## Notes

*(forming part of the accounts)*

### 1 Accounting policies

The accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's accounts.

#### *Basis of preparation*

The accounts have been prepared in accordance with applicable accounting standards, and under the historical cost accounting rules.

As 100% of the company's voting rights are controlled within the group headed by Greggs plc, the company has taken advantage of the exemption contained within Financial Reporting Standard 8 and has therefore not disclosed transactions or balances with entities which form part of the group (or investees of the group qualifying as related parties). The consolidated accounts of Greggs plc, within which the company is included, can be obtained from the address given in note 4.

Under Financial Reporting Standard 1, the company is exempt from the requirement to prepare a cashflow statement on the grounds that the parent undertaking includes the company in its own published consolidated accounts.

#### *Classification of financial instruments issued by the company*

Following the adoption of Financial Reporting Standard 25, financial instruments issued by the company are treated as equity (i.e. forming part of shareholders' funds) only to the extent that they meet the following two conditions:

- a) they include no contractual obligations upon the company to deliver cash or other financial assets or to exchange financial assets and liabilities with another party under conditions that are potentially unfavourable to the company; and
- b) where the instrument will or may be settled in the company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the company's own equity instruments or is a derivative that will be settled by the company exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the company's own shares, the amounts presented in these accounts for called up share capital and share premium account exclude amounts in relation to those shares.

Finance payments associated with financial liabilities are dealt with as part of interest payable and similar charges. Finance payments associated with financial instruments that are classified as part of shareholders' funds (see dividends policy) are dealt with as appropriations in the reconciliation of movements in shareholders' funds.

#### *Dividends on shares presented within shareholders' funds*

Dividends unpaid at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately authorised and are no longer at the discretion of the company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the accounts.
