NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2008

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with applicable accounting standards, and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007).

1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Property improvements	- not provided
Fixtures, fittings and equipment	- 10% reducing balance
Computer equipment	- 33.33% reducing balance

It is considered that the residual value and life of the property improvements are such that their depreciation would be immaterial. The directors perform annual impairment reviews in accordance with the requirements of FRS 15 and FRS 11 to ensure that the recoverable amount is not lower than the carrying value. This treatment is contrary to the Companies Acts but, in the opinion of the directors, is applicable to give a true and fair view.

1.4. Pensions

The pension costs charged in the financial statements represent the contribution payable by the company during the year.

NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2008

1.5. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;

Provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable;

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
