**1 Accounting policies**

The principal accounting policies are summarised below. They have all been applied consistently throughout the year and the preceding year.

**Basis of accounting**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2007).

**Turnover**

Turnover represents amounts receivable for goods and services provided in the normal course of business, net of trade discounts, VAT and other sales related taxes.

**Tangible fixed assets**

Tangible fixed assets are stated at cost or valuation, net of depreciation and any provision for impairment. Depreciation is provided on all tangible fixed assets, other than investment properties and freehold land, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset over its expected useful life, as follows:

Freehold buildings	2% on cost
--------------------	------------

**Investment properties**

Investment properties are revalued annually. Surpluses or deficits on individual properties are transferred to the investment revaluation reserve, except that a deficit which is expected to be permanent and which is in excess of any previously recognised surplus over cost relating to the same property, or the reversal of such a deficit, is charged (or credited) to the profit and loss account. Depreciation is not provided in respect of freehold investment properties, or in respect of leasehold investment properties where the unexpired term of the lease is more than 20 years. The directors consider that this accounting policy, which represents a departure from the statutory accounting rules, is necessary to provide a true and fair view as required under SSAP 19 "Accounting for investment properties". The financial effect of the departure from the statutory accounting rules is not material.
