## **NOTES TO THE FINANCIAL STATEMENTS**

### **YEAR ENDED 31 DECEMBER 2015**

---

#### **1. STATUTORY INFORMATION**

EMI Group International Holdings Limited is a company limited by shares and incorporated and domiciled in the UK. The registered office is 364-366 Kensington High Street, London, W14 8NS.

#### **2. STATEMENT OF COMPLIANCE**

These financial statements have been prepared in compliance with the FRS 102 as it applies at 31 December 2015.

The company transitioned from previously UK GAAP to FRS 102 as at 1 January 2014. An explanation of how transition to FRS 102 has affected the reported financial position and financial performance is given in note 15.

#### **3. ACCOUNTING POLICIES**

##### **Basis of preparation of financial statements**

The financial statements for the year ended 31 December 2015 are the first financial statements that comply with FRS 102. The presentation currency of these financial statements is sterling and rounded to the nearest £'000.

In the transition to FRS 102 from old UK GAAP, the company has made no measurement and recognition adjustments as explained in note 15.

FRS 102 grants certain first-time adoption exemptions from the full requirements of FRS 102. The following exemptions have been taken in these financial statements:

##### **First time adoption exemptions taken**

- The company has elected to use the previous GAAP valuation of tangible and intangible fixed assets at the date of transition to FRS 102 as its deemed cost at the transition date.
- Separate financial instruments - the company has measured the value of its investments in subsidiaries at cost less impairment. The deemed cost shall be the carrying amount at the date of transition as determined under the entity's previous GAAP valuation.
- Borrowing costs - the company has elected to capitalise borrowing costs only from the date of transition.
- FRS 102 section 35.11.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

Judgements made by directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in next year are discussed in note 15.

## NOTES TO THE FINANCIAL STATEMENTS

### YEAR ENDED 31 DECEMBER 2015

---

#### 3. ACCOUNTING POLICIES (continued)

##### FRS 102 - Qualifying exemptions

- The company's ultimate parent undertaking, Vivendi SA includes the company in its consolidated financial statements. The consolidated financial statements of Vivendi SA are prepared in accordance with International Financial Reporting Standards as adopted by the EU and are available to the public and may be obtained from 42 Avenue de Friedland, 75380 Paris, Cedex 08, France. In these financial statements, the company is considered to be a qualifying entity and has applied the exemptions available under FRS 102 in respect of the following disclosures
- Reconciliation of the number of shares outstanding from the beginning to end of the period
- Cash Flow Statement and related notes,
- Related party disclosures, and
- Key Management Personnel compensation

As the consolidated financial statements of Vivendi SA include the equivalent disclosures, the company has also taken the exemptions under FRS 102 available in respect of the following disclosures

- Certain disclosures required by FRS 102 26 *Share Based Payments*, and
- The disclosures required by FRS 102 11 *Basic Financial Instruments* and FRS 102 12 *Other Financial Instruments Issues* in respect of financial instruments not falling within the fair value accounting rules of Paragraph 36(4) of Schedule 1

##### Other qualifying exemptions

As the ultimate parent undertaking prepares publicly available consolidated accounts and is incorporated within the European Union the company has taken advantage of the exemption under section 400 of the Companies Act 2006 from preparing consolidated accounts. As such, these financial statements give information about the company as an individual undertaking and not about its group.

##### Measurement convention

The financial statements are prepared on the historical cost basis.

##### Going concern

The Company's business activities, together with the factors likely to affect future developments, its financial exposures and its risk exposures are described in the strategic report.

After making enquiries, the directors have a reasonable expectation that the company has adequate resources available to it to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

**EMI GROUP INTERNATIONAL HOLDINGS LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**YEAR ENDED 31 DECEMBER 2015**

---

**3. ACCOUNTING POLICIES (continued)**

**Classification of financial instruments issued by the Company**

In accordance with FRS 102 22, financial instruments issued by the company are treated as equity only to the extent that they meet the following two conditions

- (a) they include no contractual obligations upon the company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the company, and
- (b) where the instrument will or may be settled in the company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the company's own equity instruments or is a derivative that will be settled by the company exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares

**Basic financial instruments**

***Trade and other debtors / creditors***

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Trade and other creditors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses in case of trade debtors. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of instrument for a similar debt instrument.

***Interest-bearing loans borrowings classified as basic financial instruments***

All interest-bearing loans and borrowings are initially recognised at net proceeds. Interest bearing debt is increased by the finance cost in respect of the reporting period and reduced by any settlement made. Interest is charged and earned on a fixed element of the debt at an arms length rate.

Finance costs of debt are allocated over the term of the debt at a constant rate on the carrying amount.

***Investments in subsidiaries, jointly controlled entities and associates***

These are separate financial statements of the company. Investments in subsidiaries, jointly controlled entities and associates are carried at cost less impairment.

**EMI GROUP INTERNATIONAL HOLDINGS LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**YEAR ENDED 31 DECEMBER 2015**

---

**3. ACCOUNTING POLICIES (continued)**

**Impairment excluding stocks deferred tax assets**

***Financial assets (including trade and other debtors)***

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment an impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the company would receive for the asset if it were to be sold at the reporting date. Interest on the impaired asset continues to be recognised through the unwinding of the discount. Impairment losses are recognised in profit or loss. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

***Non-financial assets***

The carrying amounts of the company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

**Expenses**

***Interest receivable and Interest payable***

Interest payable and similar charges include interest payable, finance charges, unwinding of the discount on provisions, and net foreign exchange losses that are recognised through profit or loss in the statement of comprehensive income.

Other interest receivable and similar income include interest receivable on funds invested and net foreign exchange gains.

Interest income and interest payable are recognised in profit or loss as they accrue. Dividend income is recognised in the statement of comprehensive income on the date the company's right to receive payments is established. Foreign currency gains and losses are reported on a net basis.

**EMI GROUP INTERNATIONAL HOLDINGS LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**YEAR ENDED 31 DECEMBER 2015**

---

**3. ACCOUNTING POLICIES (continued)**

**Taxation**

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised through profit or loss in the statement of comprehensive income except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the statement of financial position date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. The following timing differences are not provided for: differences between accumulated depreciation and tax allowances for the cost of a fixed asset if and when all conditions for retaining the tax allowances have been met, and differences relating to investments in subsidiaries, associated and joint ventures to the extent that it is not probable that they will reverse in the foreseeable future and the reporting entity is able to control the reversal of the timing difference. Deferred tax is not recognised on permanent differences arising because certain types of income or expense are non-taxable or are disallowable for tax or because certain tax charges or allowances are greater or smaller than the corresponding income or expense.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the statement of financial position date. Deferred tax balances are not discounted.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Foreign currencies**

Transactions in foreign currencies are translated to the company's functional currency at the foreign exchange rate ruling at the date of transaction. Monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are retranslated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined. Foreign exchange differences arising on translation are recognised through profit or loss in the statement of comprehensive income except for differences arising on the retranslation of qualifying cash flow hedges and items which are fair valued with changes taken to other comprehensive income.

**(b) Factors affecting current tax credit**

The tax assessed on the loss on ordinary activities for the year is the same as the standard rate of corporation tax in the UK of 20.25% (2014 - 21.50%)

The Finance Act 2013 enacted reductions in the UK corporate tax rate to 21% from April 2014 and 20% from April 2015. Deferred tax assets and liabilities are measured at the rate that is expected to apply to the accounting period when the asset is realised or the liability is settled, based on the above rates.

#### 11. CREDITORS: Amounts falling due after more than one year (continued)

Each of the redeemable ordinary shares ranks par pass in all respects with the ordinary shares except in respect of redemption rights

Both the Company and the holder of the redeemable ordinary shares have the right at any time to redeem all or any of the redeemable ordinary shares. No premium is payable on redemption. The Directors of the company which owns 100% of the redeemable ordinary shares, EMI Group Worldwide, have formally waived the right to redeem the shares until 31 December 2016.

The redeemable ordinary shares have been treated as debt rather than equity, and have therefore been included in Creditors due after more than one year.
