NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2010

1 ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

These financial statements are prepared on a going concern basis, under the historical cost convention and in accordance with the Companies Act 2006 and applicable UK accounting standards. The directors have reviewed the Company's existing accounting policies and consider that they are suitable. The principal accounting policies have been consistently applied.

The Company is itself a subsidiary company and is exempt from the requirement to prepare group accounts by virtue of section 400 of the Companies Act 2006. These financial statements therefore present information about the Company as an individual undertaking and not about its group.

1.2 Cash flow

The Company, being a subsidiary undertaking where 90% or more of the voting rights are controlled within the group whose consolidated financial statements are publicly available, is exempt from the requirement to draw up a cash flow statement in accordance with FRS 1.

1.3 Investment income

Turnover represents income from investments consisting of subsidiary undertakings and is recognised when the right to receive payment is established. Dividends from subsidiary undertakings registered overseas are presented inclusive of any overseas withholding tax.

1.4 Investments

Investments held as fixed assets are shown at cost less provision for impairment. Investments are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable. When a review for impairment is conducted, the recoverable amount is assessed by reference to the net present value of expected future cash flows of the relevant income generating unit or disposal value if higher. The discount rate applied is based upon the Company's weighted average cost of capital, with appropriate adjustment for the risks associated with the relevant unit.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indications exist, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss. After such a reversal, the depreciation charge is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

1.5 Taxation

The Company does not pay for, or receive payment for, any group relief claimed from, or surrendered to, other Group companies.

Withholding taxes incurred on the receipt of interest and dividends from overseas group companies are presented as part of the taxation charge in the profit and loss account.

RIO TINTO ALUMINIUM HOLDINGS (UK) LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2010

1. ACCOUNTING POLICIES (continued)

1.6 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation

Deferred tax is recognised in respect of the retained earnings of an overseas subsidiary, associate or joint venture only to the extent that there is a commitment to remit the earnings

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse

Deferred tax assets and liabilities are not discounted

1.7 Currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the balance sheet date

Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction

Exchange gains and losses are recognised in the Profit and loss account

1.8 Dividends

Final dividends are recognised when the obligation to make payment is established. Interim dividends are recognised when paid

1.9 Interest income/(expense)

Interest income is accounted on an accrual basis. Interest receivable from subsidiary undertakings registered overseas is presented inclusive of any overseas withholding tax

1.10 Reporting format

The Company acts as an investment holding company, and hence the dividends received from investee companies and any impairment provisions against investments are presented as operating items

2. INVESTMENT INCOME

All turnover arose within the United Kingdom (2009 - Arose within the United Kingdom)

3. OPERATING PROFIT

The auditor's remuneration of £4,570 (2009 - £2,611) is borne by a fellow group undertaking

7. TAXATION (continued)

Factors that may affect future tax charges

Legislation was enacted in March 2011 to reduce the UK statutory corporation tax rate to 26% from 1 April 2011

The March 2011 Budget Statement announced further reductions to the UK statutory corporation tax rate 25% effective 1 April 2012, 24% effective 1 April 2013 and 23% effective 1 April 2014. These changes will have no impact on the financial statements prepared to 31 December 2010.

The Company has deferred tax assets of £58,747 (2009 £60,923) arising from losses which have not been recognised in the financial statements due to uncertainty about their recoverability. The effect of the tax rate changes announced in March 2011 would be to reduce the unrecognised deferred tax asset to £50,044.
