The notes on pages 3 to 5 form part of these abbreviated accounts.

# INDUSTRIAL PLASTICS LIMITED

## ABBREVIATED BALANCE SHEET *(continued)*

31ST OCTOBER 2009

The director is satisfied that the company is entitled to exemption from the provisions of the Companies Act 2006 (the Act) relating to the audit of the financial statements for the year by virtue of section 477, and that no member or members have requested an audit pursuant to section 476 of the Act

The director acknowledges his responsibility for

- (i) ensuring that the company keeps adequate accounting records which comply with section 386 of the Act, and
- (ii) preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of the financial year and of its profit or loss for the financial year in accordance with the requirements of sections 394 and 395, and which otherwise comply with the requirements of the Act relating to financial statements, so far as applicable to the company

These abbreviated accounts have been prepared in accordance with the special provisions for small companies under Part 15 of the Companies Act 2006

These abbreviated accounts were approved and signed by the director and authorised for issue on

31/3/10

M DEL CANTO

Company Registration Number 421723

The notes on pages 3 to 5 form part of these abbreviated accounts

**INDUSTRIAL PLASTICS LIMITED**  
**NOTES TO THE ABBREVIATED ACCOUNTS**  
**YEAR ENDED 31ST OCTOBER 2009**

**1. ACCOUNTING POLICIES**

**Basis of accounting**

The financial statements have been prepared under the historical cost convention

**Cash flow statement**

The director has taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a cash flow statement in the financial statements on the grounds that the company is small

**Turnover**

Turnover shown in the profit and loss accounts represent the full sales value of work undertaken during the year exclusive of value added tax

**Fixed assets**

All fixed assets are initially recorded at cost

**Depreciation**

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Plant & Machinery	-	20% Reducing balance
Fixtures & Fittings	-	20% Reducing balance
Motor Vehicles	-	25% Reducing balance
Improvement of premises	-	20% Reducing balance

**Stocks**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Work in progress is stated at cost plus value of work done goods and a proportion of expected profit

**Deferred taxation**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold

**INDUSTRIAL PLASTICS LIMITED**  
**NOTES TO THE ABBREVIATED ACCOUNTS**  
**YEAR ENDED 31ST OCTOBER 2009**

**1. ACCOUNTING POLICIES** *(continued)*

Deferred tax assets are recognised only to the extent that the director considers that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

**Foreign currencies**

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction. Exchange differences are taken into account in arriving at the operating profit

**Financial instruments**

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities

**2. FIXED ASSETS**

	<b>Tangible Assets £</b>
<b>COST</b>	
At 1st November 2008	134,533
Additions	575
