Mrs V A D'Cruz - Director

**NOTES TO THE FINANCIAL STATEMENTS**

**for the period 1 May 2016 to 31 March 2017**

---

**1. STATUTORY INFORMATION**

Thermofrost Cryo Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

**2. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

The company has shortened its accounting period to the period ended 31 March 2017. There is no impact on the comparative period information within the financial statements.

**Turnover**

Turnover represents the amounts receivable, excluding value added tax, in respect of the sale of goods to customers. Turnover is recognised on delivery of goods when the significant risks and rewards are considered to have been transferred to the customer.

**Tangible fixed assets**

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated provisions for impairment. Depreciation is calculated to write off the cost of fixed assets over their estimated useful lives as follows:

Fixtures, fittings and equipment - 20/25% reducing balance basis

Motor vehicles - 33% reducing balance basis

Computer equipment - 25% straight line basis

**Stocks**

Stocks are stated at the lower of cost and estimated selling price less costs to sell. Provision is made for obsolete and slow moving items, where appropriate. Cost is determined on an average cost basis.

**Taxation**

Taxation for the period comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**NOTES TO THE FINANCIAL STATEMENTS - continued**  
**for the period 1 May 2016 to 31 March 2017**

---

**2. ACCOUNTING POLICIES - continued**

**Taxation**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Research and development**

Expenditure on research and development is written off in the year in which it is incurred.

**Foreign currencies**

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Forward currency forward contracts are referred to under Financial Instruments below.

**Hire purchase and leasing commitments**

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to profit or loss over the relevant period. The capital element of the future payments is treated as a liability.

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to the profit and loss account as incurred.

**Pension costs and other post-retirement benefits**

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

**NOTES TO THE FINANCIAL STATEMENTS - continued**  
**for the period 1 May 2016 to 31 March 2017**

---

**2. ACCOUNTING POLICIES - continued**

**Fixed asset investments**

Investments in subsidiaries are measured at cost less impairment. Investments are assessed for indicators of impairment at each balance sheet date. If there is objective evidence of impairment, a provision for impairment is recognised in the income statement. The provision for impairment is recognised as the difference between the assets carrying amount and the best estimate of the amount that would be if it were sold at the reporting date.

**Warranty provision**

An accrual is made for the estimated liability on all products which are the subject of warranty and service agreements. The amount recognised is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, based on the estimated risks and uncertainties surrounding the obligation.

**Profit related bonus scheme**

The company operate a profit related pay bonus scheme for employees. An expense is recognised in the profit and loss account when the Company has a legal or constructive obligation to make payments under the plans as a result of past events and a reliable estimate of the obligation can be made.

**Holiday pay**

The company recognises an accrual for holiday entitlement earned by employees as a result of services rendered in the current period, and which employees are entitled to carry forward and use within the subsequent financial year. The provision is measured at the salary cost payable for the period of absence including employers national insurance costs.

**2. ACCOUNTING POLICIES - continued**

**Financial instruments**

Financial instruments are classified by directors as basic or advanced following the conditions in Section 11 and Section 12 of FRS 102.

Basic financial assets, including trade and other debtors and cash and bank balances are initially recognised at transaction price. Such assets are subsequently carried at amortised cost using the effective interest method.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

Basic financial liabilities, including trade and other creditors and other loans that are classified as debt, are initially recognised at transaction price. Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Derivatives are not complex financial instruments and include forward foreign exchange contracts. These are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at each reporting date. The resulting fair value exchange gains or losses are taken into account in arriving at the operating result in cost of sales.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

**3. EMPLOYEES AND DIRECTORS**

The average number of employees during the period was 38.
