Report of the Independent Auditors to Stretton Finance Limited Under Section 247B of the Companies Act 1985

We have examined the abbreviated financial statements on pages three to six, together with the full financial statements of the company for the year ended 31 March 2001 prepared under Section 226 of the Companies Act 1985.

Respective responsibilities of director and auditors

The director is responsible for preparing the abbreviated financial statements in accordance with Section 246 of the Companies Act 1985. It is our responsibility to form an independent opinion as to whether the company is entitled to deliver abbreviated financial statements prepared in accordance with Sections 246(5) and (6) of the Act to the Registrar of Companies and whether the financial statements to be delivered are properly prepared in accordance with those provisions and to report our opinion to you.

Basis of audit opinion

We have carried out the procedures we consider necessary to confirm, by reference to the financial statements, that the company is entitled to deliver abbreviated financial statements and that the abbreviated financial statements to be delivered are properly prepared. The scope of our work for the purpose of this report did not include examining or dealing with events after the date of our report on the full financial statements.

Opinion

In our opinion the company is entitled to deliver abbreviated financial statements prepared in accordance with Sections 246(5) and (6) of the Companies Act 1985, and the abbreviated financial statements on pages three to six are properly prepared in accordance with those provisions.

These abbreviated financial statements have been prepared in accordance with the special provisions of Part VII of the Companies Act 1985 relating to small companies.

ON BEHALF OF THE BOARD:

C Travers - DIRECTOR
Approved by the Board on 19/06/07

Notes to the Abbreviated Financial Statements for the Year Ended 31 March 2001

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective March 2000).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Plant and machinery etc

- 33% on cost,

25% on reducing balance and at variable rates on reducing balance

Deferred taxation

Provision is made at current rates for taxation deferred in respect of all material timing differences except to the extent that, in the opinion of the director, there is reasonable probability that the liability will not arise in the foreseeable future.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Current asset Investments

Assets not on finance leases have been valued by the director and transferred at this value to additions or disposals as appropriate. Depreciation or appreciation in value is shown in the profit and loss account under the heading of "net diminution in the value of current asset investments".

Equipment leased to Customers

Assets leased to customers under agreements which transfer substantially all the risks and rewards associated with ownership other than legal title are classified as finance leases. The net investment in finance leases represents total minimum lease payments less gross earnings allocated to future periods. Income from finance leases, including benefits from declining tax rates, is credited to profit and loss account using the actuarial after tax method to give constant periodic rate of return on the net cash investment. Assets leased to customers under agreements which do not transfer all of the risks and rewards associated with ownership are classified as operating leases. The assets are capitalised in the balance sheet, depreciated over their esimated useful lives and the income from leasing is credited direct to profit and loss account.
