NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2013

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Turnover

Turnover consists of the invoiced value (excluding Value Added Tax) of work completed during the year, other than on certain long term contracts where the estimated sales value of the work performed in the year is included

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows.

Plant and machinery

20% straight line

Fixtures, fittings and equipment

20% straight line

Motor vehicles

25% straight line/reducing balance

14 Stock and work in progress

Stock and work in progress are valued at the lower of cost and net realisable value. The work in progress and finished goods comprises materials and direct labour.

Net realisable value is based on the estimated sales price after allowing for all further costs of completion and disposal

1.5 Pensions

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the year they are payable.

1 6 Deferred taxation

Full provision is made for deferred tax arising from timing differences existing at the balance sheet date where there exists an obligation to pay more, or right to pay less tax, with the following exceptions

- Provision is made for tax on gains arising from revaluation of fixed assets, or gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.
- Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be sufficient taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax balances are not discounted and are calculated at the tax rates that are expected to apply in the periods in which timing differences are expected to reverse
