NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 30 APRIL 2006

ACCOUNTING POLICIES 1.

Basis of preparing the financial statements

The financial statements are prepared under the historical cost convention modified to include the revaluation of freehold land and buildings.

Accounting convention

They are also prepared on the basis that the company will continue as a going concern which assumes the continued support of the company's bankers, loan creditors, directors and connected companies. The financial statements do not include any adjustments which would result from a withdrawal of such support.

Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts, together with rental income from investment properties.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Plant and machinery

- 20% on cost

Fixtures and fittings

- 10% on cost

Motor vehicles

- 25% on cost

Computer equipment

- 33% on cost

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Investment properties

Investment properties are included in the balance sheet at their open market value. Depreciation is provided only on those properties which are leasehold and where the unexpired lease term is less than 20 years.

Although this accounting policy is in accordance with the applicable accounting standard, SSAP 19, Accounting for Investment Properties, it is a departure from the general requirement of the Companies Act 1985 for all tangible assets to be depreciated. In the opinion of the directors compliance with the standard is necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified.

Investments

Fixed asset investments are stated at cost less provision for diminution in value.
