NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 24 JUNE 2014

1 ACCOUNTING POLICIES

Basis of Accounting – The accounts have been prepared in accordance with the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover - Turnover represents ground rents receivable.

Investment Properties – Investment properties are to be shown at their open market value. The surplus or deficit arising from the annual revaluation is transferred to the investment revaluation reserve unless a deficit, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

This is in accordance with the Financial reporting Standard for Smaller Entities (effective April 2008) which, unlike the Companies Act 2006, does not require depreciation of investment properties. Investment properties are held for their investment potential and not for use by the company and so their current value is of prime importance. The departure from the provisions of the Act is required in order to give a true and fair view.

Deferred Tax – Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

The directors are of the opinion that the revaluation is of no real value to the members of the company having regard to the nature of the company's activities.
