs and gains on settlements and curtailments are charged to operating profit and are included as part of staff costs. Past service costs are recognised immediately in the profit and loss account if the benefits have vested. If the benefits have not vested immediately, the costs are recognised over the period until vesting occurs. The interest cost and the expected return on assets are shown as a net amount of other finance costs or credits adjacent to interest. Actuarial gains and losses are recognised immediately in the statement of total recognised gains and losses.

Defined benefit schemes are funded with the assets of the scheme held separately from those of the group in separate trustee administered funds. Pension scheme assets are measured at fair value and liabilities are measured on an actuarial basis using the projected unit method and discounted at a rate equivalent to the current rate of return on a high quality corporate bond of equivalent currency and term to the scheme liabilities. The actuarial valuations are obtained at least triennially and are updated at each balance sheet date. The resulting defined benefit asset or liability, net of related deferred tax, is presented separately after other net assets on the face of the balance sheet.

In respect of other amounts paid to employees' personal pension plans, the amount charged to the profit and loss account is the total contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

1.6 Deferred taxation

Deferred taxation is provided at appropriate rates on all timing differences using the liability method only to the extent that, in the opinion of the directors, there is a reasonable probability that a liability or asset will crystallise in the foreseeable future.

Å&P TOOLS AND PRODUCTS LIMITED**NOTES TO THE ABBREVIATED ACCOUNTS (CONTINUED)****FOR THE YEAR ENDED 30 JUNE 2012****1 Accounting policies (Continued)****1.7 Foreign currency translation**

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to profit and loss account.
