Figure 1 consists of two side-by-side line graphs. The left graph is for $N=10$ and the right graph is for $N=20$. Both graphs have a vertical axis labeled '1', '2', '3' from top to bottom and a horizontal axis labeled '1', '2', '3', '4', '5', '6', '7', '8', '9', '10' from left to right. In both graphs, the number of particles decreases as the number of cells increases. The right graph shows a steeper decline than the left graph.
