Strategic report

The directors present their Strategic report for the year ended 31 December 2015 for Rock Music Company Limited (the "Company").

Business review

Rock Music Company Limited is a United Kingdom subsidiary of Union Square Music Songs Limited, a company within the BMG Rights Management (UK) Limited ("BMG UK") group. Rock Music Company Limited owns and administers rights to musical compositions, exploits and markets these compositions and receives royalties or fees for their use. It additionally contracts as a sub-publisher for collection and transfer of monies to other affiliated companies within the BMG UK.

Strategy

Rock Music Company Limited is part of an international group of companies focused on the management of music rights. The Company covers the entire range of rights administration, development and exploitation, placing the needs of songwriters and artists at the core of its business model. At the core of the Company's strategy is delivering a high quality rights administration service to artists and writers.

Key performance indicators

The directors monitor the Company's performance in a number of ways including key performance indicators such as reported revenue, net publisher's share (revenue received by a music publisher less royalties payable; "NPS") and operating loss (Earnings Before Interest and Taxes; "EBIT"). The Company is financed through intercompany funding from its Group parent companies and through equity.

Business performance 2015

As shown in the Company's Statement of comprehensive income on page 10, the Company reported revenues of £140,000 (2014: £nil) and gross profit/NPS of £67,000 (2014: £nil). Revenue generated by the Company was historically recognised in the parent company, Union Square Music Songs Limited. In 2015, this practice was changed to bring the Company in line with the accounting policies of the BMG Group, creating revenue and cost of sales in the Company for the current year and reducing the loss from operations. The Company made a loss from operations of £3,000 (2014: £20,000).

Principal risks and uncertainties

There are a number of market and business risks that could affect Rock Music Company Limited. We set out below the Company's view of the main risks which could, should any actually materialise, materially and adversely affect the Company's business, financial condition and return to stakeholders. Further risks and uncertainties which are not presently known to the directors at the date of this document, or that the directors currently deem less significant, may also have an adverse effect on the business, financial condition or results of the Group.

Market risks

Global economic outlook

Rock Music Company Limited receives income from worldwide sources and is susceptible to changes in the global economy. Failure to adjust to changes in the global economy could have a material adverse effect on the Company's business. Rock Music Company Limited is part of a broader group of rights administration companies which are actively building a business presence in the European, US and UK territories as a strategy to diversify this risk.

Music industry growth

The music industry is experiencing a period of ongoing financial challenge due to the changing means by which consumers choose to access music, retail piracy, industrial piracy and a corresponding decline in the sale of the physical product, which may not be offset completely by new digital and internet-based revenue streams.

Intense competition in the music industry could result in higher artist and writer acquisition costs or failure to attract and retain key talent. Such competition may affect customer choices and options available to them for music publishing and administration contracts. These changes could materially and adversely affect the business of Rock Music Company Limited.

Strategic report (continued)

Music industry regulatory and business legal risk

The music publishing industry is regulated, with mechanical and performance royalty rates set by industry bodies, over which the Company has no control. Any significant change to the payment structures operated within the music industry or any decrease in current mechanical or performance royalty rates could have a material adverse effect on the Company's business. Also, future copyright royalty rate arbitration and other industry wide regulations can change the relationships between record labels, artists and music publishers/writers. Such change in regulations could materially and adversely affect the business of Rock Music Company Limited. Copyright royalties are either collected or controlled by third parties, such as collection societies, ceding control over royalty collections to such entities. This diminishes control and might result in lower revenues, if collection fees were revised upwards or collection scope was narrowed, thus affecting the business of Rock Music Company Limited. The Company's business is highly dependent upon copyright ownership, a subject which has encountered increased litigation in recent years. If the Company is alleged to infringe the intellectual property rights of a third party, any litigation to defend the claim could be costly and would divert the time and resources of management of Rock Music Company Limited, regardless of the merits of the claim. If Rock Music Company Limited were to lose a litigation relating to intellectual property, it could be forced to pay monetary damages and to cease the sale of certain products or the use of certain technology. Any of the foregoing may adversely affect the Company's business.

Business risks

Failure to fully exploit organic and acquisition growth opportunities

If Rock Music Company Limited fails to keep pace with industry trends and developments, it may experience competitive disadvantage, which may result in lower margins and loss of market share. Failure to directly or indirectly exploit new growth areas, such as the use of music individual media, could have a material adverse effect on the Company's business. The future success of Rock Music Company Limited therefore depends on the successful implementation of its growth strategy, both through signings and acquisitions.

Client retention and performance of releases

Rock Music Company Limited's prospects may be adversely impacted if the business fails to identify, sign and retain songwriters and artists and by the absence of superstar releases. The decision of potential clients to sign with Rock Music Company Limited or decision of existing clients to remain with Rock Music Company Limited is complex and involves consideration of many factors. As such it is uncertain how many new clients Rock Music Company Limited will sign and what proportion of existing clients will extend their agreements. Equally, Rock Music Company Limited has no control over the release schedule of partnering record companies and the phasing of album releases can impact the Company's results on an annual basis.

Dependency on third party service partners and shareholder affiliates

Emerging channels for music distribution could significantly change the operational setting/configuration and financial performance/returns in the business. Rock Music Company Limited relies on a number of third party business partners and shareholder affiliates to operate successfully. These include sub-publishers, who support Rock Music Company Limited in international rights management and license income collections.

Additionally, Rock Music Company Limited outsources information technology infrastructure, certain finance, accounting and human resources functions and other back-office functions to affiliates operating as service providers in the respective functions.

Financial risks

Exchange rate fluctuation risk

The Company transacts and accounts in local currency, which is converted into the Group reporting currency, creating an exposure to movements in foreign exchange rates. The Company manages its foreign exchange exposure through matching of cash flows from investments, financing and operations. The Company actively manages its residual foreign exchange exposures through use of foreign exchange forward instruments, as appropriate, to manage future foreign exchange rates.

Strategic report (continued)

Interest rate fluctuation risk

The Company is financed through intercompany borrowings which bear interest at short-term LIBOR rates plus a margin. The Company is therefore opposed to fluctuations in interest rates. These exposures are not hedged.

Approved by the Board of Directors and signed on behalf of the Board

Director

22 September 2016

Directors' report

The directors present their Directors' report and the audited financial statements for the year ended 31 December 2015 for Rock Music Company Limited (the "Company").

Principal activities

The principal business of the Company during the year ended 31 December 2015 was the collection and payment of royalties.

The Company's music publishing business can be summarised as an intellectual property business focused on the exploitation of the copyright of songs. In return for promoting, placing, marketing and administering the creative output of a songwriter, the Company retains a share of revenues generated from use of the song. The services described above are also carried out on behalf of other rights holders such as catalogue owners and other publishing companies.

On a selective basis, the Company also signs self-contained artists for new recordings, typically in combination with the signing of a publishing deal. In return for the licensing and administering the creative output of a recording artist, Rock Music Company Limited retains a share of revenues generated from the use of the recording.

Outlook

The directors do not anticipate any significant change in the activities of the Company.

Going concern

After making enquiries, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

Further details regarding the adoption of the going concern basis can be found in Note 1 to the financial statements.

Directors

The Directors of the Company who were in office during the year and up to the date of signing the financial statements were as follows:

Mark Ranyard (resigned 23 December 2015)
Paul Wilson (appointed 1 October 2015)
Hartwig Masuch
Maximilian Dressendoerfer
Martin Costello
John Dobinson (resigned 11 June 2015)
Alexi Cory-Smith

Dividends

The directors do not recommend a dividend (2014: £nil).

Directors and officers insurance

The Company maintains liability insurance for directors and officers of the Company.

Political and charitable contributions

The Company made no political or charitable contributions or incurred any political expenditure during the current year or prior period.

Directors' report (continued)

Statement of disclosure of information to auditors

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- the director has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Independent auditors

PricewaterhouseCoopers LLP have expressed their willingness to continue in office as auditor and a resolution to reappoint them will be proposed at the forthcoming Annual General Meeting.

Approved by the Board of Directors and signed on behalf of the Board

Director

22 September 2016

Statement of directors' responsibilities

The directors are responsible for preparing the Strategic report, Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable International Financial Reporting Standards (IFRSs) as adopted by the European Union have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent auditors' report to the members of Rock Music Company Limited

Report on the financial statements

Our opinion

In our opinion, Rock Music Company Limited's financial statements (the "financial statements"):

- give a true and fair view of the state of the Company's affairs as at 31 December 2015 and of its loss and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

What we have audited

The financial statements, included within the Reports and Financial Statements (the "Annual Report"), comprise:

- the Statement of financial position as at 31 December 2015;
- the Statement of comprehensive income for the year then ended;
- the Statement of changes in equity for the year then ended;
- · the Statement of cash flows for the year then ended; and
- the Notes to the financial statements, which include a summary of significant accounting policies and other explanatory information.

The financial reporting framework that has been applied in the preparation of the financial statements is applicable law and IFRSs as adopted by the European Union.

In applying the financial reporting framework, the directors have made a number of subjective judgements, for example in respect of significant accounting estimates. In making such estimates, they have made assumptions and considered future events.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, the information given in the Strategic report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Other matters on which we are required to report by exception

Adequacy of accounting records and information and explanations received

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Directors' remuneration

Under the Companies Act 2006 we are required to report to you if, in our opinion, certain disclosures of directors' remuneration specified by law are not made. We have no exceptions to report arising from this responsibility.

Independent auditors' report to the members of Rock Music Company Limited (continued)

Responsibilities for the financial statements and the audit

Our responsibilities and those of the directors

As explained more fully in the Statement of directors' responsibilities set out on page 7, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland) ("ISAs (UK & Ireland)"). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

What an audit of financial statements involves

We conducted our audit in accordance with ISAs (UK & Ireland). An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of:

- whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed;
- the reasonableness of significant accounting estimates made by the directors; and
- the overall presentation of the financial statements.

We primarily focus our work in these areas by assessing the directors' judgements against available evidence, forming our own judgements, and evaluating the disclosures in the financial statements.

We test and examine information, using sampling and other auditing techniques, to the extent we consider necessary to provide a reasonable basis for us to draw conclusions. We obtain audit evidence through testing the effectiveness of controls, substantive procedures or a combination of both.

In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Jonathan Ford (Senior Statutory Auditor) for and on behalf of PricewaterhouseCoopers LLP Chartered Accountants and Statutory Auditors London

Notes to the financial statements (continued) Year ended 31 December 2015

1. Accounting policies

Rock Music Company Limited (the "Company") is a company incorporated in the United Kingdom.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all years presented in these financial statements.

The Company has taken exemption from preparing consolidated financial statements afforded by section 400 of the Companies Act 2006, because it is a wholly owned subsidiary of Bertelsmann SE & Co KGaA which prepares consolidated financial statements which are publicly available (refer to note 14).

Basis of preparation

The financial statements are presented in pounds sterling, rounded to the nearest thousand. They are prepared on the historical cost basis except for financial instruments as per measurement convention below.

These financial statements have been prepared in accordance with Companies Act 2006 applicable to companies reporting under International Financial Reporting Standards ("IFRS") as issued by the European Union ("EU").

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year or in the year of the revision and future years if the revision affects both current and future years.

Measurement convention

The financial statements are prepared on the historical cost basis except financial instruments classified as fair value through the profit or loss. Non-current assets and disposal groups held for sale are stated at the lower of carrying amount and fair value less costs to sell.

Going concern

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the Strategic report and Directors' report on pages 2 to 6. The directors have considered the financial resources available along with the future plans for the Company and the support provided by the intermediate holding company Bertelsmann UK Limited when considering the going concern of the Company. After making enquiries, the directors have a reasonable expectation that the Company will have access to adequate resources from its parent company, to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

Notes to the financial statements (continued) Year ended 31 December 2015

1. Accounting policies (continued)

Intangible assets

Intangible assets that are acquired by the Company are stated at cost less accumulated amortisation and impairment losses.

Amortisation is charged to the Statement of comprehensive income on a straight-line basis over the estimated useful lives of intangible assets unless such lives are indefinite. Intangible assets with an indefinite useful life and goodwill are systematically tested for impairment at each Statement of financial position date. Other intangible assets are amortised from the date they are available for use. The estimated useful lives are as follows:

Music catalogues

25 years

Impairment (excluding inventories and deferred tax assets)

The carrying amounts of the Company's assets are reviewed at each Statement of financial position date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the Statement of comprehensive income.

Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to cash-generating units and then to reduce the carrying amount of the other assets in the unit on a pro rata basis. A cash generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

When a decline in the fair value of an available-for-sale financial asset has been recognised directly in equity and there is objective evidence that the asset is impaired, the cumulative loss that had been recognised directly in equity is recognised in profit or loss even though the financial asset has not been derecognised. The amount of the cumulative loss that is recognised in profit or loss is the difference between the acquisition cost and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss.

Calculation of recoverable amount

The recoverable amount of the Company's receivables earned at amortised cost is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets). Receivables with a short duration are not discounted.

The recoverable amount of other assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

1. Accounting policies (continued)

Reversal of impairment

An impairment loss in respect of receivables earned at amortised cost is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised.

An impairment loss in respect of goodwill is not reversed.

In respect of other assets, an impairment loss is reversed when there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount.

Notes to the financial statements (continued) Year ended 31 December 2015

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents for the purpose only of the cash flow statement.

Trade and other receivables

Trade and other receivables to Group companies include the Group cash pooling financing facility with the parent company in Germany. The facility bears interest at a margin above the 3 month LIBOR market rate. Trade and other receivables are stated at amortised cost which approximates to cost less impairment losses.

Trade and other payables

Trade and other payables are stated at amortised cost which approximates to cost.

Revenue

Revenue is measured at the fair value of the consideration receivable and represents amounts receivable for services provided in the normal course of business, net of discounts and value added tax.

Revenue from royalty licensing is recognised in accordance with IAS 18. Where revenue streams have a forward visibility, revenue is recognised on an accruals basis. If there is no or minimal forward visibility of revenue streams, it is not possible to measure the revenue streams reliably until cash is collected.

Music publishing royalties

Music publishing royalties derived from the inclusion of the Company's copyrights on recorded music products or from performance are recognised when they are earned by the Company from the relevant collection society or record company. The Company considers that it can most reliably measure such royalties following receipt of cash or a statement.

Where the Company receives advances which are recoupable from future sales or profits, or are otherwise conditional on continued performance of duties by the Company, these are recorded as liabilities. Revenue is recognised as it is earned.

Advance payments to artists are carried forward within other receivables where they relate to proven artists and where it is estimated that sufficient future income will be recouped against those advance payments. The advance payments should be written off if these are not covered by future income. In case of unproven contract the advance payments should be immediately written off. Any other royalty licensing income is recognised on a cash basis.

Notes to the financial statements (continued) Year ended 31 December 2015

1. Accounting policies (continued)

Net financing costs

Net financing costs comprise interest payable, interest receivable on funds invested, dividend income and foreign exchange gains and losses that are recognised in the Statement of comprehensive income. Interest income and interest payable is recognised in profit or loss as it accrues, using the effective interest method.

Taxation

Tax for the year comprises current and deferred tax. Tax is recognised in the Statement of comprehensive income except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the Statement of financial position date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the Statement of Financial Position date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

Critical accounting judgements and key sources of estimation uncertainty

The following are the critical judgements, apart from those involving estimations (which are dealt with separately below), that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in financial statements.

The Company uses estimates to calculate the writer royalties due for the second half of the year for all the royalty receipts and company used industry standard rates estimate the royalties' accruals.

Writer advances provisions were made during the year based on calculations used across the Group.

Notes to the financial statements (continued) Year ended 31 December 2015

1. Accounting policies (continued)

New and amended standards adopted by the company

The following standards have been adopted by the company for the first time for the financial year beginning 1 January 2015:

• Annual improvements to IFRSs - 2010-2012 Cycle and 2011-2013 Cycle

The adoption of these amendments did not have any impact on the current year or any prior period and is not likely to affect future periods.

New standards and interpretations not yet adopted

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 January 2015, and have not been applied in preparing these financial statements. None of these is expected to have a significant effect on the financial statements of the company:

IFRS 9, 'Financial instruments', addresses the classification, measurement and recognition of financial assets and financial liabilities. The complete version of IFRS 9 was issued in July 2014. It replaces the guidance in IAS 39 that relates to the classification and measurement of financial instruments. IFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financials assets: amortised cost, fair value through OCI and fair value through P&L. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in OCI not recycling. There is now a new expected credit losses model that replaces the incurred loss impairment model used in IAS 39. For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through profit or loss. IFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes. Contemporaneous documentation is still required but is different to that currently prepared under IAS 39. The standard is effective for accounting periods beginning on or after 1 January 2018. Early adoption is permitted subject to EU endorsement.

IFRS 15, 'Revenue from contracts with customers' deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard replaces IAS 18 'Revenue' and IAS 11 'Construction contracts' and related interpretations. The standard is effective for annual periods beginning on or after 1 January 2017 and earlier application is permitted subject to EU endorsement.

Notes to the financial statements (continued) Year ended 31 December 2015

2. Revenue

An analysis of the Company's revenue is as follows:

	Year ended 1 December 2015 £'000	Period from 1 July to 31 December 2014 £'000
United Kingdom	140	-
• •	140	-

The operations of the Company take place wholly in the United Kingdom. Revenue was derived principally from activities conducted within the United Kingdom. The Company does not have any separable operating segments. All assets used by the Company are held in the United Kingdom.

3. Loss from operations

Loss from operations has been arrived at after charging:

Year endo 31 Decemb 20: £'00	er 15	Period from 1 July to 31 December 2014 £'000
Management fees	30	_
Amortisation of intangible assets	40	20
		

The audit fee of £2,000 (2014: £4,000) was borne by BMG Rights Management (UK) Limited.

4. Employee costs and directors' remuneration

The directors received no remuneration from the Company for services during the year (2014: £nil).

The Company did not have any other employees and as a result incurred no staff costs (2014: £nil).

5. Taxation

	Year ended 31 December 2015 £'000	Period from 1 July to 31 December 2014 £'000
Current taxation UK corporation tax – current year	(1)	(4)
Total tax credit	(1)	(4)

The current tax credit represents amounts receivable from fellow UK subsidiaries of the Bertelsmann Group in respect of current year tax losses surrendered in the United Kingdom.

The credit for the year can be reconciled to the profit per the Statement of comprehensive income as follows:

Notes to the financial statements (continued) Year ended 31 December 2015

5. Taxation (continued)

Tax reconciliation

	Year ended 31 December 2015 £'000	Period from 1 July to 31 December 2014 £'000
Loss before taxation	(3)	(20)
Tax using the UK corporation tax rate of 20.25% (2014: 21.0%)	(1)	(4)

The standard rate of corporation tax in the United Kingdom changed from 21% to 20% with effect from 1 April 2015. Accordingly the Company's profits are taxed at an effective rate of 20.25%.

Notes to the financial statements (continued) Year ended 31 December 2015

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company.

12. Financial instruments

Exposure to credit, interest rate and currency risks arises in the normal course of the Company's business.

(a) Fair values of financial instruments

Trade and other receivables

The fair value of trade and other receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the Statement of financial position date if the effect is material.

Trade and other payables

The fair value of trade and other payables is estimated as the present value of future cash flows, discounted at the market rate of interest at the Statement of financial position date if the effect is material.

Cash and cash equivalents

The fair value of cash and cash equivalents is estimated as its carrying amount where the cash is repayable on demand. Where it is not repayable on demand then the fair value is estimated at the present value of future cash flows, discounted at the market rate of interest at the Statement of financial position date.

Notes to the financial statements (continued) Year ended 31 December 2015

13. Financial Instruments (continued)

Interest-bearing borrowings

Fair value, which after initial recognition is determined for disclosure purposes only, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the Statement of financial position date.

Fair values

The fair values for each class of financial assets and financial liabilities together with their carrying amounts shown in the Statement of financial position are as follows:

	2015		2014	
	Carrying amount £'000	Fair value £'000	Carrying amount £'000	Fair value £'000
Trade and other receivables from Group companies	69	69	_	_
Corporation tax receivable	12	12	12	12
Trade and other payables to Group companies	(30)	(30)	-	-
Loan payables to Group companies	(16)	(16)	(5)	(5)
	35	35	7	7
Unrecognised gains/losses				_

(b) Credit risk

Financial risk management

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. This risk is mitigated as balances are spread across multiple parties.

The Company's principal financial assets are trade receivables which represent the Company's maximum exposure to credit risk in relation to financial assets. The Company bears the bad debt risk on all debtors. The Company's management make assessments on new customers before work is earned out, based on their knowledge of the industry and the customer's acceptance of imposed credit terms.

The amounts presented in the statement of financial position are net of allowances for doubtful receivables after taking into consideration the amount of balances covered by the Company's credit insurance policy. These have been estimated by the Company's management based on prior experience and their assessment of the current economic environment.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. Therefore, the maximum exposure to credit risk at the statement of financial position date was £69,000 (2014: £nil), being the total of the carrying amount of trade and other receivables, shown in the table above.

Notes to the financial statements (continued) Year ended 31 December 2015

13. Financial Instruments (continued)

Financial assets and impairment losses

The ageing of trade receivables at the Statement of financial position date was:

	Gross trade receivables £'000	2015 Doubtful debt provision £'000	Net trade receivables £'000	Gross trade receivables £'000	2014 Doubtful debt provision £'000	Net trade receivables £'000
Not past due	69	-	69	-	-	-

(c) Liquidity risk

Financial risk management

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due.

Liquidity is managed by Group via the cash pooling facility.

(d) Market risk

Financial risk management

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments.

Market risk - Foreign currency risk

A proportion of sales and purchases are invoiced in foreign currency (Euros) and the Company bears the foreign currency risk on these debtors and creditors.

Sensitivity analysis - Foreign currency risk

The Company did not issue many foreign currency invoices in the year and so exposure to foreign currency risk is minimal.

Market risk – interest rate risk

The Company utilises a Group cash pooling facility, on which interest is charged at variable rates, based on the 3 month LIBOR market rate.

Sensitivity analysis – interest rate risk

A change of one percent in interest rates at the Statement of financial position date would have increased the profit by the amounts shown below. This calculation assumes that the change occurred at the Statement of financial position date and had been applied to risk exposures existing at that date.

This analysis assumes that all other variables, in particular foreign currency rates, remains constant and considers the effect of financial instruments with variable interest rates.

At the year end it is estimated that an increase of one percentage rise in the 3 month LIBOR market rate would decrease the Company's profit before taxation by approximately £Nil (2014: £Nil)

Notes to the financial statements (continued) Year ended 31 December 2015

13. Related parties

Identity of related parties

The Company's ultimate parent company and Group is the international media company Bertelsmann SE & Co. KGaA.

The Company had a related party relationship in the year with subsidiaries of Bertelsmann SE & Co. KGaA, and with its directors and executive officers.

Related party transactions

During the year the Company entered into the following transactions with related parties. The transactions were priced on an arm's length basis.

	Sales of goods £'000		Trade Balances receivable £'000		Loan Balances payable £'000	
	2015	2014	2015	2014	2015	2014
Union Square Music Songs Limited	37	-	37	-	(16)	(5)
	37	-	37	-	(16)	(5)

14. Ultimate parent company and controlling party

The immediate parent company is Union Square Music Songs Limited, a company incorporated in the United Kingdom. The ultimate parent company is Bertelsmann SE & Co. KGaA.

The results of the Company are included in the consolidated financial statements of Bertelsmann SE & Co. KGaA which is registered at Carl-Bertelsmann-Strasse 270, 33311 Gütersloh, Germany. These consolidated financial statements are publicly available.

No other Group financial statements include the results of the Company.
