NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31 OCTOBER 2005

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Leasehold Property	- over life of lease
Plant, Machinery, Fixtures & Fittings	- 15% reducing balance basis
Motor Vehicles	- 25% straight line basis

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Hire purchase agreements

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest is charged to the profit and loss account on a straight line basis.

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

Pension costs

The company operates one defined contribution pension scheme. The assets of the scheme are held separately from those of the company in independently administered funds. The annual contributions payable are charged to the profit and loss account.

Two directors are accruing benefits under money purchase schemes (2004 - two).
