STRATEGIC REPORT
Year ended 31 December 2014

BUSINESS REVIEW AND FUTURE PROSPECTS

It is expected that the Company will continue to manage and administer the property development and investment activities of Hammerson plc and its subsidiaries in the United Kingdom.

The Directors have considered the use of the going concern basis in the preparation of the financial statements as at 31 December 2014 and concluded that it was appropriate. More information is provided in note 1 to the financial statements.

The Company incurs costs on behalf of fellow group companies and recharges these companies on a cost plus margin basis. Consequently the current economic conditions are unlikely to have a significant impact on the Company.

The Directors consider the following measures to be the key performance indicators for the Company: fee income and profit on ordinary activities before taxation.

During 2014 the Company produced fee income of £46,554,000 from Hammerson Group subsidiaries and certain joint ventures (2013: £45,341,000). The increase in fee income is mainly related to the methodology by which the management fee is calculated; the annual charge is based on eleven months actual costs and grossed up for a full year.

The profit on ordinary activities before taxation was £4,401,000 (2013: £6,509,000).

DIRECTORS' RESPONSIBILITIES STATEMENT

The Directors are responsible for preparing the annual report and financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the Company's sole member in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's member those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's sole member, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2014 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

NOTES TO THE ACCOUNTS Year ended 31 December 2014

1. ACCOUNTING POLICIES

The following principal accounting policies have been applied consistently throughout the current and preceding year.

(a) Basis of accounting

The financial statements have been prepared under the historical cost convention, in accordance with all applicable law and United Kingdom accounting standards.

(b) Going concern

The Directors have reviewed the current and projected financial position of the Company, making reasonable assumptions about the future trading performance and these are explained in the Strategic Report. After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

(c) Cash flow statement

As the Company is a wholly owned subsidiary it has taken exemption under the terms of Financial Reporting Standard 1 (revised 1996) from preparing a cash flow statement, as its cash flows are included in the consolidated financial statements of Hammerson plc, which are publicly available.

(d) Fixed Assets

Fixtures, fittings, and equipment are stated at cost less accumulated depreciation. Depreciation is charged to the profit and loss account on a straight-line basis over the estimated useful life, which is generally between three and five years, or in the case of leasehold improvements, the lease term.

(e) Employee benefits

Pension costs

For defined benefit schemes the amounts charged to the profit and loss account are the current service costs and gains and losses on settlements and curtailments. They are included as part of staff costs. Past service costs are recognised immediately in the profit and loss account if the benefits have vested. If the benefits have not vested immediately, the costs are recognised over the period until vesting occurs. The interest cost and the expected return on assets are shown as a net amount of other finance costs or credits adjacent to interest. Actuarial gains and losses are recognised immediately in the statement of total recognised gains and losses.

The main defined benefit scheme is funded, with the assets of the scheme held separately from those of the Company, in separate trustee administered funds. Pension scheme assets are measured at fair value and liabilities are measured on an actuarial basis using the projected unit method and discounted at a rate equivalent to the current rate of return on a high quality corporate bond of equivalent currency and term to the scheme liabilities. The actuarial valuations are obtained at least triennially and are updated at each balance sheet date. The resulting defined benefit asset or liability, net of the balance sheet

NOTES TO THE ACCOUNTS
Year ended 31 December 2014

1. ACCOUNTING POLICIES (continued)

Separate from the main scheme, a single retired member has an unapproved unfunded arrangement. The relevant liabilities are calculated using consistent methodology and the same assumptions as that of the main scheme. An accurate valuation is undertaken at each balance sheet date. The resulting defined benefit liability, net of the related deferred tax, is combined with the relevant figure of the main scheme.

Obligations for contributions to defined contribution pension plans are charged to the profit and loss account as incurred.

Share-based employee remuneration

Share-based employee remuneration is determined with reference to the fair value of the equity instruments at the date at which they are granted and charged to the profit and loss account over the vesting period on a straight-line basis. The fair value of share options is calculated using the binomial option pricing model and is dependent on factors including the exercise price, expected volatility, option life and risk-free interest rate. The fair value of the market-based element of the Long Term Incentive Plans ('LTIP') is calculated using the Monte Carlo Model and is dependent on factors including the expected volatility, vesting period and risk-free interest rate. FRS 20 Share-based Payment has been applied to share options granted.

(f) <u>Taxation</u>

Current tax is the expected tax payable on the taxable income for the year, using tax rates applicable at the balance sheet date, together with any adjustment in respect of previous years.

In accordance with Financial Reporting Standard FRS 19 "Deferred Tax", deferred tax is provided in respect of all timing differences that may give rise to an obligation to pay more or less tax in the future.

(g) Revenue recognition

Fees receivable from group companies represents amounts charged, or chargeable to, group companies for the provision of management and other services and is recognised on an accruals basis.

At 31 December 2014 the Company had a potential deferred tax asset of £3,900,000 (2013: £5,220,000), of which £3,900,000 related to timing differences on pensions (2013: £5,100,000) and £nil on share options (2013: £120,000). 13. SHARE-BASED EMPLOYEE REMUNERATION

Staff throughout Hammerson plc, including Executive Directors, participate in a performance-related bonus plan. Hammerson plc also operates a number of share plans under which employees, including Executive Directors, are eligible to participate. Details of these plans are set out below.

Cost of shares awarded to employees

The expense related to share-based employee remuneration is calculated in accordance with FRS 20 and the terms of the Hammerson Employee Share Ownership Plan ('the Plan') and is recognised in the profit and loss account within administration expenses (see note 2(b)). The corresponding credit is included in other reserves.

When share awards vest they are transferred by the Trustees of the Plan to employees as part of their remuneration. The cost of the shares is transferred from the ultimate parent company by inter-company transfer to other reserves. Should this not equal the credit previously recorded against other reserves, the balance is adjusted against the profit and loss account.

Annual Incentive Plan

The annual performance-related bonus operates under the AIP and is structured for Hammerson plc Executive Directors so that 60% of the bonus award is paid in cash and 40% is awarded in shares, subject to a two-year vesting period. From 2012, the share award has been made in the form of nil-cost options and, following vesting, there is a five-year exercise period.

The following table shows how the Executive Directors' AIP structure works.

AIP (BONUS) OUTCOME: FINANCIAL TARGETS

Performance measure .	2014: target to achieve 100% bonus	2014 closing measurement	Level of payout
Adjusted EPS	24.2p	23.9p	75%
TPR	IPD + 2.5%	IPD + 1.1%	40%
NRI	3.5%	2.1%	30%
Cost Ratio	23.8%	23.4%	100%

The targets for each performance measure to achieve any bonus payout, and the percentage of maximum for the measure that such performance would achieve were:

- for EPS, 22.8p would pay 20%;
- for TPR, IPD +0.5% would pay 25%;
- for Growth in NRI, no bonus is payable until growth is greater than 1.5% from which point payment is pro-rated;
- for Cost Ratio, no bonus is payable until the group total operating costs are 24.4% as a percentage of income.

The Company financial targets, together with individual achievement against personal objectives resulted in an average payout to Executive Directors of approximately 65% (2013: 54%).

The following table details the performance conditions and composition of financial targets for the AIP.

Notes

AIP performance conditions and personal objectives for 2015 are commercially sensitive and accordingly are not disclosed. These will be reported on in the 2015 Annual Report.

² Details of the AIP outcome for 2014 are in the table at the top of this page.

³ IPD is the Investment Property Databank's aggregate full-year UK Retail Property (70%) and France Retail Property (30%) indexes.

⁴ IPD is the Investment Property Databank's UK Quarterly Index, annualised. From 2013, the metric has been adjusted from All Property to Retail Property only, to reflect Hammerson plc's new retail focus.

13. SHARE-BASED EMPLOYEE REMUNERATION (continued)

Long Term Incentive Plan

The Hammerson plc Remuneration Committee (the 'Remuneration Committee') reviews the structure of the LTIP awards, as well as the performance measures and conditions attached to the awards, on an annual basis to ensure that they continue to align closely with the business' strategic focus. Since 2011, the awards have incorporated a balance of relative and absolute measures, and the Remuneration Committee believes that this balance is still appropriate.

The structure of the 2015 awards remains the same as the 2014 awards. The comparator group for the Total Shareholder Return (TSR) measure focuses on major European retail real estate companies and the Total Property Return (TPR) measure compares performance against a retail only property index. With regard to the absolute performance measure, earnings per share (EPS) continue to align the interests of Executive Directors with those of shareholders. Details of the LTIP structure are set out below.

Year of grant	Level of award	Performance period	Performance measures	Weighting of performance measures	TSR Comparator group

Notes

¹ Corio will be excluded from the comparator group on the assumption that the takeover offer by Klepierre announced in July 2014, will proceed.

² Subsequent to publishing the 2013 Annual Report but prior to granting awards, IVG entered into insolvency. It was excluded from the comparator group when the awards were made.

³ In order to smooth the transition from a three-year performance period to a four-year performance period, an enhanced award of 300% of salary was made in 2011, with half of the award subject to a three-year performance period (which vested in 2014) and half subject to a four-year performance period (vesting in 2015). This avoided a vesting 'gap' in 2014 and, overall, results in only a modest reduction in potential awards vesting to Executive Directors in the three-year period from 2014 to 2016 (assuming a consistent level of performance is achieved). The second half of the award (i.e. 150% of salary) is shown above, as it remains outstanding and will, subject to performance, vest in 2015.

THE	PERF	ORMA	NCE N	MEASU	JRES
-----	------	------	-------	-------	------

TSR Performance is measured over the fouryear period from the date of grant, in comparison with a comparator group, including some European real estate companies.

TPR

Performance is measured over the four financial years commencing with the year of grant and in comparison with a composite index comprising:

- For awards granted from 2013: Investment Property Databank's UK Annual Retail Property Index and France Annual Retail Property Index.
- For awards granted from 2009 to 2012: Investment Property Databank's UK Annual All Property Index and France Annual All Property Index.

The relative composition of the indices may vary with each grant to ensure that it reflects the Company's portfolio.

EPS/Absolute NAV

Performance is measured over the fouryear period from 1 January in the year of grant, and is calculated with reference to the European Public Real Estate Association ('EPRA') Best Practices recommendations.

EPS (for awards granted from 2013).

The composition of the EPS measure may vary with each grant to ensure it reflects the Company's portfolio. From 2015, a blend of UK and French CPI will be used, whereas in 2012 to 2014 RPI was used.

Absolute NAV (for awards granted in 2011 and 2012).

Calculated as adjusted shareholder's funds divided by the adjusted number of shares in issue.

13. SHARE-BASED EMPLOYEE REMUNERATION (continued)

All employee share schemes

Eligible UK employees may participate in the Hammerson plc Savings-Related Share Option Scheme ('Sharesave') (details of which are provided on the next page) and the Share Incentive Plan ('SIP'), and the Executive Directors will be entitled to participate on those same terms. Maximum participation levels for all staff, including Executive Directors are set by relevant UK legislation.

Restricted Share Plan

Certain employees of the Company receive awards under a Restricted Share Plan ('RSP'), which provides an opportunity for these employees to build up a shareholding in Hammerson plc. Under the RSP, share awards vest, subject to continued employment, on the third anniversary of grant. Executive Directors do not participate in the RSP.

Recruitment Share Award

As disclosed last year, the Remuneration Committee made two share-based awards to Mr. N.T. Drakesmith when he was appointed in 2011, to facilitate his recruitment as Chief Financial Officer of Hammerson plc. The awards were made to compensate him for the loss of awards at his previous employer. The first tranche vested in 2012. The details of the second tranche, which was made on materially the same terms as the 2011 LTIP award, with a three-year performance period, is shown below:
