AEC MANAGEMENT SERVICES LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS

For the Year Ended 31st March 2008

1. Accounting Policies

1.1 Basis of Preparation of Financial Statements

The financial statements are prepared under the historical cost convention.

1.2 Turnover

Turnover represents revenue recognised in the accounts. Revenue is recognised when the Company fulfils its contractual obligations to customers by supplying goods, and excludes Value Added Tax.

1.3 Tangible Fixed Assets and Depreciation

Tangible fixed assets are stated at cost or valuation less depreciation.

Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value over their expected useful lives on the following bases:-

Motor Vehicles	25% per annum reducing balance basis
Computer Hardware and Software	25% per annum reducing balance basis
Office Equipment	25% per annum reducing balance basis

1.4 Hire Purchase Contracts

Assets obtained under hire purchase contracts are capitalised as tangible fixed assets and depreciated over their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods.

1.5 Operating Leases

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to the Profit and Loss Account as incurred.

1.6 Deferred Taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated, but not reversed, at the Balance Sheet date. However, deferred tax assets are recognised only to the extent that the Directors consider that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the Balance Sheet date.

1.7 Pensions

The Company operates defined contribution pension schemes for two of its Directors and the pension charge represents the amounts payable by the Company to the fund in respect of the year.
