1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the invoiced value of services supplied by the company, net of Value Added Tax.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Furniture, fixtures and office equipment	15% to 50% reducing balance
Survey equipment	15% to 50% reducing balance

Deferred taxation

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

Investment

Fixed assets investments are stated at cost less provision for diminution in value.

Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.

Leasing and hire purchase commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the lease term.

Group accounts

The financial statements present information about the company as an individual undertaking and not about the group. The company and its subsidiary undertaking comprise a small sized group. The company has therefore taken advantage of the exemptions provided by Section 399(1) of the Companies Act 2006 not to prepare group accounts.
