FINE GEARS LIMITED
NOTES TO THE ABBREVIATED ACCOUNTS
31ST OCTOBER, 2001

1. ACCOUNTING POLICIES

1.1 Basis of Accounting

The financial statements have been prepared under the historical cost convention.

1.2 Turnover

Turnover represents the total invoiced value of goods sold and services provided to customers, excluding value added tax.

1.3 Depreciation and amortisation of tangible fixed assets

Depreciation and amortisation is provided in order to write off the cost of tangible fixed assets over their estimated useful lives using the following annual rates:-

Improvements to leasehold premises	: on a straight line basis over the remaining period of the lease
Plant and equipment	: at 15% on the reducing balance basis
Motor vehicles	: at 25% on the straight line basis

1.4 Stocks and work in progress

Stocks and work in progress are valued at the lower of cost and net realisable value. Cost is based on the cost of direct materials and labour plus attributable overheads based on a normal level of activity. Net realisable value is based on estimated selling price less further costs to be incurred to completion, sale and distribution.

1.5 Deferred taxation

No provision is made for deferred taxation as, in the opinion of the directors, such provision would be unlikely to crystallise in the foreseeable future.

1.6 Operating leases

Rental costs applicable to operating leases, under which substantially all of the benefits and risks of ownership remain with the lessor, are charged against profit as incurred.

1.7 Hire purchase contracts

Assets held subject to hire purchase contracts are included in the balance sheet at cost less accumulated depreciation, which is calculated in accordance with the policies outlined in 1.3 above. The capital element of the future obligations is shown as a liability. The interest element of the obligations is charged against profit over the period of the contract in proportion to the reducing capital element outstanding.

1.8 Pension costs

The company operates two defined contribution pension schemes. The assets of the schemes are held separately from those of the company in independently administered funds.
