AUDITOR'S REPORT TO AGRICULTURAL PLANT HIRE LIMITED

UNDER SECTION 449 OF THE COMPANIES ACT 2006

We have examined the abbreviated accounts on pages 2 to 6 together with the full financial statements of Agricultural Plant Hire Limited for the year ended 31 December 2014, prepared under s.396 of the Companies Act 2006.

This report is made solely to the company, in accordance with section 449 of the Companies Act 2006. Our work has been undertaken so that we might state to the company those matters we are required to state to it in a special auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company, for our work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

The directors are responsible for preparing the abbreviated accounts in accordance with s.444 of the Companies Act 2006. It is our responsibility to form an independent opinion as to whether the company is entitled to deliver abbreviated accounts to the Registrar of Companies and whether the abbreviated accounts have been properly prepared in accordance with the regulations made under that section and to report our opinion to you.

Basis of opinion

We conducted our work in accordance with Bulletin 2008/4 "The special auditor's report on abbreviated accounts in the United Kingdom" issued by the Auditing Practices Board. In accordance with that Bulletin we have carried out the procedures we consider necessary to confirm, by reference to the financial statements, that the company is entitled to deliver abbreviated accounts and that the abbreviated accounts to be delivered are properly prepared.

Opinion

In our opinion the company is entitled to deliver abbreviated accounts prepared in accordance with s.444(3) of the Companies Act 2006, and the abbreviated accounts have been properly prepared in accordance with the regulations made under that section.

The annexed notes form part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

1. Accounting policies

These financial statements have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents amounts invoiced by the company in respect sales of machinery, hire contracts undertaken, goods sold, services provided and sundry work done during the year, excluding value added tax. Invoices are raised and credited to the profit and loss account when the hire has taken place. If a contract extends beyond one accounting year the hire is apportioned on a time basis.

Machinery sales are recognised when a signed irrevocable contract is in place.

Hire income in respect of combine harvesters is recognised in the Profit and Loss Account only when the harvest is complete. The proportion of hire income in respect to tractors which relates to the year is recognised in the Profit and Loss Account.

Spares sales are recognised at the point of dispatch. Servicing and repair work is recognised when the work is completed.

Depreciation of fixed assets

Depreciation has been computed to write off the cost of fixed assets to their residual value over their expected useful lives at the following rates:-

Non-Agricultural buildings
Plant and machinery
Tools and equipment
Office equipment
Computer equipment
Motor vehicles
High mileage motor vehicles
2% per annum straight line
5-20% per annum reducing balance
15% per annum reducing balance
25% per annum reducing balance
20-30% per annum reducing balance
33% per annum reducing balance

Stocks

Stocks and work in progress are valued consistently at the lower of cost (on a first in, first out basis) or net realisable value.

Debtors

Debtors are shown after providing for any amounts which in the opinion of the directors may not be collected in full.

Deferred taxation

Deferred tax assets and liabilities have arisen from timing differences between the recognition of gains and losses in the financial statements and their recognition in a tax computation. Full provision is made for all liabilities, and provision is made for assets to the extent that they are considered more likely than not to be recoverable in the foreseeable future. Provision is made using tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based upon rates enacted at the balance sheet date.

Investments

Fixed asset investments relate to share in group undertakings and are held at cost less any permanent diminution in value.

Current asset investments are included at cost less any permanent diminution in value.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

Investment Properties

Investment properties are included in the balance sheet at their open market value on an existing use basis and are not depreciated.

Although this accounting policy is in accordance with SSAP 19 'Accounting for Investment Properties', it is a departure from the general requirements of the Companies Act 2006 for all fixed assets with a finite life to be depreciated. In the opinion of the director, compliance with the accounting standard is necessary for the financial statements to give a true and fair view because the properties are held for investment rather than consumption and therefore systematic annual depreciation would not be appropriate.

Surpluses and temporary deficits arising on valuations are taken to the revaluation reserve, whilst permanent diminutions in value are taken to the Profit and Loss Account.

Foreign exchange

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at a standard rate throughout the year. Exchange differences are taken into account in arriving at the operating profit.

Leasing

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets and depreciated over the shorter of the lease term and their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals paid under operating leases are charged to the profit & loss account on straight line basis over the term of the lease.

Pension costs

Pension costs are charged to the profit and loss account as they fall due.

Scope of accounts

The accounts present the results of the company, not the group. Group accounts are not required as the group is small sized as defined by s398 of the Companies Act 2006. None of the subsidiaries are trading.

Long-term contracts

The company has a number of contracts to maintain machinery. Income is recognised in the profit and loss account over the course of the contract, costs are recognised as they are incurred. Any losses on contracts are taken to the profit and loss account as soon as they are identified.

Commission income from finance companies

The company earns commission by arranging machinery sales which may be financed by hire purchase or lease contracts between the buyer and a finance house. The commission earned on each deal is credited in full to the profit and loss account on the date the third party concludes the finance contract.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

Disposal of machinery

The company's policy has been to hold machinery on its hire fleet for a comparatively short period. The company therefore accounts for profits and losses on disposal as part of its operating activities.

Asset valuation - Impairment

The value of all machinery is reviewed at the year end. Additional depreciation is charged, as necessary, to reduce the net book value of each asset to its estimated recoverable amount.

7. Transactions with directors and officers

Rent amounting to £Nil (2013: £15,000) was paid to S J Allen, the director. The company has an annual commitment of £30,000 rent payable to S J Allen.

Included within other debtors is a balance owed to the company by the director of £1,136 (2013: £1,136) in respect of his loan account. Interest is being charged on this at a commercial rate. The maximum balance outstanding in the year was £1,136. S J Allen also had a sales ledger balance outstanding of £2,169 (2013: £1,303) owed to Agricultural Plant Hire Limited and purchase ledger balance owed by Agricultural Plant Hire Limited to S J Allen of £154 (2013: £83).

The land upon which the company has constructed a building is owned by S J Allen. S J Allen has granted a legal charge in favour of Santander Bank for this land in order to secure liabilities owed by Agricultural Plant Hire Limited.

8. Ultimate holding company

The company is wholly owned by APH (Holdings) Limited.
