Notes to the Abbreviated Accounts For The Year Ended 30 September 2007

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005)

Turnover

Turnover represents sales of goods excluding Value Added Tax

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter

Freehold property	- Straight line over 25 years
Investment Properties	- not provided
Plant and machinery	- 33% on cost and 20% on reducing balance
Motor vehicles	- 25% on reducing balance
Computer equipment	- 33% on cost

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. No deferred tax has been recognised in respect of revaluation gains and losses, unless by the balance sheet date the company has entered into a binding agreement to sell the asset.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Investment Properties

In accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005), Investment Properties are revalued annually at open market value and the surplus or deficit is transferred to a revaluation reserve, and no depreciation is provided. This treatment is not in accordance with the Companies Act 1985, which requires all assets to be depreciated over their useful economic life, but is required to ensure the financial statements give a true and fair view, if this approach had not been adopted then the profit for the year would be reduced by the charge for depreciation.
