Notes to the Financial Statements for the Year Ended 31 March 2014

1 Accounting policies

Basis of preparation

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with the Financial Reporting Standard for Smaller Entities (FRSSE) (effective April 2008).

Turnover

Turnover, which excludes value added tax, represents rental income accrued evenly over the lease term in the ordinary course of business.

Investment property

Investment property is revalued annually at its open market value in accordance with the FRSSE (effective April 2008). The surplus or deficit on revaluation is transferred to a revaluation reserve except where the deficit reduces the property below its historical cost, in which case it is taken to the profit and loss account.

No depreciation is provided on investment property which is a departure from the requirements of the Companies Act 2006 (the Act). In the opinion of the directors such property is held primarily for investment potential and so current value is of more relevance. The provisions of the FRSSE (effective April 2008) in respect of investment property have therefore been adopted in order to give a true and fair view. If this departure from the Act had not been made, the results for the year would have been reduced by a depreciation charge which has not been quantified.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date which are expected to result in an obligation to pay more tax in future periods, or a right to pay less tax in future periods.

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets and on previous gains rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned.

Deferred tax is measured at the undiscounted average tax rates expected to apply in the periods in which the timing differences are expected to reverse.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

2 Operating profit

Operating profit is stated after charging:

operating prome to cancer areas changes.	2014 £	2013 £
Management charges payable	46,800	45,000

3 Directors' emoluments

Pension benefits accruing to directors arise from contributions made by, and disclosed in, the financial statements of the parent company.

4 Taxation

Tax on profit on ordinary activities		
	2014 £	2013 £
Current tax		
Corporation tax charge	21,285	21,831
Amount paid to parent company in respect of group relief	4,279	5,505
Reduction in previous year's tax charge due to group relief claimed	(4,279)	(5,505)
UK Corporation tax	21,285	21,831
Deferred tax		
Origination and reversal of timing differences	. (700)	(200)
Total tax on profit on ordinary activities	20,585	21,631

Factors that may affect future tax charges

Unprovided deferred tax exists relating to a potential chargeable gain (which includes £164,721 of chargeable gain previously rolled over into the base cost of freehold investment property) which would arise if the investment property were disposed of at its balance sheet value. The amount of tax that may be payable on the potential gain is £36,000 (2013 - £45,800).

5 Tangible fixed assets

	Freehold investment property £
Cost or valuation At 1 April 2013	1,400,000
Net book value	
At 31 March 2014	1,400,000
At 31 March 2013	1,400,000

Revaluations

The Freehold investment property class of fixed assets was revalued on 10 December 2012 by Knight Frank LLP who are external to the company. The basis of this valuation was for the purposes of statutory financial reporting on a market value basis having regard to the physical condition of the property and subject to existing tenancies. This class of assets has a current value of £1,400,000 (2013 - £1,400,000) and a carrying amount at historical cost of £816,947 (2013 - £816,947). The depreciation on this historical cost is £nil (2013 - £nil).

This valuation has been reflected in these financial statements as, in the opinion of the directors, there has been no significant change in value since 10 December 2012.

12 Contingent liabilities

The company has previously received health related compensation claims in respect of former employees. These claims are being handled by the company's insurers. Last year one claim was settled without admission of liability or cost to the company. The directors have been advised that the company has no liability for the other claimants. On this basis no provision has been made in these financial statements.

13 Related party transactions

The company has taken advantage of the exemption in the Financial Reporting Standard for Smaller Entities (effective April 2008) from disclosing transactions with other members of the group on the basis that consolidated group financial statements are filed by A.A. Bramall Holdings Limited with the Registrar of Companies.

14 Control

The company is controlled by A.A. Bramall Holdings Limited and is a wholly owned subsidiary of A.A. Bramall Holdings Limited. The directors regard A.A. Bramall Holdings Limited as the ultimate parent undertaking.
