For the year ending 31 August 2013 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime

Approved by the Board on 29/04/14 and signed on its behalf by

S A M Dunkley
 Director

A & C Dunkley (Boscombe) Limited

Notes to the Abbreviated Accounts for the Year Ended 31 August 2013

1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Going concern

There are net current liabilities at the balance sheet date. The financial statements have been prepared on a going concern basis as the directors will continue to support the company.

Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any residual value, over their expected useful economic life as follows:

Asset class	Depreciation method and rate
Land and buildings	Not depreciated
Plant and machinery	25% reducing balance
Fixtures and fittings	2 years straight line/25% reducing balance
Motor vehicles	25% reducing balance
Office equipment	3 years straight line

Stock and work in progress

Stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on selling price less anticipated costs to completion and selling costs. Costs include all direct costs and an appropriate proportion of fixed and variable overheads.

Foreign currency

Transactions in foreign currencies are recorded at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the closing rates at the balance sheet date. All exchange differences are included in the profit and loss account.

Hire purchase and leasing

Rentals payable under operating leases are charged in the profit and loss account on a straight line basis over the lease term.

Assets held under finance leases, which are leases where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. The capital element of future obligations under the leases are included as liabilities in the balance sheet. The interest element of the rental obligation is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding. Assets held under hire purchase agreements are capitalised as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. The capital element of future finance payments is included within creditors. Finance charges are allocated to accounting periods over the length of the contract and represent a constant proportion of the balance of capital repayments outstanding.
