1 Accounting policies

a) Basis of accounting

The financial statements are prepared on the historical cost basis of accounting and have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

The company has taken advantage of the exemption, conferred by Financial Reporting Standard 1, from presenting a cash flow statement as it qualifies as a small company

b) Turnover

Turnover represents net invoiced sales of goods and services, excluding value added tax

c) Depreciation of tangible fixed assets

Depreciation is provided on all tangible fixed assets at rates calculated to write off the full cost or valuation less estimated residual value of each asset over its estimated useful life. The principal rates in use are

Freehold buildings	nil - see note
Motor vehicles	25% on written down value
Plant and machinery	25% on written down value

d) Goodwill

Goodwill has been fully depreciated

e) Stocks

Stock and work in progress is valued at the lower of cost and estimated net realisable value

Cost of raw materials is determined on the first in first out basis. In the case of work in progress and finished goods, cost includes all direct expenditure and production overheads based on the normal level of activity. Net realisable value is the price at which the stock can be released in the normal course of business, less further costs to completion of sale.

f) Pension scheme

The company makes payments into defined contribution schemes on behalf of staff and/or directors. The assets of the schemes are held separately from those of the company in independently administered funds. The pension cost charge represents contributions payable by the company to the funds.

g) Freehold property depreciation

No depreciation has been provided on the freehold buildings, as required by FRS15, as, in the opinion of the directors, the value of the asset exceeds its cost.
