AUDITORS' REPORT

To the Shareholders of **John Wiley & Sons Limited**:

We have audited the accounts on pages 5 to 16 which have been prepared under the historical cost convention and the accounting policies set out on pages 7 to 9.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS:

As described on page 2, the directors are responsible for the preparation of the accounts. It is our responsibility to form an independent opinion, based on our audit, on those accounts and report our opinion to you.

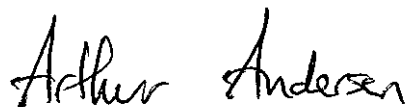

BASIS OF OPINION:

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the accounts. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the accounts, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the accounts are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the accounts.

In our opinion the accounts give a true and fair view of the state of the company's affairs as at 30 April 1997 and of its profit for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

JOHN WILEY & SONS LIMITED

NOTES TO THE ACCOUNTS
FOR THE YEAR ENDED 30 APRIL 1997

1. STATEMENT OF ACCOUNTING POLICIES:

The principal accounting policies, all of which have been applied consistently throughout the financial year and the preceding year, are:

a) Basis of accounting:

The accounts have been prepared on the historical cost basis and in accordance with applicable accounting standards.

The company is exempt from the requirement of FRSI revised to include a cashflow statement in its accounts because it is a wholly owned subsidiary of John Wiley & Sons, Inc. in whose accounts the company is consolidated.

b) Turnover:

Turnover represents the invoiced value of goods dispatched to customers, net of value added tax, discounts and returns.

c) Goodwill:

Goodwill, which represents the excess of purchase price over the book value of assets acquired, is shown at cost, and is amortised over a period of 5 to 10 years.

d) Tangible Fixed Assets:

Tangible fixed assets are stated at cost less accumulated depreciation, which is provided at rates calculated to write off the cost, less estimated residual value, of each asset on a straight-line basis over its estimated useful life as follows:

Leasehold improvements	5-10%
Furniture and fixtures	15%
Plant and equipment	20-33%
Motor cars	25%

e) Stocks:

Stocks comprise work-in-progress and finished goods, which are valued at the lower of first-in, first-out cost and net realisable value.

Net realisable value is based on normal selling price less further costs expected to be incurred to completion and sale. Provision is made for obsolete, slow-moving or defective items where appropriate.

Included within stock and work-in-progress are composition costs which are charged to the Profit and Loss account over three years on a reducing balance basis.

NOTES TO THE ACCOUNTS (continued)

1. STATEMENT OF ACCOUNTING POLICIES (continued):

f) Corporation Tax:

Corporation tax payable is provided on taxable profits at the current rate.

Advance corporation tax on dividends paid in the year is recoverable against corporation tax payable, and is only written off where recoverability cannot be reasonably assured.

g) Deferred taxation:

Deferred taxation (which arises from differences in the timing of the recognition of items in the accounts and by the tax authorities) has been calculated on the liability method. Deferred tax is provided on timing differences, which will probably reverse at the rates of tax likely to be in force at the time of reversal. Deferred tax is not provided on timing differences which, in the opinion of the directors, will probably not reverse.

h) Editorial costs:

Editorial and related costs are expensed as incurred.

i) Royalty expense and advances:

Royalty expense is accrued at the time of sale and included in accruals and deferred income. Royalty advances are included in prepayments and accrued income.

j) Foreign currency translation:

Transactions expressed in foreign currencies are translated into sterling at the rates of exchange ruling at the transaction date and amounts receivable and payable in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Any gain or loss resulting from a change in exchange rates subsequent to the date of the transaction is taken directly to the profit and loss account.

k) Subscription revenues:

Subscription revenues are generally collected in advance. These revenues are deferred and recognised when the related issue is sent to subscribers.

NOTES TO THE ACCOUNTS (continued)

1. STATEMENT OF ACCOUNTING POLICIES (continued)

l) Pension costs:

Retirement benefits for employees are provided by a defined benefit scheme which is funded by contributions from the company. The assets of the pension fund are held independently of the company. The amount charged to the profit and loss account represents the estimated regular cost of providing the benefits accrued in the year adjusted by spreading surpluses across the remaining average service life of employees in accordance with the requirements of the Statement of Standard Accounting Practice No. 24. Any differences between amounts charged to the profit and loss account and contributions is shown as a creditor in the balance sheet.

b) Pension arrangements:

The majority of the employees of the company participate in the John Wiley & Sons Limited Retirement Benefits Scheme. The pension cost for the year was £507,000 (1996 - £797,000) made up of a regular cost of £864,000 (1996 - £757,000) less variations from the regular cost of £408,000 (1996 - £63,000) and notional interest on the accumulated pension accrual of £51,000 (1996 - £103,000).

The pension cost and related liability are assessed in accordance with the advice of a professionally qualified actuary. The latest actuarial valuation was at 1 May 1996 and used the current unit method for lump sum death benefits and the projected unit method for other benefits. The main actuarial assumptions were that salaries would increase by 6.5% pa, pensions in payment by 4.0% pa and the return on the scheme investment would be 8.5% pa.

At the date of the latest actuarial valuation, the market value of the group scheme assets (excluding deposits relating to additional voluntary contributions) was £11,598,463 and the actuarial value of the assets was sufficient to cover 120% of the benefits that had accrued to members after allowing for expected future increases in earnings.

John Wiley & Sons Ltd Retirement Benefits Scheme itself bore all costs of administration and advisers' fees, except audit fees. The company made no recharges to the scheme.
