Statement of directors' responsibilities in respect of the preparation of the financial statements

The directors are required by company law to prepare financial statements which give a true and fair view of the state of affairs of the company at the end of each financial year and of the profit or loss of the company for the period to that date. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors confirm that the financial statements comply with the above requirements and that the company has maintained proper accounting records which disclose with reasonable accuracy at any time the financial position of the company which enables them to ensure that the financial statements comply with the requirements of the Companies Act 1985.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.
