1 Accounting policies

a) Basis of accounting

The financial statements are prepared on the historical cost basis of accounting and have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company has taken advantage of the exemption, conferred by Financial Reporting Standard 1, from presenting a cash flow statement as it qualifies as a small company.

b) Turnover

Turnover represents net invoiced sales of goods and services, excluding value added tax.

c) Depreciation of tangible fixed assets

Depreciation is provided on all tangible fixed assets at rates calculated to write off the full cost or valuation less estimated residual value of each asset over its estimated useful life. The principal rates in use are:

Freehold buildings 2% on cost

d) Depreciation on investment property

In accordance with the Financial Reporting Standard for Smaller Entities certain of the company's properties, which are held for long term investment, are included in the balance sheet at their open market values. The surplus/deficit on the revaluations of such properties are transferred to the investment property reserve. Depreciation is not provided in respect of these freehold investment properties.

This policy represents a departure from requirements of the Companies Act 2006. The effect of this departure is that depreciation which would normally be charged at 2% per annum on revalued buildings has not been charged in the Profit and Loss Account for this year.
