**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 AUGUST 2012**

1 ACCOUNTING POLICIES**Accounting convention**

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life

Freehold property	- not provided
Fixtures and fittings	- 15% on reducing balance
Computer equipment	- 25% on cost

The freehold property is held for investment purposes

Investment properties

In accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), the company's properties are held for long-term investment and are included in the Balance Sheet at their open market values. The surplus or deficit on annual revaluation of such properties is transferred to the investment properties revaluation reserve. Depreciation is not provided in respect of freehold investment properties. This policy represents a departure from statutory accounting principles, which require depreciation to be provided on all fixed assets. The directors consider that this policy is necessary in order that the financial statements may give a true and fair view because current values and changes in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of the many factors reflected in the annual valuation but the amount cannot be easily identified or quantified.
