ABBREVIATED BALANCE SHEET (continued)

30th SEPTEMBER 2010

The directors are satisfied that the company is entitled to exemption from the provisions of the Companies Act 2006 (the Act) relating to the audit of the accounts for the year by virtue of section 477, and that no member or members have requested an audit pursuant to section 476 of the Act

The directors acknowledge their responsibilities for

- (1) ensuring that the company keeps adequate accounting records which comply with section 386 of the Act, and
- (11) preparing accounts which give a true and fair view of the state of affairs of the company as at the end of the financial year and of its profit or loss for the financial year in accordance with the requirements of section 393, and which otherwise comply with the requirements of the Act relating to accounts, so far as applicable to the company

These abbreviated accounts have been prepared in accordance with the special provisions for small companies under Part 15 of the Companies Act 2006

These abbreviated accounts were approved by the directors and authorised for issue on 24th June 2011, and are signed on their behalf by

Mr M Hill

Director

Company Registration Number 00510570

The notes on pages 3 to 8 form part of these abbreviated accounts.

NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 30th SEPTEMBER 2010

1. ACCOUNTING POLICIES

Basis of accounting

The accounts have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Compliance with SSAP 19 "Accounting for Investment Properties" requires a departure from the requirement of The Small Companies and Groups (Accounts and Directors' Report) Regulations 2008, relating to depreciation and amortisation and an explanation of this departure is given in Investment Properties policy below

Turnover

Turnover represents the rents of properties which are included on an accruals basis

Depreciation

Depreciation is calculated so as to write off the cost or revaluation of an asset over the useful economic life of that asset as follows

Furniture and Equipment -

- 25% per annum on written down value

An amount equal to the excess of the annual depreciation charge on revalued assets over the notional historical cost depreciation charge on those assets is transferred annually from the revaluation reserve to the profit and loss reserve

Investment properties

Investment properties are shown at their open market value. The surplus or deficit arising from the annual revaluation is transferred to the investment revaluation reserve unless a deficit, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

This is in accordance with the FRSSE which, unlike The Small Companies and Groups (Accounts and Directors' Report) Regulations 2008, does not require depreciation of investment properties. Investment properties are held for their investment potential and not for use by the company and so their current value is of prime importance. The departure from the provisions of the Act is required in order to give a true and fair view.

Deferred taxation

Deferred tax arises as a result of including items of income and expenditure in taxation computations in periods different to those in which they are included in the company's accounts

Deferred tax is provided in full on timing differences which result in an obligation to pay more or (less) tax at a future date, using the tax rates that are expected to apply when the timing differences reverse, based on current tax rates and laws

No provision has been made for taxation which might arise on the disposal of the company's freehold investment properties at the market value at the balance sheet date

The deferred tax charge has not been discounted

NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 30th SEPTEMBER 2010

1. ACCOUNTING POLICIES (continued)

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Income from investments

Investment income comprises dividends declared during the accounting period on unlisted investments

Investments

Fixed asset and current asset investments are stated at cost unless, in the opinion of the directors, there has been a permanent diminution in value, in which case an appropriate adjustment is made

2. FIXED ASSETS
