NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 30 JUNE 2014

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Cash flow

The financial statements do not include a Cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.3 Turnover

Turnover comprises revenue recognised by the company in respect of goods and services supplied during the year, exclusive of Value Added Tax and trade discounts.

The company has two revenue streams. Firstly, in respect of computer hardware sold, revenue is recognised upon delivery of goods to the customer. The second element relates to revenue generated from annual support and maintenance services which are recognised over the life of the contract. Monies received in advance which do not meet the criteria for recognition are deferred in the balance sheet and are released as contract activity progresses.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Motor vehicles	- 25% reducing balance
Fixtures & fittings	- 10% reducing balance or 25% straight line

1.5 Operating leases

Rentals under operating leases are charged to the Profit and loss account on a straight line basis over the lease term.

1.6 Stocks

Stocks are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving stocks. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 30 JUNE 2014

1. ACCOUNTING POLICIES (continued)

1.7 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.
