Anglesey Aluminium Metal Limited

Strategic report

The directors, in preparing this Strategic report, have complied with s414C of the Companies Act 2006.

Principal activities and business review

Anglesey Aluminium Metal Limited ("AAM Ltd") was wholly owned by Anglesey Aluminium Limited ("AA Ltd") a joint venture whose ultimate parents ("the partners") were Rio Tinto plc (incorporated in Great Britain) and Kaiser Aluminium Corporation (incorporated in the United States).

From 1 October 2009 the primary operation of AAM Ltd changed to a secondary re-melt facility. AAM Ltd has a 100% holding in Anglesey Aluminium Metal Renewables Limited ("AAMR Ltd") that has been established to investigate the viability of a renewable energy plant on land within the boundary of the existing smelter.

An extraordinary Board meeting was held in February 2013 which announced the cessation of the re-melt operation at the end of March 2013. The forecast plans at best showed large losses year on year which could not be sustained by the ultimate partners and the low billet orders could be fulfilled by lower cost margin sites in the Rio Tinto and Kaiser ('the partners') group. The site has become a purely decommissioning site. The final environmental permits are surrendered to allow for the potential buyer to redevelop the site for industrial use.

The Company has significant land holdings and is continuing its discussions regarding the disposal of these land holdings to third parties. The Company has reached an agreement concerning the disposal of the operational land together with the sale of its 100% holding in AAMR Ltd. The Heads of Terms and exclusivity agreement have been signed with due diligence ongoing. In addition an option agreement is in place to dispose of the Company's non-operational land which consists mainly of a country park and farmland.

The results of the Company for the year ended 31 December 2013 are set out on page 8 and show an operating loss of £9.8m (2012: profit £3.4m). The loss on ordinary trading conditions after tax is £11.6m (2012: loss of £1.7m) reflecting the challenging trading conditions as set out above. No dividend was paid to during the year (2012: £nil).

Principal risks and uncertainties

The directors have identified the need to manage the Company's material financial risks, including foreign exchange, liquidity, credit and interest rate risks. These risks are monitored through a Group Treasury management function, which invests surplus funds, mitigates foreign exchange exposure and manages borrowings for Rio Tinto Group companies.

Rio Tinto Group Treasury also seeks to limit counter-party risk by conducting most of its banking and dealing activities with a limited number of major international banks, whose status is kept under review.

Liquidity risk

The Company finances its operations through a combination of retained profits and inter-company loans.

Interest rate risk

To the extent that the Company enters into inter-company loan agreements, the Company's exposure to interest rate risk arises on loans on which interest is charged at LIBOR. The Company does not participate in interest rate hedging.

Credit risk

Credit risk arises on the balances receivable from other members of the Rio Tinto and Kaiser Groups. No material exposure is considered to exist in respect of inter-company balances.

Approved by the Board of Directors
and signed on behalf of the Board on 24 June 2014.

B J King
Director

Anglesey Aluminium Metal Limited

Directors' report

The directors present their annual report and the audited financial statements for the year ended 31 December 2013.

Indemnities and insurance

Rio Tinto plc indemnify officers of subsidiary companies, who have been appointed by Rio Tinto plc, against liabilities arising from the conduct of the Group's business, to the extent permitted by law, by the placing of directors' and officers' insurance. The insurance indemnifies individual directors' and officers' personal legal liability and cost for claims arising out of actions taken in connection with Group business.

Environment

The Company recognises the importance of its environmental responsibilities, monitors its impact on the environment, and designs and implements policies to reduce any damage that might be caused by its activities. The Company operates in accordance with the policies described in both Rio Tinto's annual reports which do not form a part of this report. Initiatives designed to minimise the Company's impact on the environment include current efficiency, CO2 emissions, renewable obligations and recycling policy and minimising the production of waste, which cannot be recycled (both hazardous and non-hazardous).

Employees

Details of the number of employees and related costs can be found in note 4 to the financial statements on page 13.

Applications for employment by disabled persons are always fully considered, bearing in mind the aptitudes of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Company continues and that the appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of disabled persons should, as far as possible, be identical with that of other employees.

The Company participates in the policies and practices to keep the employees informed on matters relevant to them as employees through regular meetings and newsletters. Employee representatives are consulted regularly on a wide range of matters affecting their interests along with trade union consultation where necessary. The Company also participates in the Rio Tinto Share Saving Plan. During 2012 the majority of employees participated in the plan; however, no further participation was granted post 2012 due to the increased cost of the new share save scheme.

Operating leases

Operating lease rentals payable are charged to the Profit and Loss account on a straight-line basis over the lease term. Any premium or discount on the acquisition of a lease is spread over the life of the lease on a straight-line basis.

Directors

The composition of the Board of Directors at the date of this report is shown on page 1.

Donations

Donations for charitable purposes made by the Company during the year amounted to £25,575 (2012: £525). During the year the Directors agreed to establish a £250,000 local community legacy fund for charitable donations. The Company made no donations during either year for political purposes as defined by the Companies Act 2006 as amended by the Political Parties, Elections and Referendums Act 2000.

Anglesey Aluminium Metal Limited

Directors' report (continued)

Policy regarding payment of creditors

It is the Company's policy to abide by the terms of payment agreed with suppliers. In many cases the terms of payment are as stated in the suppliers' own literature. In other cases, the terms of payment are determined by specific written or oral agreement. The Company does not follow any published codes or standard on payment practices. Trade creditors at 31 December 2013 represented 7 days (2012: 36 days) of annual purchases.

Going concern

As described further in note 2 to the financial statements, the entity ceased to trade on 31 March 2013. Consequently, as required by FRS 18, the financial statements have been prepared on a basis other than that of a going concern which includes, where appropriate, writing down the company's assets to net realisable value.

The entity had net liabilities of £82.3m at the year-end (2012: £70.8m net liabilities). A large proportion of the liabilities due are comprised of a payable of £37.8m (2012: £37.8m) due to its ultimate parent Anglesey Aluminium Ltd and a loan of £49.0m (2012: £49.0m) due to one of its partners Rio Tinto PLC. The directors have obtained a letter of support from Anglesey Aluminium Ltd which confirms it will not call upon the debt before the 31 December 2014. The maturity date on the loan due to Rio Tinto PLC is the 31 December 2014. The Directors expect the loan to be extended beyond this date.

Auditor and disclosure of information to auditor

Each of the persons who are a director at the date of this report confirms that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- the director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the UK Companies Act 2006.

Under section 487(2) of the Companies Act 2006, Deloitte LLP will be deemed to have been reappointed as auditors 28 days after these financial statements were sent to members or 28 days after the latest date prescribed for filing the accounts with the registrar, whichever is the earlier.

Approved by the Board of Directors
and signed on behalf of the Board

B J King

Anglesey Aluminium Metal Limited

Statement of directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditor's report to the members of Anglesey Aluminium Metal Limited

We have audited the financial statements of Anglesey Aluminium Metal Limited for the year ended 31 December 2013 which comprises the profit and loss account, the balance sheet and the related notes 1 to 20. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit, and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2013 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Emphasis of matter – financial statements prepared other than on a going concern basis

In forming our opinion on the financial statements, which is not qualified, we have considered the adequacy of the disclosure made in note 2 to the financial statements, which explains that the financial statements have been prepared on a basis other than that of a going concern.

Independent auditor's report to the members of Anglesey Aluminium Metal Limited (continued)

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

B J King
Director

Anglesey Aluminium Metal Limited

Notes to the financial statements Year ended 31 December 2013

1. Basis of accounting

The financial statements are prepared in accordance with applicable United Kingdom law and accounting standards. The particular accounting policies adopted, which have been applied consistently in the current and prior years, are described below.

The financial statements are prepared in accordance with the historical cost convention.

2. Accounting policies

Turnover

Turnover represents sales, net of VAT, in the United Kingdom of aluminium at prices based on the terms of sales agreements made with the shareholders of the Company.

Cash flow statement

Anglesey Aluminium Metal Limited is exempt from the preparation of a cash flow statement under FRS 1 (Revised 1998) "Cash Flow Statements" on the basis that it is a subsidiary undertaking where 90% or more of the voting rights are controlled within the group. The consolidated financial statements of Anglesey Aluminium Limited, which include Anglesey Aluminium Metal Limited, are publicly available.

Fixed asset investments

Tradable carbon credits are included at cost less provision for any permanent diminution in value.

Depreciation

No depreciation is provided on freehold land and assets in the course of construction.

For all other tangible fixed assets depreciation is calculated on a straight line basis calculated to write down to their estimated residual values over the year of their estimated useful economic lives, which is considered to be fifteen years unless they form part of the plant and machinery assets which have been impaired to a residual value where no depreciation is charged.

Deferred taxation

Current tax is provided at amounts expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in years different from those in which they are included in the financial statements. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no binding contract to dispose of these assets. Deferred tax is not provided on unremitted earnings where there is no binding commitment to remit these earnings. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Stocks and work in progress

Stocks and work in progress are stated at the lower of cost and net realisable value on a first-in-first-out basis. Cost, in the case of work in progress and finished stocks of metal, includes materials, labour and all appropriate overheads.

Anglesey Aluminium Metal Limited

Notes to the financial statements Year ended 31 December 2013

2. Accounting policies (continued)

Foreign exchange

Transactions denominated in foreign currencies are translated into sterling at the rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the rates ruling at that date. These translation differences are dealt with in the profit and loss account.

Pensions

The expected cost of pensions in respect of Rio Tinto plc defined benefit pension schemes in which the Company participates is charged to the profit and loss account so as to spread the cost of pensions over the service lives of employees in the schemes. Variations from the regular cost are spread over the expected remaining service lives of current employees in the schemes in line with the allocation by the principal employer of such variation between companies in the scheme. The pension cost is assessed in accordance with the advice of qualified actuaries.

The Company is unable to identify its share of the underlying assets and liabilities as each employer is exposed to actuarial risks associated with the current and former employees of other entities participating in the Rio Tinto plc Pension Fund. A review of the whole fund was prepared at 31 December 2013 by an independent qualified actuary for the purposes of IAS 19. At that date the fund had a total surplus of £34.0 million.

The existence of this deficit does not affect the rate at which the Company pays contributions as this is determined by the normal Trustee funding valuation.

For defined contribution schemes the amount charged to the profit and loss account is the contribution payable in the year. This is a multi-employer scheme so no FRS 17 disclosures are required in the financial statements. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

Operating leases

Rentals are charged to the profit and loss account in equal annual amounts over the lease term.

Rehabilitation provision

In accordance with FRS 12 'Provisions, Contingent Liabilities and Contingent Assets' a provision for certain costs relating to the future closure of the plant has been established. This provision has been calculated on the basis of a report from an independent quantity surveyor, and reflects an estimate of the costs of returning the site of the plant to "light industrial use" in accordance with the initial planning consent.

The fixed asset which reflects a discounted estimate of future costs, was fully written down by September 2009.

The provision is discounted and the unwinding of the discount each year is charged to interest payable and similar charges.

Anglesey Aluminium Metal Limited

Notes to the financial statements Year ended 31 December 2013

2. Accounting policies (continued)

Going concern

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the directors' report on pages 2-5.

The entity had net liabilities of £82.3m at the year-end (2012: £70.8m net liabilities). A large proportion of the liabilities due are comprised of a payable of £37.9m (2012: £37.9m) due to its ultimate parent Anglesey Aluminium Ltd and a loan of £49.0m (2012: £49.0m) due to one of its partners Rio Tinto PLC. The directors have obtained a letter of support from Anglesey Aluminium Ltd which confirms it will not call upon the debt before the 31 December 2014. The maturity date on the loan due to Rio Tinto PLC is the 31 December 2014. The Directors expect the loan to be extended beyond this date.

The entity ceased to trade on 31 March 2013. Consequently as required by FRS 18 the financial statements have been prepared on a basis other than that of a going concern which includes, where appropriate, writing down the company's assets to net realisable value. The financial statements do not include any provision for the future costs of terminating the business of the company except to the extent that such were committed at the balance sheet date. No adjustments arose as a result of ceasing to apply the going concern basis.

Preparation of group accounts

These accounts present information relating to Anglesey Aluminium Metal Limited, an individual undertaking and not its associated companies. In the opinion of the directors the company is exempt from preparing consolidated accounts under Section 400 of Companies Act 2006, as amended. Group accounts are prepared for the ultimate parent company, Anglesey Aluminium Limited, a company registered in England and Wales.

3. Operating (loss)/profit

	2013 £'000	2012 £'000
Operating (loss)/profit is arrived at after charging:		
Depreciation of tangible assets – owned assets	17	74
Fees payable to the company's auditor for audit of the Company's annual accounts	54	75
Operating lease rentals:		
Hire of plant and machinery	41	37
Other operating leases	20	31

Anglesey Aluminium Metal Limited

Notes to the financial statements Year ended 31 December 2013

4. Employees

	2013 No.	2012 No.
The average number of persons employed in each of the following categories (including directors) during the year was:		
Production	40	72
Administration	8	7
	<u>48</u>	<u>79</u>
	£'000	£'000
Staff costs, including directors, during the year:		
Wages and salaries	4,717	6,305
Social security costs	244	680
Other pension costs	55	48
	<u>5,016</u>	<u>7,033</u>

Pension costs

Employees who joined the Company before 1 April 2005 were eligible to participate in the Rio Tinto Pension Fund (the 'Fund'). The assets of the Fund are held in a separate trustee administered fund.

The Rio Tinto Pension Fund provides benefits on both a defined benefit and a defined contribution basis. However, any contributions paid by the Company are accounted as if the scheme were a defined contribution scheme, as the Company is unable to identify its share of the underlying assets and liabilities in the scheme. Currently 38.1% of employee salaries is paid as additional pension contributions into the fund. A one-off contribution was made to the Rio Tinto Pension Fund of £70,000,000 on 30 September 2009, accounted for as an additional contribution of employers' pension payment of employees' salaries.

An annual valuation of the Fund was earned out by independent qualified actuaries on 31 December 2013 under International Accounting Standards 19 "Employee Benefits" and on this basis the Fund had a deficit of £94 million; a funding level of 93%.

Employees who join on or after 1 April 2005 are eligible to join the Anglesey Aluminium Metal Group Personal Pension Plan, a defined contribution stakeholder pension in association with Standard Life. Contributions amounted to £54,679 (11%) (2012: £47,607 (6%)). At 31 December 2013 there were £nil (2012: £nil) prepaid pension contributions.

Anglesey Aluminium Metal Limited

Notes to the financial statements Year ended 31 December 2013

5. Directors

The emoluments (excluding pension scheme contributions) of the directors were as follows:

	2013 £'000	2012 £'000
Emoluments	187	140
Company contributions to money purchase pension schemes	86	55
	<u>273</u>	<u>195</u>

None of the three (2012: three) directors who served during the year were members of a Rio Tinto plc defined benefit pension scheme.

The emoluments of the highest paid director were £186,454 (2012: £140,121), with company pension contributions of £86,353 (2012: £85,121).

6. Interest payable and similar charges

	2013 £'000	2012 £'000
Rehabilitation provision finance charge	118	355
Bank interest	4	37
Loan interest	2,205	2,211
	<u>2,327</u>	<u>2,603</u>

Anglesey Aluminium Metal Limited

Notes to the financial statements Year ended 31 December 2013

7. Tax charge on loss on ordinary activities

(a) Analysis of tax in the year

	2013 £'000	2012 £'000
UK corporation tax at 23% (2012: 24%)		
Current taxation	-	-
Deferred taxation (see note 16)	-	(1,610)
	<u>-</u>	<u>(1,610)</u>
Tax charge for year	<u>-</u>	<u>(1,610)</u>

(b) Factors affecting tax charge for the year

	2013 £'000	2012 £'000
Loss on ordinary activities before tax	(11,580)	(54)
(Loss)/profit on ordinary activities multiplied by standard rate of corporation at 23% (2012: 24%)	(2,692)	(13)
Effects of:		
Expenses not deductible for tax purposes	28	88
Capital allowances in excess of depreciation	130	(244)
Change in provision leading to increase in tax charge	(930)	-
Tax deduction arising from exercise of employee options	(103)	-
Losses carried forward	3,567	712
Utilisation of tax losses	-	(543)
	<u>-</u>	<u>-</u>
Current tax credit for year (note 7(a))	<u>-</u>	<u>-</u>

Reductions to the main rate of UK corporation tax, to 21% with effect from 1 April 2014 and 20% with effect from 1 April 2015, were substantively enacted on 2 July 2013. These changes have no impact on the financial statements prepared to 31 December 2013.

Anglesey Aluminium Metal Limited

13. Provisions for liabilities and charges

	Rehabilitation provision £'000	Redundancy provision £'000	Share based payments £'000	Total £'000
At 1 January 2013	12,302	242	186	12,730
Additional provision in the year	-	3,564	145	3,709
Unwinding of discount	(118)	-	-	(118)
Utilisation during the year	(6,174)	(2,896)	(299)	(9,369)
At 31 December 2013	<u>6,010</u>	<u>910</u>	<u>32</u>	<u>6,952</u>

The share based payments provision relates to the current estimate of the amount that will become payable to Rio Tinto in respect of the Share Savings Plan. The share based payments are for three and five year options expecting to be claimed for the current year through to the final one in 2015. There have been no new share offers in 2013.

The redundancy provision is for future costs which relate specific employees that have their notice of redundancy at the year end date.

The rehabilitation provision is for certain costs relating to the future closure of the plant. This provision has been calculated on the basis of a report from an independent quantity surveyor, and reflects an estimate of the costs of returning the site of the plant to "light industrial use" in accordance with the initial planning consent.

Anglesey Aluminium Metal Limited
